TERMS OF SALES

ACCOUNT OPENING

As part of the opening of a new customer account, it will be necessary to send us proof of Company registration, a bank account number and an order with a minimum value of 5.000 € + VAT or 1,000,000 HUF with payment in advance.

DELIVERIES

Times are given as an indication, deliveries outside of these times do not entitle the buyer to cancel the order, to refuse the goods or claim damages.

FREE CARRIAGE

Orders of 100 € or more excluding VAT are delivered free of charge (shipping and packaging), except for our heavy and bulky products, where free delivery applies only for orders of 400 € excl. VAT or more: Dynamite Baits, level chairs, bed chairs, sleeping bags, luggage, boats, waders, float tubes, etc. (detailed list to be downloaded from our media bank). A 10 € excl. VAT fee will be added to any order below the free delivery amount.

PAYMENTS

A discount of 1.5% is granted for payment within eight days from the invoice date.

LATE PENALTIES

In case of non-payment to the agreed terms, our invoices will automatically begin to accumulate interest, at a rate of 1.50% per month until settlement. In addition, a fixed cost of 40 € for administration costs will be incurred.

CAPITALIZATION OF LATE PENALTIES

Overdue penalties still unpaid after a period of one year will accumulate interest at the national rate.

PENALTY CLAUSE

In the case of unpaid debts, the supplier is entitled to claim from the debtor, as a penalty clause, a lump sum compensation corresponding to 10% of the total amount of the unpaid, without formal notice in advance.

COLLECTION COSTS

Bank charges related to declined cheques will be invoiced to the debtor as well as any postage costs related to the sending of any formal notices.

CANCELLATION CLAUSE

In case of unpaid, the sale will be resolved automatically from the notice sent to the debtor.

TERMINATION CLAUSE OF THE TERM

Failure to pay a single payment will result in the immediate payment of all our receivables and the suspension of deliveries.

TITLE RETENTION CLAUSE

The supplied goods will remain our property until the full payment is received, this will allow us to recover them in case of unpaid.

RISK TRANSFER CLAUSE

Despite the existence of a retention of title clause on our goods, the buyer will bear all the risks as from the receipt of these. As a result, he must have an insurance contract in place prior to the receipt of the goods.

APPLICATIONS OF THE LEGAL GUARANTEE

The guarantee applied will be the legal guarantee at the time of the transaction, in all cases, we will not accept any repair or exchange of products under warranty unless the receipt or the duly completed and dated guarantee form is attached.

CLAIMS AND RETURNS

CLAIMS RELATING TO TRANSPORT

Regarding disputes arising during transport, the onus is on the addressee to raise any discrepancies and necessary reservations specifying the nature of the issues, loss, missing, damage or delay. Claims concerning the quality of the goods must be made within 48 hours with the company.

RETURN OF GOODS

All returns of goods must be subject to prior authorization from your local Rapala VMC Distributor or any other Rapala VMC affiliates. Products must be returned in their original packaging, untagged and undamaged. Rapala VMC companies reserves the right to apply a discount on returned products (a minimum of 30%).

OTHER CLAIMS

For all other claims (missing items or quantities / product delivered broken, defective or incomplete / price or discount error, etc.), these must be notified to us within a maximum of 2 months after the date of invoicing of the goods; after this period, our company reserves the right to refuse to deal with the claim.

ATTRIBUTIVE CLAUSE OF COMPETENCE

In the event of litigation, both with our suppliers and with our clients, the attribution of competence is made to the courts from our head office.

BRANDS AND LOGOS

The use of our trademarks, logos and images of our products is subject to authorization.

THE WEIGHTS, DIMENSIONS OF OUR PRODUCTS, AND THE RESISTANCE OF OUR LINES ARE INDICATIVE AND NOT CONTRACTUAL; THEY CAN NOT IN ANY CASE ENGAGE ANY RAPALA VMC COMPANY.

THE QUEST FOR PERFECTION, SINCE 1936

The anticipation levels soar with your new lure as you make that first cast, hoping & wishing that all of the decisions which have lead you to this point will give you the best chance of reaching your angling goals.

When you attach a Rapala lure to the end of your fishing line, you are improving your chance of your goals become reality. With Rapala, you are connecting to a piece of history; a product that has been refined and re-engineered using the experience gained from over 80 years of learning how to catch fish, in waters around the world.

The same attention to detail and tradition that you find in our lures is extended to all fishing tackle sold under the Rapala brand; from our tools & accessories, to our technical clothing and beyond.

MATERIALS AND FINISHES

BALSA WOOD

Balsa wood has always been the material of choice for Rapala's iconic lures; such as the Original Floater and CountDown – the lures that started it all. Even today, a precisely shaped and precision weighted balsa body gives the lure the most responsive and life-like action, unachievable with any other material. Balsa wood is quite unique; it is a very sustainable product thanks to its rapid growth rate, and despite being so light it is still very strong and is classified as the softest commercial hardwood – the perfect initial ingredient in creating the famous Rapala "wounded minnow" action.

ABACHI WOOD

Abachi wood is the perfect choice for Rapala when a tougher wooden lure is required. Abachi is used in the manufacture of Rapala lures such as the CountDown Magnum – lures that are designed to target big fish. Abachi offers a similar life-like, natural swimming action to balsa. The major difference between abachi and balsa is the strength and also the buoyancy; balsa has higher buoyancy and will rise faster in the water than abachi.

PLASTIC

Plastic is the great artificial material for manufacturing fishing lures, it lends itself to a variety of options for finishes and translucency. Plastic is ideal for lures that have to be very strong and durable or neutrally buoyant (suspending). Plastic lures can be built to be as noisy as a swarm of bees or as silent as a mouse. Translucent plastic can have texture on either side, allowing very realistic life-like finishes with 3D scales, lateral lines, gills and fins when combined with internal metallic or holographic finishes and external paint and print patterns.

ORIGINAL RAPALA FOIL

Rapala's original foil is the perfect all-rounder when it comes to selecting a general purpose finish to mimic natural baitfish. The original foil produces a moderate amount of flash and showcases a fantastically detailed, natural scale pattern.

PAINTED & PRINTED

Painted and printed finishes are generally found on wooden bodied lures, such as the CountDown and Original Floater. These color combinations give off a low amount of flash, and can be produced to provide either natural or high contrast attractor patterns.

HOLOGRAPHIC FOIL

The holographic foil is a signature ingredient within the X-Rap concept; it is what gives that strikeinducing flash that fish just can't resist. Holographic foils are used both internally and externally to achieve intense flash that still blends into the natural underwater environment.

METALLIC PLATING

Metallic finishes are used to imitate really shiny baitfish species and to create a lot of flash to catch the fish's attention. Combined with paint and print patterns, chrome finishes can be used to create highly detailed baitfish imitations as well as bright and flashy attractor patterns.

CUSTOM HD LIVE

Created in perfect detail, the advanced Custom HD finishes are the most life-like replicas of nature ever. The artisanal finishes are a mix of modern printing technology combined with classic Rapala foil finishes and deep knowledge on how to combine the best of both to create stunningly beautiful baitfish imitations.

GILDED FINISH

In nature, numerous baitfish open their mouth wide open when feeding, allowing their gills to reflect light in a shiny, metallic flash. The gilded finish replicates that flash with an added metallic finish on the lure's head – resulting in a polished yet life-like design.

UV BRIGHT

It is widely understood that many fish species see into the UV spectrum, which aids in hunting prey. Some of our lures are coated with UV reflective particles which greatly enhance their visibility to predatory species. UV light is invisible to most humans, so you'll just have to try a UV BRIGHT lure and experience the results first-hand.

GLOW

Glow colors reserve light energy into the coating and release it in the dark – be it because of night or deep water – to create an irresistible target for the predators.

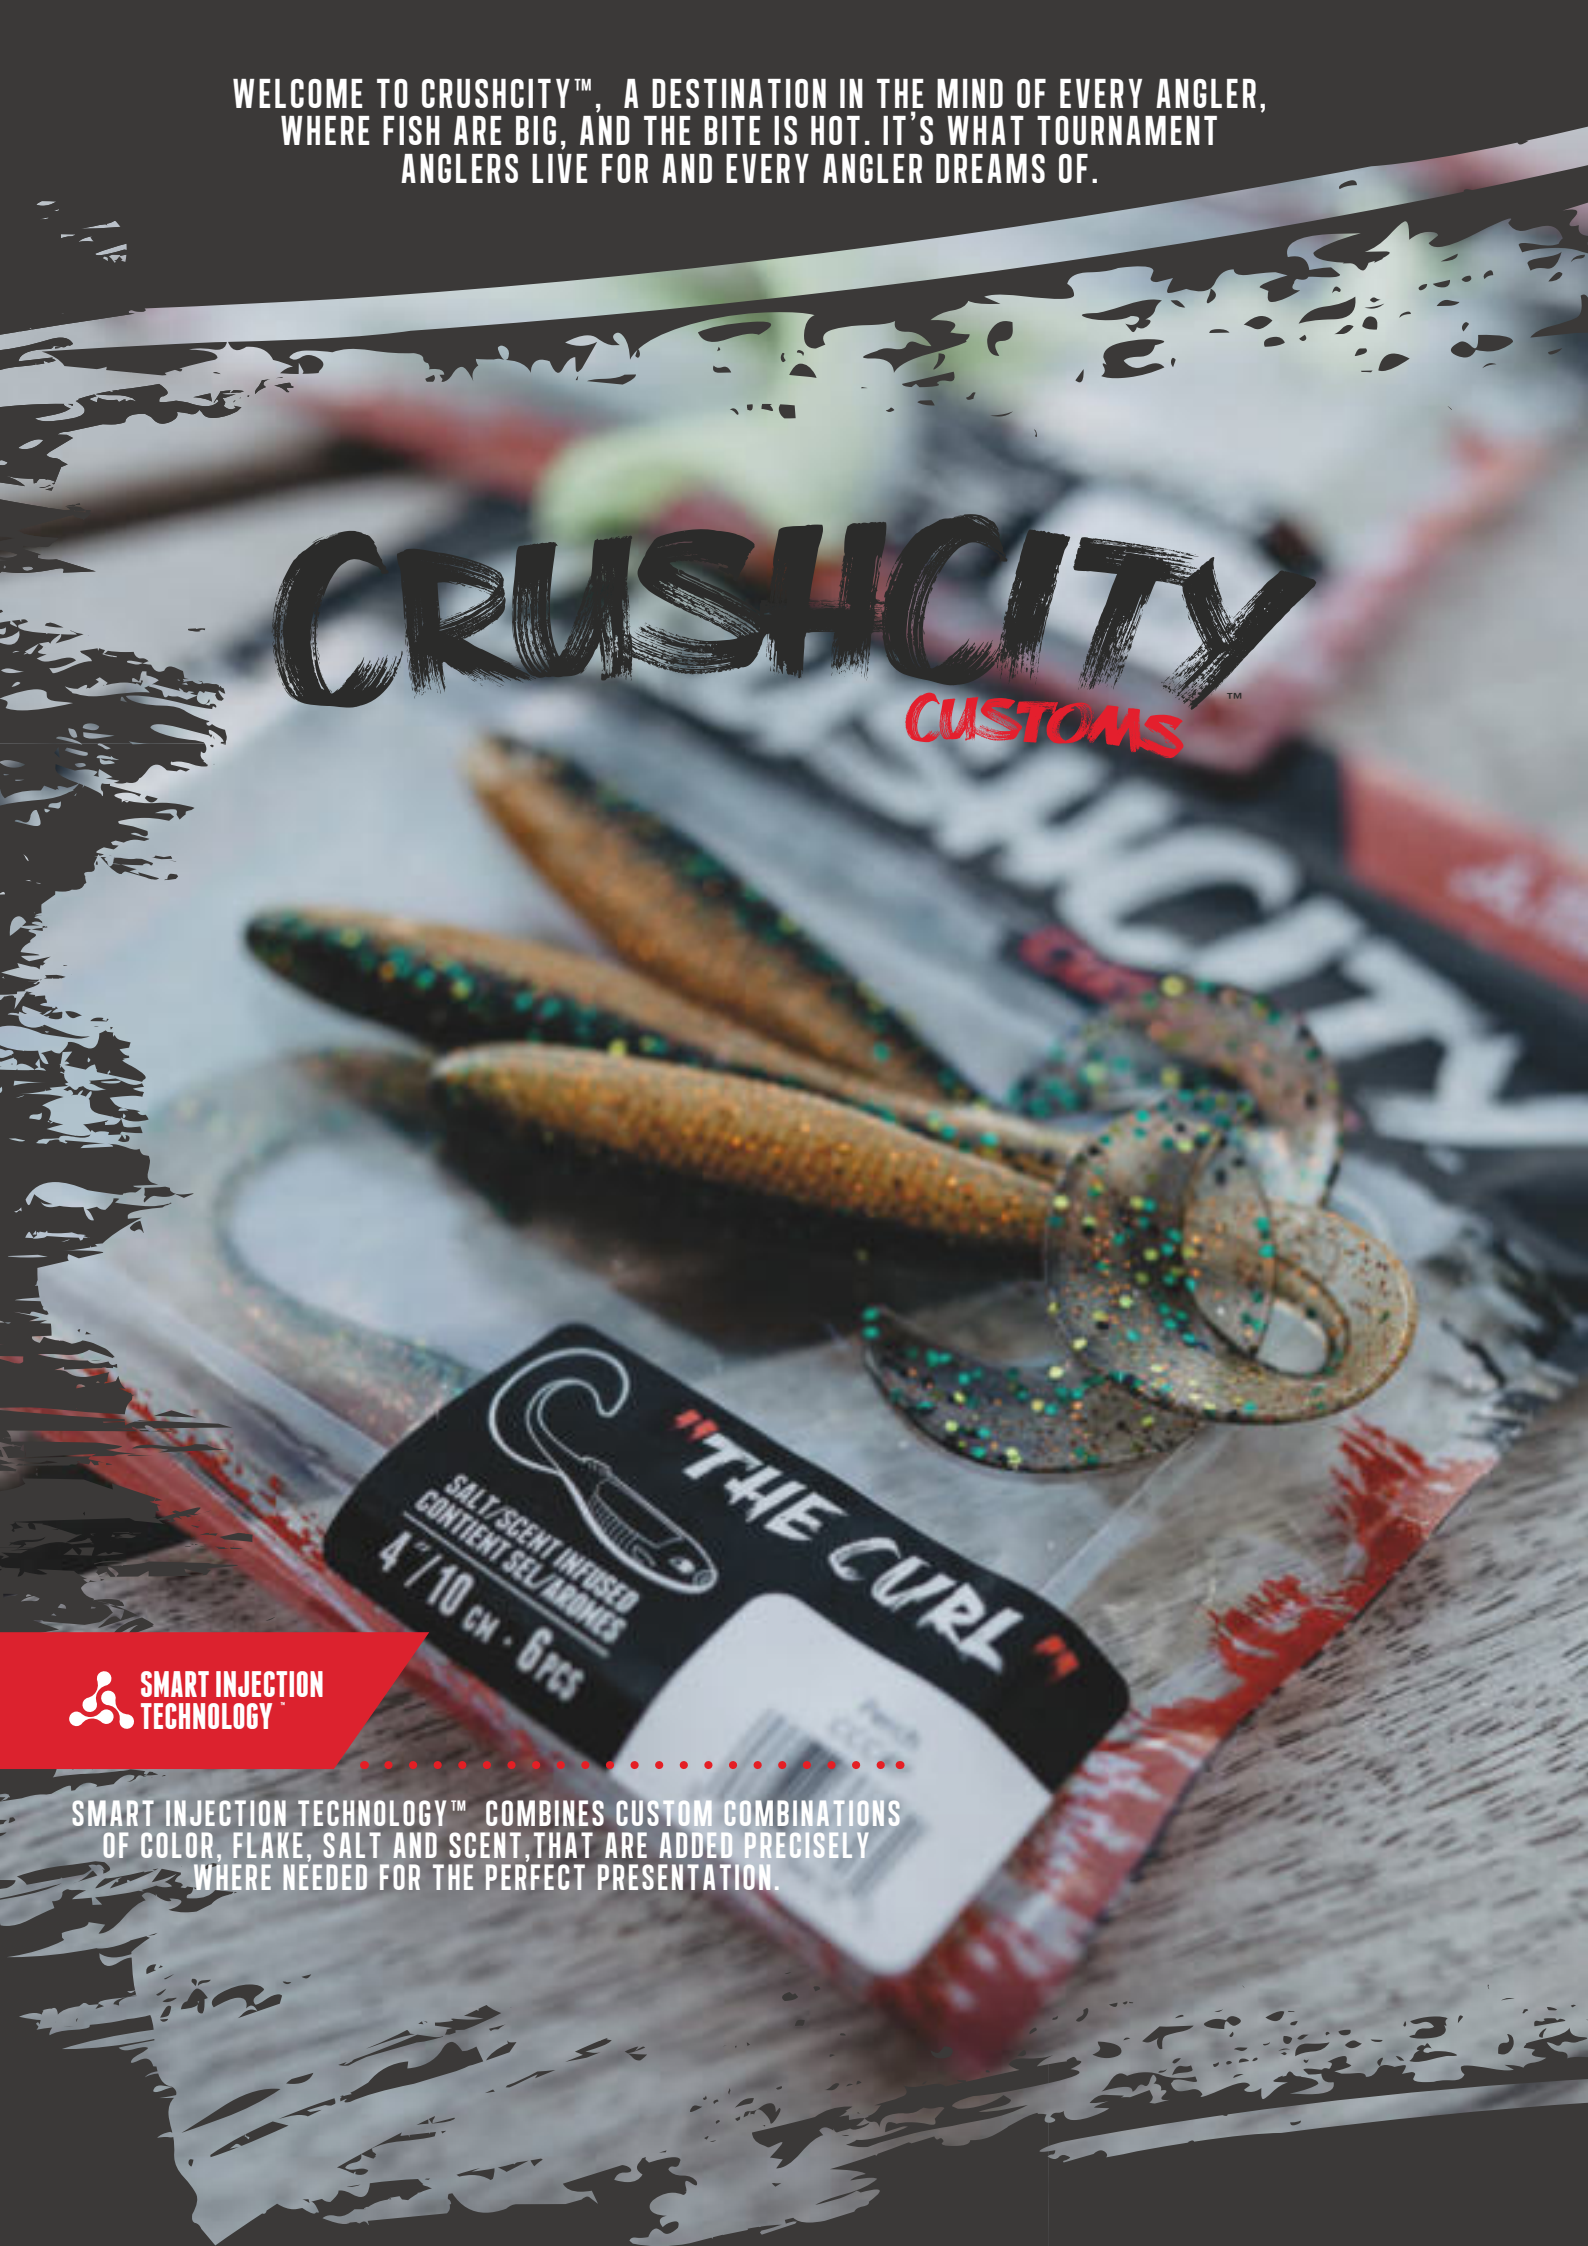
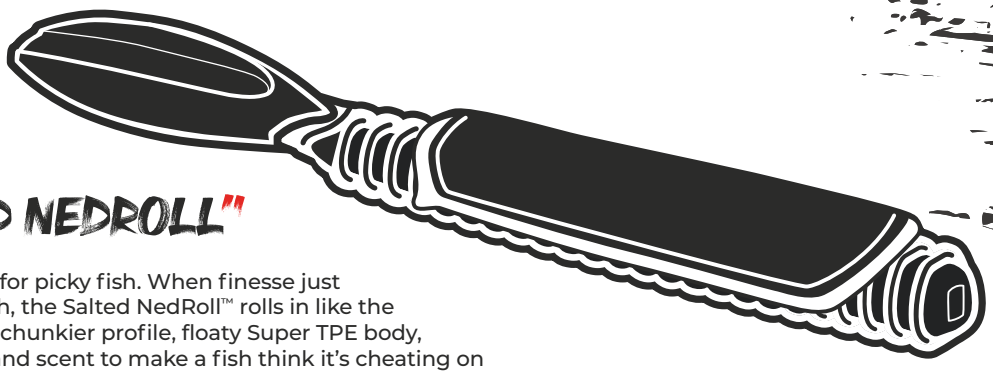
WELCOME TO CRUSHCITY™, A DESTINATION IN THE MIND OF EVERY ANGLER, WHERE FISH ARE BIG, AND THE BITE IS HOT. IT'S WHAT TOURNAMENT ANGLERS LIVE FOR AND EVERY ANGLER DREAMS OF.

CRUSHCITY CUSTOMS™



SMART INJECTION TECHNOLOGY™

SMART INJECTION TECHNOLOGY™ COMBINES CUSTOM COMBINATIONS OF COLOR, FLAKE, SALT AND SCENT,THAT ARE ADDED PRECISELY WHERE NEEDED FOR THE PERFECT PRESENTATION.



NEW "SALTED NEDROLL"

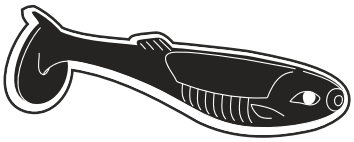
Big snack energy for picky fish. When finesse just isn't flashy enough, the Salted NedRoll™ rolls in like the snack it is. With a chunkier profile, floaty Super TPE body, and enough salt and scent to make a fish think it's cheating on its diet, this bait is pure temptation. Drop it, drag it, deadstick it — Smart Injection Technology® makes sure it looks good from every angle. Built for Ned rigs, drop shots, and drama.

GET READY TO GET CRUSHED

-MEET THE GANG- THEIR ACTIONS, ATTITUDES AND WILLING TO GET OUT THERE AND GET CRUSHED IS JUST ANOTHER DAY IN THEIR WORLD, WE'RE JUST LIVING IN IT.

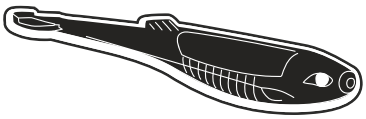
"THE CURL"

If the fish aren't eating, it's just because they haven't seen **THE CURL** yet. The Curl is a soft bait with a super-responsive curl tail that undulates and flutters. The bait's tail is designed to start the action even at very low speed, making The Curl a go-to choice when the fish are picky.



"THE KICKMAN"

THE KICKMAN LIVES UP to its name with a subtle kicking paddle tail that moves with the slowest of retrieves. The salted belly adds some flavour to the mix giving it a true stable swimming action.

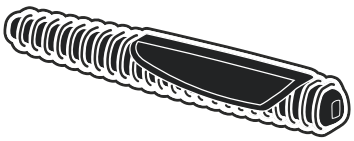


"THE STINGMAN"

THE STINGMAN IS THE BAIT you want as a wingman to your jighead. This super stable swimmer is perfectly suited to vertical, darting, weightless and drop shot techniques. The pin tail is super sensitive making the bait very responsive to various presentations.

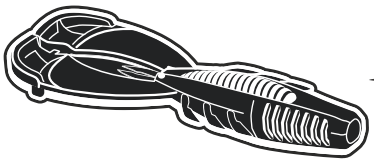
"FREELOADER"

THE FREELOADER™ IS A US DESIGNED pintail that works for a variety of presentations, but will shine especially when you rig it as a trailer of bladed jigs or spinner baits. The very responsive tail reacts to even the smallest of movements of the bait.



"NED BLT"

EVERY DETAIL DESIGNED with functionality in mind, Ned BLT™ is a very responsive and super durable TPE worm. It is very buoyant and can take also very low temperatures while staying super soft and elastic.



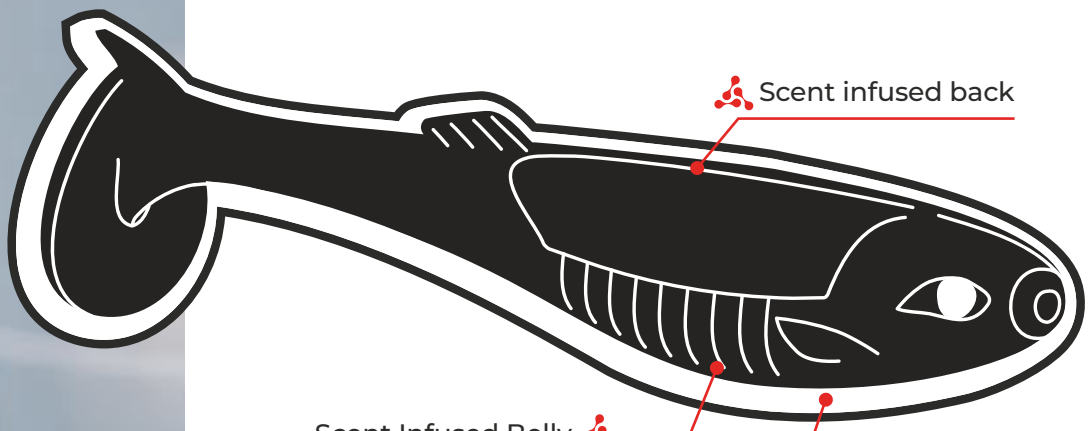
"CLEANUP CRAW"

LIKE ALL CRUSHCITY™ BAITS, the Cleanup Craw™ was crafted by leading Rapala anglers with the idea to make a dream craw bait. The Cleanup Craw™ is Rapala's response to soft craw imitations. Every detail has been designed with action and functionality in mind.

CRUSHCITY™ IS THE COLLABORATION OF RAPALA® AND PROFESSIONAL BASS ANGLER JACOB WHEELER TO CREATE WHAT WHEELER CALLS “THE SOFT BAITS I NEED TO WIN TOURNAMENTS”

CRUSHCITY CUSTOMS

TO CRUSH THE COMPETITION, WE'VE DEVELOPED SMART INJECTION TECHNOLOGY™ – A TECHNIQUE TO INJECT SPECIAL INGREDIENTS INTO THE BAIT'S BODY, WE CREATED THE PERFECT COMBINATION OF LIFELIKE ACTION, BUOYANCY, SALT-CONTENT AND SCENT THAT MAKES BIG FISH WANT TO SMASH IT EVERY TIME.



SMART INJECTION TECHNOLOGY™

INNOVATIVE – SMART INJECTION TECHNOLOGY™ ALLOWS RAPALA® TO INJECT SPECIFIC INGREDIENTS AND CREATE THE PERFECT COMBINATION OF LIFELIKE ACTION, BUOYANCY, SALT-CONTENT AND TASTE TO MAKE BIG FISH CRUSH EVERY BAIT.

CASTING

NEW

SALTED NEDROLL

When a bigger profile is required for finesse applications, the Salted NedRoll™ is the perfect snack.

Super TPE - durable, floating plastic • Perfect for finesse situations • Extra salt and scent provide more natural presentation on a drop shot or Ned rig • Smart Injection Technology® combines custom combinations of color, flake, salt and scent that are added precisely where needed for the perfect presentation

THE KICKMAN

The Kickman lives up to its name with a subtle kicking paddle tail that moves with the slowest of retrieves. The salted belly adds some flavour to the mix giving it a true stable swimming action.

CLEANUP CRAW

Like all CrushCity™ baits, the Cleanup Craw™ was crafted by leading Rapala anglers with the idea to make a dream craw bait. The Cleanup Craw™ is Rapala's response to soft craw imitations. Every detail has been designed with action and functionality in mind.

Tight Kicking Action Claws • Perfect for Flipping, Punching, Dragging or a Trailer • Soft Ribbed Hook Slots on the Back to Protect Hook Point • Smart Injection Technology™

PRECISION XTREME AIR BOSS

Ace in the sky. Designed as the multi-species powerhouse, the Precision Xtreme Air Boss comes packed with features that make it the go-to hardbait for almost any freshwater circumstances. When casting, the internal tungsten weights of the MaxCast system kick into action, allowing for bullet-like casts even in headwinds. And when in water, the Precision Xtreme Air Boss swims with an enticing wobble on steady retrieves – and jerks from side to side when twitched. The suspending action helps you stay in the strike zone, while the tough wire-through construction ensures the lure holds its own against any freshwater predator.

NEW

PRECISION XTREME AIR BOSS SALTWATER

Ace in the sky. Designed as the multi-species powerhouse, the Precision Xtreme Air Boss Saltwater comes packed with features that make it the go-to hardbait for almost any saltwater circumstances. When casting, the saltwater-optimized tungsten weights of the MaxCast system kick into action, allowing for bullet-like casts even in headwinds. And when in water, the Precision Xtreme Air Boss SW swims with an enticing wobble on steady retrieves – and jerks from side to side when twitched. The suspending action helps you stay in the strike zone, while the tough wire-through construction ensures the lure holds its own against fierce saltwater predators. Finished with appealing and life-like saltwater colors.

Long Casting • Suspending • Lead-Free • Wire-Through Construction • Hand Tuned & Tank Tested • VMC® 7547 hooks

CASTING

PRECISION XTREME MAVRIK

No corners cut, no expense saved – the new member in the Precision Xtreme series is here. Designed as the ultimate twitchbait, the Precision Xtreme Mavrik 110 is built with an inner MaxCast System to provide accurate, ultra-long casts. Fish it slow with short twitches to walk the bait. With quick snaps, you can get the bait to turn nearly 180 degrees. When paused, the Mavrik mimics a wounded fish with its head-down suspended posture. Finished with finely detailed modern colors, durable construction, and three razor-sharp VMC Redline treble hooks.

Semi-Erratic Action • Suspending Minnow • Hard Cutting Action • 3D High Quality Finish • MaxCast System • Ultra Long Casting • VMC® 7544 CT Treble Hook

PRECISION XTREME MAVRIK SALTWATER

No corners cut, no expense saved – the new member in the Precision Xtreme series is here. Designed as the ultimate saltwater twitchbait, the Precision Xtreme Mavrik 110 SW is customized to meet the demands of dedicated saltwater anglers. The built-in MaxCast system provides accurate, ultra-long casts with added tungsten weight improving performance in windy conditions. Fish it slow with short twitches to walk the bait. With quick snaps, you can get the bait to turn nearly 180 degrees. When paused, the Mavrik mimics a wounded fish with its head-down suspended posture. Finished with finely detailed saltwater colors, durable construction, and three corrosion-resistant VMC TI treble hooks.

Semi-Erratic Action • Slow Sinking Minnow • Hard Cutting Action • 3D High Quality Finish • MaxCast System • Ultra Long Casting • Heavy Duty Split Rings • VMC® 7548 Ti Treble Hook

PRECISION XTREME PENCIL

Precise Design – Xtreme Action! Inside the Precision Xtreme Pencil's durable and through-wired plastic body is an internal weight system that makes the lure one of the best-casting baits in its category. The internal weight doubles as the Dual Frequency Knocker: as the weight slides along the internal railing, it hits a durability-increasing plastic pillar and a stainless-steel weight in turns. This results in a sequence of high and low pitch, attracting fish from near and far! The extremely detailed Precision Xtreme Pencil features printed scales, a new 3D holographic eye, and comes in 13 fish-catching freshwater colors.

Topwater • Walk-the Dog Action • Wire-Through Construction • Dual Frequency Knocker • Ultra-Long Casting • Durable Plastic Body with Internal Pillar • Lead-Free • Textured Translucent Body with Ultra-Detailed Finishes • New 3D Holographic Eye • VMC® 7548 Black Nickel Treble Hooks • Floating

CASTING & TROLLING

NEW

COUNTDOWN MAGNUM ELITE

Built upon the legendary durability and world- record producing classic Rapala "Wounded-Minnow" action of the Magnum®, the CountDown® Magnum® Elite has a tough Abachi wood body and is constructed to be more heavy duty for handling the most powerful predator species. Utilizing premium hardware, including 3X VMC® ultra sharp saltwater hooks, this lure swims true at higher speeds, cast or trolled.

Super Tough Abachi Wood • Sinking • Anti-Broach Design • Classic Rapala® "Wounded-Minnow" Action • Multi-Species • Saltwater • 3X VMC® Tin Finish Needle Point Hooks • Heavy Duty Split Rings

CASTING

NEW SIZE

FLOATER® ELITE

The Legend's gone Elite. The long-casting Original Floater® Elite delivers the fish-catching Wounded Minnow Action with heavy-duty construction and modern gilded finishes. Designed for freshwater casting and trolling in both slow and fast retrieves, the premium balsa bait has a very responsive action that starts even at super slow speeds. To increase the effect, the sides of the Original Floater® Elite's head are completely flat, giving off an intense flash the fish can't deny.

Balsa Body • Natural Minnow Profile • Long Casting • Floating • Lead-Free • Wire-Through Construction • Hand Tuned & Tank Tested • VMC® 7554 hooks

CASTING

COUNTDOWN® ELITE

The CountDown® Elite harnesses over 80 years of lure making craftmanship into a premium balsa lure. It features the legendary controlled slow-sinking method of the original CountDown®. The new CountDown® Elite is built with a modern construction for maximum casting distance and accuracy, improved durability and versatility - and a flutter on the drop. The color patterns combine metallic plating, HD printing and new designs, bringing the look to a totally new level.

Balsa body • Heavy-duty split rings • Wire-through construction • Targeted for Trout and Perch • VMC® Black Nickel hooks • Sinking

CASTING & TROLLING

SHAD RAP® ELITE

Premium balsa, fish-catching action on both casting and trolling, and a natural baitfish profile – given the Elite treatment! The Shad Rap Elite builds on the well-proven qualities of the immensely popular Shad Rap® crankbait and pairs it with modern wire-through construction in the body for maximum casting distance and durability. Resembling baitfish found the world over, the responsive lure's action ranges from a wide wobble to a tight shimmy – depending on how fast you retrieve it. The Shad Rap Elite features VMC®'s 75' Series treble hooks with the extra-sharp Needle Point® designed for landing large and spirited fish.

Casting and Trolling • Floating • Balsa Body • Long-Casting • Heavy-Duty body • Wire-Through Construction • Versatile Swimming Action • Lead-Free • Hand-Tuned & Tank-Tested • VMC® 7554 2X Black Nickel Treble Hooks

NEW

SOFT PETO PRERIGGED

Pre-rigged and ready to roll. The Soft Peto Prerigged™ brings the classic soft bait into the premium pre-rigged league. Designed for European all type of predator fishing, this soft beast pairs the proven Peto profile with a magnetized belly hook holder for solid hook-ups and clean, snag-free presentations. Made from soft PVC for a life-like swimming action, the Soft Peto Prerigged™ swims true at any speed. The soft bait comes equipped with the integrated Screw Diver System™ and a 3.5 g brass weight, allowing you to adjust the swimming depth easily.

Ready to fish • Screw Diver System • Magnet belly hook holder • 2 hook positions • 3,5g weight included • VMC 7547 hook

NEW

SOFT OLIO PRERIGGED

Two killers make a deadly combo. The Soft Olio Prerigged™ fuses the versatility of Rapala's Soft Olio with the pulling power of the VMC® Mustache Jig Head and the pike-proof strength of the VMC® Pike Chain. When retrieved, the Soft Olio's curly twin tails flutter enticingly, while the Mustache Jig Head increases the bait's water displacement to grab the attention of large pikes. Each Soft Olio Prerigged™ comes color-matched for maximum appeal and armed with a super-sharp VMC® 7547 Hybrid treble hook for unyielding hook-sets. All pre-rigged and ready to go.

Ready to fish • Olio colors matching mustache colors • VMC 7547 hook

SOFT PETO

The Beast has gone soft – with rock-solid results. The Soft Peto takes the well-proven action of the best-selling X-Rap® Peto and combines it with the increased versatility allowed by different rigging applications. Featuring a strong paddletail kick, the sensitive soft bait can be retrieved at any speed without losing the fish-catching swimming action – allowing the Soft Peto to adapt to different situations with ease. Thanks to the soft plastic construction, the Soft Peto's textured body provides increased vibrations in the water. Finished with a three-dimensional scale pattern to give the bait a unique and life-like appearance.

SOFT OTUS

The Creature has gone soft – with rock-solid results. A soft bait version of the X-Rap® Otus, the Soft Otus builds on the well-proven action and combines it with the increased versatility of different rigging options. Designed for targeting large predators in various situations, the soft bait maintains its enticing side-to-side roll even in slow retrieves. When paused, the tail stabilizes the lure as it slowly swims into the depths. Thanks to the soft plastic construction, the Soft Otus' textured body provides increased vibrations in the water. Finished with a three-dimensional scale pattern for a unique and life-like appearance.

NEW COLORS

SOFT OLIO

If you didn't believe in monsters, now's a good time to start. A relative species to the Peto and Otus, the Soft Olio builds on the well-proven side-to-side rolling action – and adds in the irresistible display of the curly twin tails. Designed for targeting large predators in various situations, the soft bait maintains its action in slow retrieves and can be rigged for optimal presentation. When paused, the split tail flutters enticingly as the lure slowly swims into the depths. Thanks to the soft plastic construction, the Soft Olio's textured body provides increased vibrations in the water.

SUPER SHADOW RAP JERK UV HOOK

When the Super Shadow Rap® action meets a full-on jerkbait body, great things happen. Designed for versatile presentations, the Super Shadow Rap Jerk® swims with a fish-catching side-to-side action that reacts to every twitch and crank. Thanks to this responsive action, the Super Shadow Rap Jerk® can be fished almost in place with short twitches, extending the time spent in the strike zone. Use the Screw Diver System's™ tungsten weights to adjust the swimming depth and go knocking right where the big ones lurk.

A Truly Versatile Jerkbait Designed For Cranking And Rod Twitches • Stay-In-The-Strike Zone Action • Features The Easily Modifiable Built-In Swimming Depth Modification Screw Diver System • VMC® 4551UV Treble Hooks

SUPER SHADOW RAP GLIDE UV HOOK

The pike favorite has learned new tricks. The Super Shadow Rap Glide swims in a fish-catching S-pattern, but that's just the start. When you need to adjust the swimming depth, the revolutionary Screw Diver System allows you to modify the lure's weight with changeable tungsten weights. Simply screw it on and off! The master of adaptation, this jointed swimbait comes with a spare tail, allowing you to choose between life-like and aggressive colors. On steady retrieves, the Super Shadow Rap Glide gives off a slow S-pattern swimming action – with twitching, the lure swims with short turns. And when the fish is on, the swiveled hooks increase your chance of landing your catch. Extra Screw Diver System weights sold separately.

Life-Like Swimming Action • Swiveling Hooks • Spare Tail Included • Adjustable Swimming Depth with Screw Diver System • 5g SDS on 11cm • 10g SDS on 16cm • Heavy Duty Split Rings • VMC® 4551UV Treble Hooks • Sinking

SCREW DIVER SYSTEM WEIGHTS

Modify the swimming depth with the turn of your wrist – literally. With the Screw Diver System, you can adjust the swimming depth of your Screw Diver System (SDS) compatible bait to dive right into the strike zone. The system's easy-to-use tungsten weights can be attached to the lure by hand, allowing you to scan the waters column by column. Available in four different weights: 5, 7.5, 10, and 15 grams.

CASTING

SHADOW RAP®

Designed to perfectly mimic the last struggle of a dying minnow, the Shadow Rap® makes tight turns when twitched, turns to look back and then settles to a head down position with a quiver before starting a slow fade-away dive on the pause. Can be fished almost in place with short twitches, extending the time the lure spends on the strike zone.

Responsive, Tight-Turning Jerkbait Action • Head-Down Flickering Fade-Away on the Stop • Mimics Dying Baitfish • Internal Metallic Plating and Natural Scale Pattern • Translucent Sides with Holographic Inserts and Bone Pattern • Tungsten and Steel Weights for Perfect Balance • VMC® Black Nickel Hooks • Slow Sinking

CASTING

SHADOW RAP® DEEP

Ideal for a slow moving, yet action-packed dying minnow presentation in a little bit deeper water than the Shadow Rap®. Can be fished with little forward movement, yet a lot of side to side action. With a fast twitch followed by slack line, the Shadow Rap® Deep turns to look back almost 180 degrees before settling with a flicker to a fade away dying dive.

Responsive, Tight-Turning Jerkbait Action • Head-Down Flickering Fade-Away on the Stop • Mimics Dying Baitfish • Internal Metallic Plating and Natural Scale Pattern • Translucent Sides with Holographic Inserts and Bone Pattern • Tungsten and Steel Weights for Perfect Balance • VMC® Black Nickel Hooks • Slow Sinking

CASTING

SHADOW RAP® SHAD

Big fish can't resist the tantalizing, slow-rising action of the new Shadow Rap® Shad. Swimming with the infamous horizontal struggle with a vertical "rise" on pause, they perfectly mimic a shad in trouble. Larger profile presents more flash and the option to fish from a finesse to more aggressive retrieve. Tie one on and see what monsters are hiding in the darkness.

Textured Scale Body • Translucent & Frosted Colors • Sharp Left to Right Turns • Slow Rising on Pause • Casting • 0.9-1.2 m Depth • Multi-Species Gamefish • VMC® Thin Wire Black Nickel Round Bend Hooks

CASTING

SHADOW RAP® SHAD DEEP

The Shadow Rap® Shad Deep breaks the mold. Fish it finesse in the morning when the big ones are still a little sleepy, then ramp it up all the way to an aggressive action, matching the mood of the fish. The revolutionary new "frosted" colors absorb light and minimize flash, just right for an enhanced absence of aggressiveness.

Textured Scale Body • Translucent & Frosted Colors • Sharp Left to Right Turns • Slow Rising on Pause • Casting • 1.5-1.8 m Depth • Multi-Species Gamefish • VMC® Thin Wire Black Nickel Round Bend Hooks

CASTING

SHADOW RAP® FAT JACK

The long-casting Shadow Rap® Fat Jack dives fast when cranked. With a very slow rise on the pause, it perfectly imitates the fade of a dying baitfish. Designed for slow presentations with a steady retrieve and built with a subtle natural rattle created by two internal glass beads, Fat Jack will draw aggressive strikes even from the most passive fish. Detailed Shadow Rap® Series baitfish and attractor patterns help cover all fishing situations while the wire-through construction withstands even the biggest fish.

Slow Rising • Subtle Rattling with Glass Beads • Wire-through Construction • VMC® 7548 Black Nickel Hooks • Targeted for Trout, Perch and Chub

CASTING

SHADOW RAP® SOLID SHAD

Aerodynamic design and balance for long and accurate casts even in the most demanding conditions. Built heavy to sink fast, the Shadow Rap® Solid Shad reaches the targeted depth quickly and stays in the strike zone on the retrieve. Hard-kicking swimming action gives a lot of side flash and tracks true even in heavy current and on fast retrieves. Natural and attractor pattern Shadow Rap finishes with internal flash foils.

Durable Plastic Body Construction • Through Wire • Hard-Kicking Action • Trout and Small Predator Species • VMC® 7548 Black Nickel Hooks • Sinking

CASTING

NEW COLORS

SUPER SHADOW RAP®

Opportunistic predators can't deny the Super Shadow Rap® as it kicks hard to the side, and then slowly fades away into the depths like a dying fish. Its tall body perfectly mimics the silhouette of a big baitfish while the famous Shadow Rap® action dances the Super Shadow Rap® almost on the spot like an easy meal. Twitch it gently for on-the-spot action; or rip it hard to send it gliding into the mouth of a big fish. Fitted with VMC® treble hooks.

Durable 2-Part Plastic with Integrated Lip • Highly Detailed Finishes • Responsive, Tight-Turning • Large Predator Gamefish • VMC® Treble Hooks • Slow Sinking

CASTING

X-RAP®

The X-Rap® is "all about the action." It's the perfect size, shape and 3D illusion of a minnow. Prominent scales and lateral line on the fuselage capture and flash light like a beacon. It can be fished both in an aggressive "Slashbait®" technique or with a classic Rapala wobble. The angler defines the cadence for maximum effectiveness. Small versions of the X-Rap® are ideal for targeting smaller species – or as small, snack-sized offerings for big predators that are finicky and won't bite bigger lures.

Slashbait® Action • Suspending on Pause • Textured Translucent Body • Internal Holographic Foil • Internal Long-Cast System (XR04 excluded) • 3D Holographic Eye • VMC® Black Nickel Round Bend Hooks • Flash Feather Teaser Tail • Hand-Tuned & Tank-Tested

CASTING

X-RAP® COUNTDOWN®

Fish the Xtreme Attitude consistently at any depth. Based on the CountDown® method introduced by Rapala in the 1960s, the X-Rap® CountDown® brings modern X-Style finishes and details to the game. It swims with a strong rolling action and flutters down on the pause. The X-Rap® CountDown® sinks 30% faster than the classic CD. Due to its weight and body design, it is also very long casting.

Consistent Depth Control • Strong Rolling Action • Flutter Action On Drop • Sinking • X-Rap Finish • 3D Holographic Eye • VMC® Black Nickel Round Bend Hooks • Hand-Tuned & Tank-Tested

CASTING

X-RAP® PETO

The Finnish Beast, X-Rap® Peto, combines Rapala's fish-catching X-Rap® construction with a beautifully color matched soft tail to create a seamless hybrid bait. With its slow sink rate and perfectly horizontal fall, X-Rap® Peto is the ideal choice for cold water & challenging conditions. The soft tail is firmly secured to the body with a 6-point stainless plate. Spare tail included.

ABS Body with Soft PVC Tail • 6-Point Stainless Plate Tail Locking System • Wide Tail-Kicking with Body Roll • Large Predator Gamefish • VMC® Treble Hooks • Slow Sinking

CASTING

X-RAP® OTUS

A formidable creature, the X-Rap® Otus, combines Rapala's fish-catching X-Rap® construction with a beautifully color matched curl tail to create a seamless hybrid bait. With its slow sink rate and wide wafting tail, X-Rap® Otus is the ideal choice for cold water & challenging conditions. The body rolls side-to-side as the enormous curl tail pulses behind when retrieved. When paused, the tail acts as a parachute, stabilizing the lure as it slowly swims into the depths. The soft tail is firmly secured to the body with a 6-point stainless plate. Spare tail included.

ABS Body with Soft PVC Tail • 6-Point Stainless Plate Tail Locking System • Wide Tail-Kicking with Body Roll • Large Predator Gamefish • VMC® Treble Hooks • Slow Sinking

CASTING

X-RAP® TWITCHIN' SHAD

X-Rap® Twitchin' Shad is designed to perform a wide twitching walk-the-dog swimming action. Predator colors with X-Rap® attitude trigger the attack instinct in fish. Slow sinking allows a glide and drop technique that lands the Twitchin' Shad into pockets where predators love to ambush their prey.

X-style Translucent Body • 3D Holographic Eyes • Slow Sinking • Subsurface walk-the-dog • Casting • For Predators • VMC® Black Nickel Round Bend Hooks

CASTING & TOPWATER

X-RAP® POP

This X-Rap® brand, lure surface version, "pops" and "splashes" in a remarkable way thanks to its arched back. The concave shape of its mouth creates a string of bubbles imitating the sound of a fish hunt, when animated by dry drawing. Very easy to animate, the slightest movement gives it life. It is as effective in freshwater as in the sea, for example to fish for bass in oyster beds.

Large Concave Mouth • Sounds of splash and Pop • Floating • Long Cast • 3D Holographic Eyes • VMC® Black Nickel Hooks • Shine and feathers in teaser • X-Rap Finish

CASTING

X-RAP® SALTWATER

Cast & twitch the X-Rap® Saltwater lure where big fish live. The classic Rapala® "wounded-minnow" wobble calls them out and the extreme, erratic Slashbait® action when twitched creates the strike. Built tough for tough conditions & hard-fighting fish.

X-Rap® Slashbait® Action • Textured Translucent Body • Internal Long-Cast Mechanism • X-Rap® Finish • 3D Holographic Eye • Suspending on Pause • VMC® Perma Steel® Hooks • Perfect Match Saltwater Patterns • Hand-Tuned & Tank-Tested

TROLLING

X-RAP® MAGNUM® XTREME

The shallow running X-Rap® Magnum® Xtreme trolls true at over 15 knots, allowing you to cover more water and trigger the speedsters of the deep. Sleek flat sides create a tight rolling action while its tail keel adds stability at all speeds. Troll the X-Rap® Magnum® Xtreme fast or slow through reef terrain or around rocky outcrops, amongst skirted lures or other Rapala lures in your spread.

High-Speed Trolling Design • Shallow Diving Lip • Magnum Durability • Textured Translucent Body • Internal Holographic Foil • X-Rap® Finish • Stabilizing Tail Keel • 3D Holographic Eye • VMC® 3X Strong Perma Steel Hooks • 3X Split Rings • Floating

CASTING

X-RAP® MAGNUM® XPLODE

The over-engineered X-Rap® Magnum® Xplode combines a heavy through-wire construction with a thick-walled ABS body, giving it Rapala's Magnum level of strength to absorb the most vicious strikes. A low positioned tow point pulls the popper downwards, keeping the X-Rap® Magnum® Xplode stable in all weather conditions; while its deep cupped face generates a thunderous surface explosion with each sweep of your rod.

Through-Wire Durable ABS Body • 3D Holographic Eye & Internal Foil • Explosive & Loud All-Weather Stable • VMC® 75 Series™ 6X Tropic Spark Point • Floating

CASTING

X-RAP® MAGNUM® CAST

Built heavy and aerodynamic for extreme casting distances, Rapala X-Rap® Magnum Cast delivers even in the most demanding saltwater fishing conditions. Heavy-duty construction stands up to the strongest of saltwater beasts. Perfectly balanced swimming action for fast retrieves, it will run straight even with the fastest cast & burn presentations. Fluttering action on the drop adds lifelike flash.

Through-wire Construction • Magnum Durability • Xtreme Casting Distance • X-Rap Finishes • Saltwater Prey Patterns • 3D Holographic Eyes • Ti-coated VMC Heavy-duty Hooks • Sinking

CASTING

X-RAP® MAGNUM® PREY

Built heavy and aerodynamic for extreme casting distances, Rapala X-Rap® Magnum Prey delivers even in the most demanding saltwater fishing conditions. Heavy-duty construction stands up to the strongest of saltwater beasts. Lipless design and fluttering action on the drop allow natural baitfish-imitating presentations. On fast retrieve the lure will skip on the surface like a fleeing baitfish.

Through-wire Construction • Magnum Durability • Xtreme Casting Distance • X-Rap Finishes • Saltwater Prey Patterns • 3D Holographic Eyes • Ti-coated VMC Heavy-duty Hooks • Sinking

CASTING

X-RAP® MAGNUM® STICK

Designed for fast and aggressive retrieves, the X-Rap® Magnum Stick 17 swims in wide S curves on the retrieve. Horizontal line tie allows for a wider swimming action. Once stopped, this lipless stick bait dives head-down with a fish-triggering flutter. Heavy-duty construction with strong through-wire withstands savage big blue water predators. Weighted for long-casts, the scalloped internal reflective construction gives life-like flash even with the slightest motion.

Magnum Durability • Through-wire Construction • X-Rap Finishes • Textured Translucent Body • 3D Holographic Eye • Saltwater Prey Patterns • Long Casting • Internal Holographic Foil • VMC® 7266 TI Inline Single Hooks

CASTING & TROLLING

ORIGINAL FLOATER®

The legendary first Rapala® and still the number one "go-to" lure. Whether twitched on the top as a surface bait, retrieved as a shallow runner, weighted with a split shot for medium depths or bottom walked off a three-way swivel or bottom-bouncer, the wounded minnow action continues to be irresistible to gamefish on every continent around the world.

Balsa Construction • Natural Minnow Profile • Classic, Modern Patterns • Floating • VMC® Black Nickel Hooks • Stainless Through Wire Construction • Hand-Tuned & Tank-Tested

CASTING & TROLLING

SHAD RAP®

A Rapala staple, the Shad Rap® is equally effective whether cast or trolled, and is designed to be fished from ultra-slow speeds to super-fast with superior results. First introduced in 1982, The Shad Rap® has undoubtedly accounted for a large portion of Rapala's +500 world record catches over the years.

Classic Rapala Action • Balsa Wood Construction • Diving Lip Design • Floating • Natural Baitfish Profile • VMC® Black Nickel Hooks • Hand-Tuned & Tank-Tested

CASTING & TROLLING

SHALLOW SHAD RAP®

The Shallow Shad Rap® is ideal for fishing in shallow water. Cast it out, let it sit until the ripples fade away, then begin a slow, enticing retrieve. It is equally effective when twitching, casting or slow trolling.

Balsa Wood Construction • Shallow Running Lip Design • Classic Rapala Action • Natural Baitfish Profile • Floating • VMC® Black Nickel Hooks • Hand-Tuned & Tank-Tested

CASTING & TROLLING

DEEP TAIL DANCER®

The Deep Tail Dancer® features an enlarged, extreme diving lip that plummets the lure as deep as 12 meters unassisted. The banana-style body swims with a wide tail, dancing action that can only be created with balsa. Cast it or troll it deep for a large number of species worldwide.

Deep Diving Lip • Wide Tail Swimming Action • Balsa Wood Construction • Internal Rattle Mechanism • Floating • VMC® Black Nickel Hooks • Hand-Tuned & Tank-Tested

CASTING

TWITCHIN' RAP®

A perfect combination for predator fishing: the classic Rapala® shad body design with an easy-to-use gliding action. Extremely responsive abachi construction with every lure body hand-picked to guarantee the right density and therefore the right sink rate for every lure .The wide-profile Twitchin' Rap® glides side-to-side just below the surface staying within the strike zone throughout the presentation. Twitchin' Rap® can be fished with the rod tip down, twitching the rod tip to create a walk-the-dog action, or holding the rod tip still while with a start-stop retrieve mimicking a struggling baitfish.

Abachi Body Construction • Modern Predator Color Patterns • Responsive Action • Large Predator Gamefish • VMC® Coastal Black Nickel Hooks

CASTING

FLAT RAP®

Built of balsa with a slow-rising response on retrieve pause, the Flat Rap® swims with a hard-flashing modification of the classic Rapala® "wounded-minnow" action. The triangle lip assists in creating the unique, quicker flashing action while deflecting off obstacles in its way. Sticky sharp VMC® black nickel hooks. Hand-tuned and tank-tested to ensure it embodies the action Rapala® is known for.

Balsa Wood Construction • Flat Sided Hard Flashing Action • Triangle Lip Enhances Action • Long-Casting Design • Slow-Rising • VMC® Black Nickel Hooks • Hand Tuned & Tank Tested

CASTING & TOPWATER

BX® SKITTER FROG

Designed to be fished through heavy cover where the big ones lurk and ambush their prey, the BX® Skitter Frog will skitter and jump with a fast, steady retrieve creating a lot of splash and noise. Made with responsive balsa and surrounded by a strong copolymer shell; the BX Skitter Frog with its extra tough skin will help you land toothy predators time and time again. Up-turned, heavy-duty premium VMC® double hook and thick rubber skirt allow for snag-free presentations.

Balsa Core Copolymer Outer Shell • Floating • Jumping Frog Action • Big Splash & Commotion • VMC® 7925 Black Nickel Hooks

CASTING & TROLLING

BX® SWIMMER

The flat-sided BX® Swimmer features an articulated body with a double pivot joint which in combination with the responsive, solid balsa core creates a rolling, moderate swim bait action that starts on a very slow retrieve. The durable co-polymer hard shell protects the delicate balsa and allows highly detailed, life-like finishes. The BX® Swimmer is weighted to be slow sinking and balanced for long casts.

Balsa Body Inside • Durable Copolymer Shell • Molded 3D Head, Gills and Scales • Internal X-Foil • Flat-Sided with Strong Flash on Roll • VMC® Black Nickel Round Bend Hooks • Slow Sinking • Incredible Life-like Finishes • 3D Holographic Eyes • Hand-Tuned & Tank-Tested

CASTING

MAXRAP® WALK'N ROLL

The "do-all" topwater bait, MaxRap® Walk'N Roll spits, bobs, skitters and slides across the surface in all conditions. Developed in partnership with pro anglers fishing the Atlantic, this lure is weighted for Maximum casting distance and ultimate stability in bad weather and rough seas. Under a steady retrieve the MaxRap® Walk'N Roll spits and rolls from side-to-side; or try a twitch & pause to create a walking action. Crank it in fast to imitate a fleeing baitfish; or when at rest with your rod tip down, twitch it in place for a head-down bobbing motion. Fitted with VMC 7554 2X-Strong Ti coated inline treble hooks.

High-impact ABS Body • Long-Casting Internal Weight System • Aggressive, spitting, walk-the-dog • Saltwater Gamefish • VMC® 2X-Strong Ti Hooks • Floating

CASTING

MAXRAP® LONG RANGE MINNOW

Designed for fishing that requires ultimate casting distances in the most demanding conditions. The patented Max Cast weight transfer mechanism and aerodynamic shape of the lure guarantee that it will cast farther than any lure in its category. Ideal for fast and aggressive presentations, but also performs perfectly with slow retrieve.

Aerodynamic Shape for Optimal Casting Performance • Balanced with Tungsten Balls for Accuracy • Aerodynamic Body Shape • Internal Patented Max Cast Mechanism • Internal Holographic Foil and Natural Scale Pattern for Strong Flash • Designed for Aggressive and Fast Fishing • Strong Rolling Action • Low Resistance on the Retrieve • Responsive to Twitching • Slow Sinking on the Pause • Premium VMC® Needle Sharp In-Line Hooks

CASTING

FLASH-X DART

CAST, RETRIEVE, PAUSE, STRIKE! - The wired-through Flash-X Dart is heavily weighted to cast farther than other lures in its class. Thanks to its prismatic design, the lure sinks with a side-flashing fluttering action on the pause and remains stable when retrieved at high speed. This unique shape makes the Flash-X Dart catch and reflect light like a mirror ball, attracting fish from a wide area.

Designed for Long Casting Distance • For Saltwater Predators • Side-to-Side Darting Action • Sinking, Flutters on the Drop • Durable Wire-Through Construction • Lead-free • Plastic Body with Metalized Coating for Extreme Flash • Unique Prismatic Design • Premium VMC® 7556 3X Ti-Coated Treble Hooks • Sinking

CASTING

FLASH-X EXTREMO

Built with Rapala's MaxCast system, the wired-through Flash-X Extremo gets you closer to those distant fish. When you begin your retrieve, the MaxCast tungsten balls shift to the head, enhancing the lure's rolling (and flashy!) action. Jerk it aggressively to imitate a distressed baitfish or crank it fast with a pause in between to entice a bite.

Designed for Long Casting Distance • For Saltwater Predators • Side-to-Side Darting Action • Sinking, Flutters on the Drop • Durable Wire-Through Construction • Lead-free • Plastic Body with Metalized Coating for Extreme Flash • Unique Prismatic Design • Premium VMC® 7556 3X Ti-Coated Treble Hooks • Sinking

CASTING

FLASH-X SKITTER

Built to soar and skitter, the wired-through Flash-X Skitter perfectly mimics one of the most hunted saltwater baitfish in the ocean – the needlefish. The tapered prism design creates impressive flash above and below the water while also acting as a keel to improve stability during a high-speed retrieve, keeping the head up. Crank it fast to send it skittering across the surface like an escaping fish that no predator can resist.

Designed for Long Casting Distance • For Saltwater Predators • For Aggressive Retrieves • Floating • Skittering Topwater Swimming Action • Durable Wire-Through Construction • Lead-free • Plastic Body with Metalized Coating for Extreme Flash • Unique Prismatic Design • Premium VMC® 7556 3X Ti-Coated Treble Hooks

NEW SIZE

SARDA

Built like a steel torpedo, the Sarda hits hard and fast. Designed for high-speed trolling for saltwater species like tuna and wahoo, the Sarda features a heavy-duty stainless-steel frame and an internal rib structure for uncompromised durability. The black nickel split rings are attached to the lure's one-piece frame, giving the fish minimum leverage. Thanks to its stable construction, the Sarda tracks true even at speeds of 14 knots. Loaded with two forged VMC® 7286 TechSet® single hooks for unyielding results.

Stainless Steel • One-Piece Construction • Reinforced Body • Internal Rib Design • Fast Stable Action Up To 14 Knots • Multi-Species • Saltwater • VMC® TechSet Hooks Split & Welded Rings

CASTING

RAP-V PIKE BLADED JIG

The Rap-V Pike Bladed Jig combines elements from multiple lures and blends them into a full-sensory attack! Fitted with a welded silicone skirt and a uniquely printed and snag-reducing blade, this lure swims with irresistible flash and vibration. The versatile and easy-to-fish Rap-V Pike Bladed Jig is effective in any type of situation. The lure's construction allows for using a trailer for increased volume.

Printed Blade • Lead-Free Construction • Welded Silicone Skirt • Rap-V 3D Holographic Eye • Trailer Keeper • VMC® 7250 Black Nickel 6/0 • Sinking

CASTING

RIPPIN' BLADE

A cross-over between a blade bait and the Rippin' Rap, the Rippin' Blade delivers versatility and performance in one mean-looking package. Designed to excel at both casting and vertical jigging, the Rippin' Blade has three attachment points to modify the swimming action to suit the situation. The heavy and slender-profiled lure falls upright and gives off intense vibrations – even at slow speeds. When jigged, the fast-sinking lure gives off a tight side-to-side action. Tie on the Rippin' Blade when going after big fish, in open water or through the ice.

Instant Tight Vibration on Lift or Retrieve • Three Line Tie Holes • Long Casting • 3D Holographic Eyes • Metal Frame with Durable Plastic Body • Tungsten Belly Weight • VMC® snap • VMC® 5541 BN Treble Hooks

CASTING

X-LIGHT SHAD

Go far, little shad. Thanks to its aerodynamically bulky design, the X-Light Shad casts far and accurate. When in water, the finesse bait dives to target depth and uses its internal rattle system to let the fish know it's dinnertime. Excellent for targeting freshwater species, the X-Light Shad features digitally printed finishes for a deceivingly life-like look.

Durable Plastic Body • Natural Shad Profile • Long Casting • Slow Sinking • Wire-Through Construction • Hand Tuned & Tank Tested • VMC® 7554 hooks

CASTING

X-LIGHT MINNOW

The new standard for modern ultralight baits. The X-Light Minnow features an upgraded weight distribution for casting the miniature lure into the far-off spots. And when the lure hits the water, the showdown begins. The slow-sinking X-Light Minnow swims with a perfectly rolling and kicking swimming action, even in slow retrieves. Thanks to the L-shaped diving lip, the lure retains the action also in heavy currents – making it an excellent choice for fishing streams.

Minnow Action • Modern Finishing • Long Casting • 3D Holographic Eyes • VMC® 4651 BN Treble Hooks

CASTING

X-LIGHT POP

Light in weight – big in pop. The X-Light Pop is the topwater snack every small predator fish has been looking for. The aerodynamically designed lure casts far into the distance and returns with loud, pronounced pops. The effect is amplified by the lure's internal rattle. The modern life-like finishes and teaser tail make the X-Light Pop a bite that small predators will find hard to resist – especially when the bite is finicky.

Loud Popping Action • Modern Finishing • Long Casting • 3D Holographic Eyes • Tail Feathered Treble Hook • VMC® 4651 BN Treble Hooks

CASTING

X-LIGHT CRANK SHALLOW RUNNER

Ultra-light construction for finesse presentations, weighted body for effortless casting. Designed for targeting any small freshwater predator species, the Finesse Crank swims with a tight kicking action while emitting an enticing rattle. Fit for cranking, twitching, and steady retrieving, the Finesse Crank's life-like action is perfected by detailed and textured finishes.

Strong Kicking Action • Plastic Body with Rattle • Long-Casting • Small Freshwater Predator Species • Lead-Free • Hand-Tuned & Tank-Tested • VMC® 4651 BN Treble Hooks • Floating

CASTING

NAUVO

A classic restored – the Rapala® Nauvo brings a modern update to a tried-and-trusted traditional metal spoon. Originally appearing in the 1990's, the Nauvo swims with a life-like wide tail wagging action on a steady retrieve while a faster retrieve adds irregular kicks into the action, breaking the rhythm and adding flash. The fluttering and rolling action on the drop adds additional attraction. Modern finishes combine updated traditional spoon colors and realistic HD baitfish patterns. Available in two sizes: the bigger option is perfect for targeting larger predators while the smaller all-rounder is well suited for trout and salmon.

Metal Body • Leadfree • Unique Shape • Sinking • Designed for Pike, Trout, Rainbow Trout & Salmon • VMC® Black Nickel Treble Hook

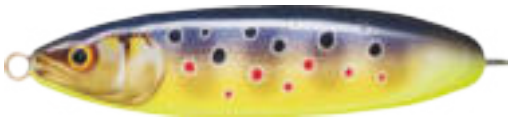
CASTING

WEEDLESS MINNOW SPOON

The Weedless Minnow Spoon has a light-weight spoon body that has a wide-sweeping action for slow presentations in shallow water and over vegetation. The heavy-duty wide-gap single hook has a metallic weed guard that protects the hook from weeds and snags, making the lure ideal for fishing heavy cover and through reeds and weeds.



Weedless Design • Slow sinking • Variable running depth • Single weedless hook

DT® (DIVES-TO) SERIES

The DT® (Dives-To) series of crankbaits, dive fast to a preset depth and stay in the "strike zone" longer than any than other crankbait on the market. Made from the top seven percent of balsa wood, this consistently perfect wood combined with carefully placed internal weights, tapered fuselage and thin tail design creates the ultimate crankbait action, found only in the DT family.

Quick-Dive Resting Position • Extra Thin Polycarbonate Lip • Perfect Balance • 3D Holographic or Painted Eyes • Long-Casting up to 45m • Thin Tail Design • Internal Rattle Chamber • VMC® Black Nickel Hooks • Balsa Wood Construction • 3D Holographic Eyes • Hand-Tuned & Tank-Tested • Floating

CASTING

ULTRA LIGHT MINNOW

When the bite is tough, downsizing to a smaller presentation can often tempt shut-down predators with an easy meal. The Ultra Light Minnow acts like a big bait, but in a small weighted body. It casts incredibly far, is slow-sinking; and creates a hard-kicking action through its unique lip design.

Weighted Body • Unique Lip Design • Hard Kicking Action • Slow Sinking • External Scales • 3D Holographic Eyes • VMC® Black Nickel Round Bend Hooks • Hand-Tuned & Tank-Tested

CASTING & TROLLING

FLOATER® SQUID

Take the Wounded Minnow Action to the squids. The Floater® Squid combines the classic Original Floater® construction with squid hooks, resulting in a new go-to choice for squid trolling. Living up to the Original Floater® name, the lure starts its side-to-side rolling action even at extremely slow trolling speeds. Available in a variety of fluorescent and glowing colors for striking presentations.

Classic Original Floater Minnow shape • Color chart features beautiful fluorescent, UV and glow colors • Floating • Action starts at very low trolling speed • SQ Hook

RAPALA 90 YEARS LURE KIT

For 90 years, Rapala has been reeling in anglers with a passion as deep as the waters they fish. We've been here for nearly a century, and trust us, we're not slowing down—we're here for another 90 at least. As the only mass manufacturer using responsibly sourced balsa wood, we stay true to nature without compromising on craftsmanship. Our decades of dedication to quality and innovation have set a new gold standard for wooden lures. We are proud to present our biggest milestones in these pre-selected kit packages that include the Classic in vintage color, a Custom HD printed pattern and the pinnacle of wooden lure manufacturing, the Elite version of the lure.

Kit includes an unpainted balsa lure body that demonstrates the journey of each lure from a piece of wood to a work of art

RCD MAG SPRING SPLIT RING PLIERS

Built with two opposing magnets to hold the pliers open, the Mag Spring mechanism cannot fail, unlike conventional plier springs. The split ring nose on the 4" model opens rings from size 0 up, while the 6" pliers are ideally suited for size 3–5 rings. The cutter on both sizes cuts all line sizes. The pliers feature stainless steel jaws and co-molded grips. 6" pliers come with a molded plastic sheath.

PLIERS & TOOLS

RCD MAG SPRING PLIERS

Rapala's proprietary Mag Spring mechanism on the pivot point of the pliers has two opposing magnets that push away from each other and hold the pliers open for easy one hand operation. Unlike springs, the magnets won't break or lose their power in use. The durable stainless steel jaws with gun metal finish have serrated tips for secure grip. Ergonomic, co-molded Soft Grip handles for comfortable hold. Patented design.

RAPALA KNIVES

PRESENTATION® FILLET LAMINATES

The updated Nordic design creates a classic modern look. The version with the brown plasticized handle has a stainless steel blade. The one with the grey plasticized handle has a blade with a PTFE coating. The tapered blade runs the full length of the handle (full tang) for better leverage. Matching handcrafted genuine leather case, snap closure.
Handle: laminated birch / varnish. Case: Genuine leather worked by hand. Blade: European stainless steel, sharpened by hand. Due to the artisanal manufacturing, the exact length of the blade may vary slightly.

RAPALA KARBON NETS

NEW

KARBON PIKE NET

The Rapala Karbon Pike Net is built for landing trophy predators with strength and ease. Crafted from full carbon with a rugged Carbon 3K hoop and handle, it's lightweight yet strong, eliminating the bulk of traditional nets. The foldable design and 1.6-meter extension make it easy to carry and deploy in seconds. Its rubber-coated, tangle-free mesh ensures safer fish handling. Stay ready for every big catch without the burden — trust the Karbon Pike Net to perform when it matters most.

Rubber coated tangle free mesh • Carbon 3K hoop • Carbon 3K handle • Folding construction • Extended handle length 1.6m • Dim 70x67x70cm

FLOAT TUBES

Rapala offers Float Tubes of high quality and designed to provide comfort and absolute safety to fishermen.In addition, many accessories come with and others are available as an option to complement your equipment.

RECOMMENDATIONS

- In strong heat, we advise you to under-inflate the flanges of your Float Tube
- For a maximum of safety, the wearing of the lifejacket is important
- Learn about local regulations before using the Float Tube

FLOAT TUBE

FLOAT TUBE FT 150

Buit with ultra strong 0,7mm PVC, the FT150 Rapala float tube is made for the avid float tube angler looking for comfort and technical features. The inflatable seat gives additional buoyancy and a higher seated position. The 2 large pockets are big enough to each hold 2 3700-size boxes plus other tackle items. A front velcro strap let's the angler safely secure up to 4 rods. Easily removable straps allow you to comfortably transport the float tube on your back to easily move fishing spots. The design is tubeless so it's easy to inflate and deflate. Supplied with pump, carry bag and repair kit all included.

Pockets 45x20x12cm • PVC 0,7mm • Tubeless

FLOAT TUBE

FLOAT TUBE FT 140

The Float Tube FT140 Rapala is made entirely of PVC, allowing it a better glide on the water and thus promoting its maintenance by a simple blow of sponge. Compact, with two oversized rolls, its foam seat allows the fisherman to position himself slightly above the water. Very secure, it has a stabilizer bar maintaining the spacing of the flanges while protecting the user. The FT140 is equipped with two large detachable pockets allowing you to carry a maximum of material. Confirmed fishermen will appreciate this model. Many accessories come with such as the handles at the front, the carrying straps, support of a stick by velcro, fixing eyelets ... This resistant model offers a maximum of security.
Delivered with:

Foot pump • Repair kit • Transport bag • Fins • Inner tubes also available

FLOAT TUBE

FLOAT TUBE FT 120

The Rapala FT120 combines both canvas and PVC. The seat and back are made of high density foam. The main advantage of this Float Tube comes from its storage: its two side pockets are detachable, allowing the fisherman to prepare but also to store his equipment more easily. The FT120 also has a stabilizer bar that keeps the spacing of the strands while securing the user. This model is ideal for regular anglers.

FLOAT TUBE

FLOAT TUBE FT 100

The FT100 is the lightest in the range, ideal for beginner anglers. Its light weight makes it possible to travel light to get into the water in the most remote spots and catch fish that never see a fisherman! It has wide pockets open by a zipper along their entire length, allowing them to slide the boxes of lures very easily. A bar at the front, associated with a net, is a rigid workspace and large enough to redo the rigs, change lures and pick up the fish. At the front, there are also Velcro on the tubes to secure the canes during travel. The high-density floating foam seat and backrest make it easy to spend a day fishing as in an armchair. At the back, a net allows to evacuate the water quickly when it is necessary to leave the Float Tube of the water. It is possible to attach rod-type accessories to the side of the tubes with the rings attached to the pockets. Under the Float Tube, there are eyelets and straps that can be worn on the back, and a handle.

okuma

RISING WITH EVERY CHALLENGE

The average person might stumble upon a remote beach and find inspiration in the texture of the sand, curl of the waves and the salty spice of the air. For the community of anglers, however, playing witness to nature is far less satisfying than direct participation.

As we approach every piece of water, our attention inevitably falls to what lies beneath the surface: beneath the waves, off the point, on the edge of structure, at the intersection of currents. It's the fish and their habits, their power and speed that captivate our attention. Through rod and reel we find our connection. Some call it sport. We call it a way of life that's rich with experiences.

At Okuma Fishing Tackle, our goal is to enhance every encounter. Integrating the latest advancements in materials and construction techniques is a means to downplay the presence of the gear. Eliminate weight and increase feel. Enjoy a running fish instead of fearing it. Button down the drag and go toe-to-toe with complete confidence. Your focus is not on the equipment; it's on the fish.

Wherever your travels take you, from the local pond to distant reef, we're proud to be your partner in the discovery of what lies beneath.

SPINNING REEL TECHNOLOGY

GEAR

MAXGEAR

Makaira reels feature a forged, machine cut stainless steel main gear paired with a 17-4 stainless steel pinion gear. This gear system is unmatched in this category.

HDG +

Building upon the solid foundation of the renowned HDGII, HDG+ sets a new standard with a minimum of 7% increase in size, enhanced strength, and a higher gear ratio, HDG+ is engineered to be the most all-around gear on the market.

ALG

With today's super braided lines & lighter more compact reels, ALG offers anglers lighter weight gears without compromising on strength & durability. Adding to their longevity, ALG gears are anodized to hold up to the elements much better than traditional gearing materials.

FLITE GEAR

Advanced forged one-piece aluminum gear engineering redefines the standards of strength, agility, and precision. Flight Gear boasts a strength that surpasses conventional aluminum counterparts through a meticulous forging process while retaining the hallmark trait of aluminum – its lightweight nature – ensuring optimal performance without compromising on efficiency. To achieve ultimate precision, each gear is forged then machine cut with exacting standards to guarantees seamless gear engagement resulting in an exceptionally smooth feeling with every turn of the handle.

PRECISION ELLIPTICAL GEARING SYSTEM

The Precision Elliptical Gearing System advantage boils down to one thing & one thing only – performance. By regulating the speed of the spindle stroke, reels equipped with this system wind line more consistently & uniformly on the spool, resulting in level line lay. This creates less friction during casting for increased distance, greater accuracy & longer line life, as well as smoother, more uniform drag pressures. Pick up any Okuma reel equipped with this feature & feel for yourself the balance, smoothness & power that are all characteristics of the Precision Elliptical Gearing System.

CONSTRUCTURE

TORSION CONTROL ARMOR

The Torsion Control Armor (TCA) design found on the new Inspria spinning reels is made with Okuma's C-40X long-strand carbon fiber technology. This not only makes the reel lighter, but also makes the reel extremely rigid which reduces twist & torque, keeping the internal parts in perfect alignment.

TORSION CONTROL ARMOR ALUMINIUM

The brand-new TCA-AL features an advanced aluminum construction, setting it apart from the previous TCA. The new TCA-AL is 5 times stronger than TCA. It excels with its elevated torsion and flex resistance, ensuring exceptional stability even under intense pressure.

MATERIAL

C-40X

Okuma's C-40X carbon technology utilizes a specially blended graphite polymer. The carbon fibers in this material are elongated & reinforced, creating a substantially stronger composite than standard graphite materials. At 25% lighter, 1.5 times stronger & 100% anti-corrosive, C-40X translates into an extremely lightweight & durable construction.

LITECAST™

LITECAST™ is the latest in Okuma's reel technology. Reels with the Litecast™ structure are composed using a magnesium material in the casting process, making the integrity of the reel incredibly strong & 15% lighter than aluminum alloy reels. Okuma Cedros Saltwater Spinning Reels feature the new Litecast™ construction.

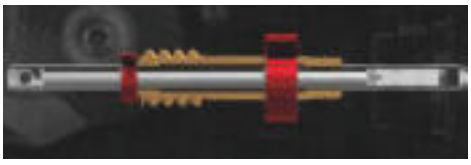
ALUMLITE FRAME CONSTRUCTION

AlumiLite construction incorporates Okuma's rigid aluminum body technology on spinning, trolling and fly reel designs. Aluminum frames are stronger and more rigid and are capable of withstanding more pressure and torque than traditional graphite frames. These lightweight, diecast aluminum frames provide more precise tolerances for precision gear alignment, maximum castability and ultimate durability.

DRIVE SYSTEM & DRAG

FLITE DRIVE ™

In standard reels, when the main shaft is moved up and down, a large area of friction is generated with the inner hole of the pinion gear, which causes you to feel resistance when turning. To reduce drag and achieve the lightness of rotation, we hollowed out the center of the pinion gear to reduce friction with the shaft. This change helps create a zero inertia start up and an incredibly light feel when turning the handle.



GEARING STABILIZATION DESIGN

Ultimate pinion gear support with ball bearings from top to bottom offers unparalleled stability and durability.

CYCLONIC FLOW ROTOR

The Cyclonic Flow Rotor (CFR) was designed to create a "cyclonic" airflow, which significantly increases air flow through the ported rotor. This thoroughly tested design allows for a much faster drying time if the reel becomes wet, minimizing corrosion possibilities throughout the reel.

SPINNING REEL DUAL FORCE DRAG

DFD incorporates both surfaces of the spool to maximize high-end drag pressure, efficiency & overall smoothness. Mounted in the top of the spool & protected by the Hydro Block system is a multi-disc felt drag system that works in conjunction with a secondary drag system that is mounted under the spool. Even pressure is applied to both surfaces of the spool for maximum stability.

CARBONITE DRAG

Okuma's proprietary wave and pattern for carbon fiber drag washers are engineered to offer supreme strength and unmatched smoothness in drag performance.

MORE TECH

DIAMOND-LIKE CARBON (DLC)

EVEN FLOW ROLLER SYSTEM WITH DLC COATING

The EFR II with DLC coating minimizes line friction, facilitating a smoother movement of the fishing line over its polished surface. As a result, this feature not only extends the lifespan of the fishing line but also prevents line twist.

EVEN FLOW ROLLER

he Even Flow Roller System utilizes a ball bearing under the line roller to maximize efficiency. This roller helps reduce line twists by freely rolling over the line roller without friction. Without this system, line will naturally twist when drag is pulled.

BAITFEEDING SYSTEM

Okuma's baitfeeding system allows anglers to disengage their spinning reel spool & allow their bait to run freely. The baitfeeding system incorporates a secondary micro-adjustable drag system at the rear of the reel that allows for precise adjustment of the spool for bait control. In order to disengage this system simply turn the handle. The On/Off lever on the rear of the reel will automatically disengage the baitfeeding system so you can fight your fish with the main drag system.

EFR II

The Even Flow Roller System utilizes a ball bearing under the line roller to maximize efficiency. This roller helps reduce line twists by freely rolling over the line roller without friction. Without this system, line will naturally twist when drag is pulled.

HIGH PERFORMANCE BEARINGS

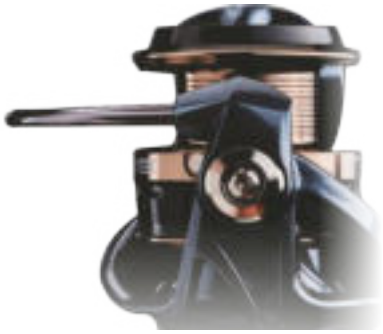
The balls used on the HPB's are constructed from the same high-grade stainless steel material as the bearing housing. These bearings were designed to be more than 10 times more resistant to saltwater than standard stainless steel bearings. These bearings may even outlast the angler himself.

QUICK-SET

QUICK-SET - This system allows for instant handle engagement & eliminates all handle back play commonly found in many reels. This is accomplished by using a corrosion- resistant stainless steel roller bearing that engages the reel in one direction for rock-solid hook sets.

CENTRIFUGAL DISC BAIL

Okuma's Centrifugal Disc Bail (CDB) is a unique new design that incorporates a heavier brass disc that is perfectly weighted & balanced to create a smoother & easier bail operation, while increasing the strength & stability of the overall bail function.



HYDRO BLOCK

The Hydro Block design features a rubber gasket mounted in the top of a spinning reel spool. This rubber seal blocks water & foreign materials from entering the drag system. The Hydro Block system ensures that your drag washers always perform at optimal levels.

MAKAIRA

FEATURES

- DFD: Precision Dual Force Drag system
- Precision click drag adjustment for more precise settings
- Multi-disc, Carbonite and felt drag washers for DFD
- 6HPB + 1RB corrosion resistant stainless steel bearings
- Quick-Set anti-reverse roller bearing plus ratchet system
- Dual anti-reverse system for maximum security
- Precision machine cut brass pinion gear
- CRC: Corrosion-resistant coating process
- HDGII: Corrosion-resistant, High density gearing
- ALC: Rigid diecast aluminum body, sideplate and rotor
- MSS: carbon Mechanical Stabilizing System
- Machined aluminum, 2-tone anodized spool with LCS lip
- Machined aluminum handle arm for added strength
- Hydro Block water tight drag seal
- Heavy duty, solid aluminum bail wire

TESORO

The ultimate saltwater performer, the Tesoro features an oversized brass drive gear for strength and durability – further enhanced by the Gearing Stabilization Design for improved gear alignment. The IPX-7 rated Hydro Sealed Body protects against full water submersion and splashing. Within the Tesoro's full-Alumilite body resides a Dual Force Drag system with a whopping 25 kgs of max drag power.

FEATURES

- Full-Alumilite Body & Sideplate
- IPX-7 Rated Hydro Sealed Body CFR: Cyclonic Flow Rotor
- Carbonite High-Output Drag with Cal's Drag Grease on Full Dual Force Drag
- 12HPB + 1RB Corrosion-Resistant Stainless Steel Bearings
- Dual Anti-Reverse System for Maximum Strength and Reliability
- Machined Aluminum Screw-In Handle Arm for Added Strength
- Smooth Machine-Cut Brass Gearing with an Over-Sized Drive Gear
- Gearing Stabilization Design for Gear Alignment
- Frictionless Main Shaft Design
- Oversized Titanium Spool Shaft for Maximum Strength-to-Weight Ratio

SALINA

The Salina saltwater spinning reel's LITECAST magnesium alloy construction provides the strength and rigidness of aluminum – but 15 % lighter. Building on that foundation of muscle, the Salina offers a Dual Force Drag system with 20 kg max drag power. When fighting strong fish, the 3-point pinion gear stabilization design provides precise alignment, even under heavy loads.

FEATURES

- DFD: Precision Dual Force Drag System
- LITECAST Construction
- Multi-Disc Drag Adjustment for More Precise Settings
- 20 kg Max Drag | 6HPB + 1RB Corrosion-Resistant Stainless Steel Bearings
- Full Grease Pack Prevents Water Intrusion
- Rubber-Sealed Bearings for Ultimate Protection
- Machined Aluminum Screw-In Handle
- Machined Aluminum 2-Tone Anodized Round Knob
- Even Flow Roller System with DLC Coating
- Manual Bail Trip Function for Ultimate Reliability
- Machined Aluminum 2-Tone Anodized Spool

CEDROS

Specifically designed for saltwater use, the Cedros spinning reels feature Okuma's Litecast Blade body design, Dual Force Drag System for extreme stopping power & our proprietary High Density Gearing with a special corrosion resistant coating. Combine this with a high-speed gear ratio & a customized aluminum handle, you have one of the best saltwater jig fishing reels on the market.

FEATURES

- DFD: Precision Dual Force Drag system
- Multi-disc drag adjustment for more precise settings
- LITECAST: Body construction is 15% lighter
- CRC: Corrosion resistant coating process
- 6HPB + 1RB corrosion resistant stainless steel bearings
- Dual anti-reverse feature on 8000-14000 sizes
- Quick-Set anti-reverse roller bearing

Ceymar SW-X

Continuing the legacy of best-selling performance, the Ceymar SW-X is the go-to choice for anglers who want to take the Ceymar experience to the salt. Built to withstand the demands of saltwater angling, the Ceymar SW- X spinning reel is built with a corrosion-resistant graphite body and Okuma's Cyclonic Flow Rotor technology. Equipped with high-performance bearings (HPB), the reel ensures smooth operation even in harsh saltwater conditions. The machined aluminum screw-in handle is in direct contact with the gears and reduces handle play – while the Flite Drive™ design further increases the gear stability. This results in the well-proven Ceymar feeling of unparalleled smoothness. Finished with the saltwater-specific EVA knob.

FEATURES

- HDG+ main gear with machine cut brass pinion gear
- EFR-II: Even Flow Roller system with DLC coating
- Lightweight and machined aluminum screw in handle Design
- Gearing stabilization system
- Flite Drive system increases gear stability and smoothness
- CFR: Cyclonic Flow Rotor Technology
- Heavy duty, solid aluminum bail wire
- Rotor brake
- Lightweight and machined aluminum spool
- Multi-disc, carbon fiber drag system with Hydro Block gasket
- 7HPB+1RB Saltwater resistant for ultimate smoothness
- Quick-Set anti-reverse roller bearing
- Hydro block o-ring seal on spool and both sides of handle for waterproof

SAFINA SW-X

Safina-level performance, now fully dedicated to saltwater applications. The perfect tool for entry-level saltwater anglers, the Safina SW-X spinning reel is built with a corrosion-resistant graphite body and Cyclonic Flow Rotor technology for long-lasting durability. Equipped with high-performance bearings (HPB), the reel ensures smooth operation even in harsh saltwater conditions. The Flite Drive™ design increases gear stability and allows for friction-free smoothness. Ranging from size 3000 to 14000, the Safina SW-X range features the tools for taking on saltwater species, whether you're fishing from a boat, casting from the shore, or bolo fishing from the rocks.

FEATURES

- New Corrosion-resistant graphite body
- CFR : Cyclonic Flow Rotor
- 4 + 1 Saltwater resistant stainless steel bearings
- Flite Drive system increases gear stability and smoothness
- Quick-Set infinite anti-reverse system
- New Machine cut brass pinion
- ESII : Computer balanced Rotor Equalizing system
- Multi-disc, Japanese oiled felt drag washers
- New EVA round knob for size 3000/4000; TPE ergo knob for size 6000 and up
- Precision elliptical oscillation system
- 2 tones aluminum spool

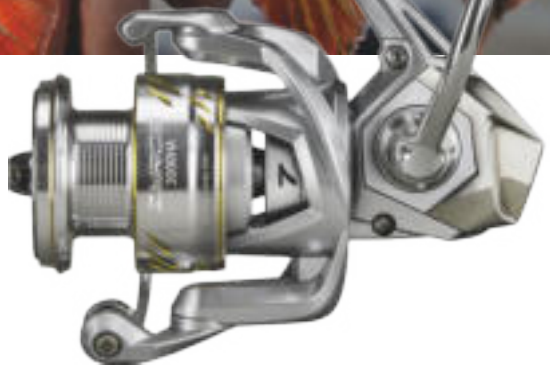
ALLROUND SPINNING REELS

SPINNING - ALLROUND

NEW

ZYROS



Light and ready to fight. A sum of all Okuma's newest technologies, the all-round Zyros spinning reel is designed to set the new standard for lightweight reels. Built with a light and rigid C-40X carbon body, the Zyros's ergonomic feel is finished with the superlight machined aluminum spool and A7075 spool shaft. The Flite Gear and Flite Drive™ ensure a smooth and friction-free action while the Hydro Block gasket keeps moisture at bay. Lightest in its price category, the Zyros is capable of taking on a whole range of fishing applications, in both saltwater and freshwater settings.

FEATURES

- Lightweight and rigid C-40X carbon body, sideplates and rotor
- Flite gear : aluminum forged machined drive gear
- Flite Drive system increases gear stability and smoothness
- Gearing stabilization system
- Multi-disc, carbon fiber drag system with Hydro Block gasket
- 6HPB+1RB High Performance, grease packed bearings
- CFR: Cyclonic Flow Rotor Technology
- Machined aluminum screw in handle design
- Light weght ALU handle (screw in) with TPE knob
- 5000 size with Round handle knob
- Heavy duty, solid aluminum one-piece bail wire
- Super light machined aluminum spool

ITX CB

The all-new ITX CB has been meticulously crafted to meet the exacting standards of the highly competitive Japanese market (JDM). With its outstanding quality and durability, this spinning reel is ready to conquer both fresh and saltwater environments. The ITX CB features a robust C-40x body and rotor including full carbon handle, ensuring uncompromising strength while maintaining a remarkably lightweight design. Its super light " braid ready " spool combined with the frictionless main shaft further enhances its performance, providing smooth and effortless casting and retrieval. The ITX CB doesn't just excel in functionality; it also boasts a sleek and modern aesthetic, making it a stylish addition to your collection.

FEATURES

- Lightweight and rigid C-40X carbon body, sideplates and rotor
- Flite gear : aluminum forged machined drive gear
- Flite Drive system increases gear stability and smoothness
- Gearing stabilization system
- Multi-disc, carbon fiber drag system with Hydro Block gasket

Inspira

The new generation of Inspira spinning reels combines the well-proven features of the best-selling reel with some of Okuma's latest material and design innovations. Designed for versatile freshwater applications, the lightweight Inspira packs an impressive amount of fish-fighting power in its multi-disc carbon fiber drag system. The updated construction features oversized HD gearing for a smooth yet powerful action, complimented by the Torsion Control Armor design that minimizes twisting of the reel stem when fighting the fish. Finished with a braid-ready spool and updated next-gen cosmetics, the competitive price tag ensures that no angler has to pass on excellence.

ISX-4000XA1

FEATURES

- Lightweight and rigid aluminum TCA construction
- Flite Drive system increases gear stability and smoothness
- Multi-disk Carbonite and stainless-steel drag washer system
- 8BB+1RB Stainless steel bearings for ultimate smoothness
- Quick-Set anti-reverse roller bearing
- Oversized HDGII main gear with machine cut brass pinion gear
- Machined aluminum screw in handle design
- Lightweight TPE knob for maximum comfort
- Machined aluminum, braided line ready spool design
- Heavy duty, solid aluminum bail wire
- RESII: Computer balanced Rotor Equalizing System

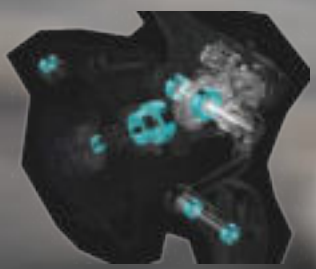
Ceymar HD

FLITE DRIVE

Hollowed-out pinion gear design reduces friction between the gear and shaft, provides a seamless, zero-inertia start-up, and a remarkably light and effortless handle turn.

MULTI-DISC, CARBONITE DRAG SYSTEM

7BB+1RB STAINLESS STEEL BEARINGS



RIGID METAL HANDLE DESIGN WITH TPE KNOB FOR STRENGTH

500-2500 sizes | 3000-4000 sizes | 5000-8000 sizes

SPINNING - ALLROUND

Ceymar HD

Continuing the top-selling line-up, the Ceymar HD offers crossover performance for both fresh and saltwater anglers. The spinning reel's oversized drive gear delivers increased power and durability – while the Gearing Stabilization Design improves gear alignment for smooth and reliable operation. The Ceymar HD's machined aluminum screw-in handle is in direct contact with gears and reduces handle play and improves the overall feel while cranking.

FEATURES

- HDG-II: High-Density Gearing II
- Oversized Gearing
- Corrosion-Resistant Graphite Body
- Gearing Stabilization Design
- Aluminum Screw-In Handle
- Flite Drive
- Even Flow Roller System with DLC Coating

Ceymar C 4000A

SPINNING - ALLROUND

Ceymar

The next generation of the immensely popular spinning reel, the Ceymar. Regarded as a trusted choice among anglers, this iconic workhorse comes with a host of exciting enhancements and a fresh new look. We've upgraded its internal workings to provide an even smoother and more efficient performance. One standout feature is the addition of a frictionless main shaft, ensuring a seamless retrieve and eliminating any unnecessary resistance. This new Ceymar also features a TPE- handle knob for a perfect grip.

FEATURES

- Multi-disc, oiled felt drag system
- Flite drive system for increased smoothness
- 7BB+1RB for ultimate smoothness
- Quick-Set anti-reverse roller bearing
- Precision machine cut brass pinion gear
- Corrosion resistant frame, sideplate and rotor
- Rigid aluminum, black anodized handle design
- I-Shaped TPE handle knobs on 500-2500 sizes
- T-Shaped TPE handle knobs on 3000-4000 sizes
- Ergo grip handle knobs on 6000-8000 sizes
- Machined aluminum, 2-tone anodized spool
- Heavy duty, solid aluminum bail wire
- RESII: Computer balanced Rotor Equalizing System

SPINNING - ALLROUND

Acuador

Excellent doesn't have to mean expensive. The Acuador spinning reel is a true all-rounder, fit for both freshwater and saltwater pursuits. The foundation for versatile performance lies in the reel's corrosion-resistant frame, side plates, and rotor. The saltwater-enduring components are complemented by Okuma's Cyclonic Flow Rotor technology that enhances airflow through the rotor, minimizing water intrusion and corrosion. Within the rotor is a formidable multi-disc oiled felt drag system, capable of delivering drag outputs ranging from 7 kgs to 14 kgs.

FEATURES

- Multi-disc, Japanese oiled felt drag washers
- 3BB+1RB stainless steel bearings
- Quick-Set anti-reverse bearing
- Precision machine cut brass pinion gear
- Corrosion resistant frame, sideplate and rotor
- CFR: Cyclonic Flow rotor technology
- Rigid metal handle design for strength
- Machined aluminum, 2-tone anodized spool with LCS lip

AVENGER B

The new Avenger B spinning reel redefines the classic name with updated technology and an ultra-lightweight feel. Featuring Okuma's precision Flite Drive™ system for smooth operation, the Avenger B delivers excellent balance, strength, and control across freshwater techniques. Weighing only 240 grams at size 3000, the Avenger B ranks as the lightest reel in its price class, making it a stand-out choice for anglers seeking a responsive, high-performance tool at an unbeatable value.

FEATURES

- Flite Drive system increases gear stability and smoothness.
- Graphite body and rotor
- ALU handle (slide in) with TPE knob
- 2 tone aluminiumspool
- Thinner bail – 2 pieces
- Chrome roller
- HDG+ : Zinc Main gear + Brass Pinion.

OUTRAX

The Outrax spinning reel combines off-road-inspired looks with all-round freshwater performance. Featuring rugged sand-colored cosmetics, a sturdy metal handle, and two ball bearings for smooth operation, the Outrax delivers solid reliability and flair. Designed for techniques ranging from freshwater fishing to light saltwater applications, the Outrax's versatility comes at a competitive price point. Although affordable, the Outrax cuts no corners when it comes to features: the reel is finished with Okuma's corrosion-minimizing Cyclonic Flow Rotor technology while the Res II Rotor Equalizing System ensures smooth and effortless retrieves. Also available as a combo set with a matching sand-themed rod, the Outrax is perfect for anglers who want both function and aesthetics.

6K FEEDER

Big pit features in a compact package. The 6K-Feeder is a high-performance feeder reel designed specifically for targeting freshwater species like carp in small and medium-sized waters. Thanks to the 30 mm Long Stroke spool and the super-slow Worm Shaft Transmission system, the 6K-Feeder operates with minimum friction. The heavy-duty aluminum bail wire has a one-piece bail construction to help avoid tangles even with the finest braids. And when it's time to play the fish, the reel's fast progressive drag system takes you from locked-up to free-flowing in just a couple of clicks. Finished with impressive black-and-blue cosmetics and an appealing price tag.

FEATURES

- Compact body
- Long Stroke spool 30mm
- One-piece bail
- Corrosion-resistant graphite body
- 3 ball bearing + 1 roller bearing
- Quick Set infinite anti-reverse system
- 2 round metal line clips
- Rigid metal handle with TPV knob
- Worm shaft oscillation system
- Machined cut brass pinion gear
- Heavy duty, one-piece solid aluminum bail wire
- RESII: Computer-balanced Rotor system
- Even Flow line roller

SPINNING - FEEDER

INVICTA

It's all in the name. Standing for 'invincible', the Invicta is a feature-packed spinning reel built to meet the needs of the most dedicated Match & Feeder angler. The oversized drive gear delivers increased power and durability and the progressive silky smooth front drag never misses a beat. The Invicta's aluminum tapered spool lip is designed for smooth and effortless long distance casting whilst the seamless strong one-piece bail construction allows for smooth and safe transition of your line towards the roller. The Invicta features an aluminum screw in handle for direct contact with the gears and a rubberised ergonomic T-bar for easy grip and positive cranking. Two aluminium spools are supplied for convenience – both of which feature 2 round metal clips for fishing different spots .

FEATURES

- HDG-II: Oversized high-density gearing
- EFR-II: Even Flow Roller system with DLC coating
- Lightweight and machined aluminum screw in handle design
- Gearing stabilization design
- Flite Drive™
- Precision machine cut brass pinion gear
- Heavy duty, solid aluminum one piece bail wire
- Fast progressive drag for smoothness
- 2 large sized metal line clips for convenience
- Extra aluminum spare spool
- Lightweight and machined aluminum spool
- Multi-disc, Japanese oiled felt drag system
- 7+1 for ultimate smoothness
- Quick-Set anti-reverse roller bearing

SPINNING - FEEDER

MYTH FEEDER

High-level performance at an entry-level price point. The Myth Feeder is designed for those taking their first casts in feeder fishing. Built for durability, the Myth Feeder features a corrosion-resistant frame, side plate, and rotor – while the Cyclonic Flow Rotor keeps extra moisture away with its enhanced airflow. The fast progressive drag system and rigid metal handle design deliver the strength needed for taking on species like carp, tench, and barbel. The machined aluminum handle screws directly into the reel, assuring maximum stability. The aluminum spool is finished with three clips, allowing you to consistently hit right where the fish are.

FEATURES

- Multi-disc, Japanese oiled felt drag washers
- 5 ball bearings + 1 roller bearing
- Quick-Set anti-reverse bearing
- Precision machine cut brass pinion gear
- Corrosion resistant frame, sideplate and Rotor

BAITFEEDER REELS

SPINNING - BAITFEEDER

Ceymar HD BAITFEEDER

The new Ceymar HD Baitfeeder delivers well-proven Ceymar HD performance – and adds in a couple of upgrades. Designed to cover a whole range of applications, the Ceymar HD Baitfeeder features an upgraded drag system and the friction-free Flite Drive™ technology to reduce resistance while reeling in. The On/Off auto-trip baitfeeding system allows for letting the bait run freely. And when it's showtime, the quick-set anti-reverse bearing allows for uncompromised hooksets. While the line-up's smallest sizes excel in ice fishing, the larger sizes are ready to take on any bottom bait technique – from beach ledgering to vertical fishing from the boat.

FEATURES

- On/Off auto trip bait feeding system
- Flite drive system for increased smoothness
- Multi-disc, Carbonite drag system
- 7BB+1RB stainless steel bearings
- Quick-Set anti-reverse bearing
- Precision machine cut brass pinion gear
- Corrosion resistant graphite body and rotor
- CFR: Cyclonic Flow Rotor technology
- Precision Elliptical Gearing System
- Rigid metal handle design for strength
- T-Shaped TPE handle knobs on 3000-4000 sizes
- Ergo grip handle knobs on 6000-8000 sizes
- Machined aluminum, 2-tone anodized spool with LCS lip
- Heavy duty solid aluminum bail wire
- RESII: Computer balanced Rotor Equalizing System

BIG PIT SURF REELS

BIG PIT - SURF

FLITE SURF

The Flite Surf is designed for professional long casting and extremely light weight. Equipped with C-40X body and rotor, ultra-lightweight spool, screw-in handle and aluminum spool shaft for ultralightweight. Reduce wear and tear on fishing lines we designed a one-piece bail, and the other is a roller with a special DLC coating. All use HPB to achieve long-term corrosion resistance.

FEATURES

- 35mm stroke with super slow oscillation
- Light weight C-40X carbon frame and sideplates
- C-40X Cyclonic Flow Rotor for corrosion resistance
- One-Piece Bail
- Even Flow Roller System with DLC coating
- Frictionless main Shaft design
- Ultra-lightweight, A7075 aluminum shaft
- Ultra light Screw in handle
- Ultra light spool
- Rotor with tangle guard - prevents line from entering the shaft
- Rotor brake system
- Carbon fiber drag system
- Fast progressive drag
- All HPB Bearing
- Worm shaft transmission system

BIG PIT - SURF

WAVE X

An entry-level contender for big pit surfcasting, the Wave-X packs a lot of line capacity for reaching the far-off spots in the surf. The spinning reel is fitted with the super-slow Worm Shaft Transmission system to minimize friction and enable smooth and powerful casts. When retrieving, The Flite Drive™ increases gear stability for a friction-free feel. The Wave-X features a corrosion-resistant Slim Blade graphite body and a Hydro Block gasket to keep the reel's fast progressive drag system running smooth and corrosion-free. Fit for entry-level surf anglers targeting a whole range of saltwater species.

FEATURES

- Slim Blade corrosion-resistant graphite body
- 3 + 1 stainless steel bearings
- Flite Drive system increases gear stability and smoothness
- Quick Set infinite anti-reverse system
- Heavy duty, solid aluminum bail wire
- Machine cut aluminum spool
- LCS : round metal line clip
- FPD : Fast progressive drag
- Rigid metal handle with ergo grip handle knob
- Worm Shaft transmission system
- EFR-II: Even Flow Roller system with DLC coating
- Hydro block drag system

BIG PIT CARP REELS

OBSIDIAN

BIG PIT - CARP

OBSIDIAN

An extremely lightweight carp reel, the Obsidian is made with Okuma's C-40X carbon – the durable yet light graphite. The light and ergonomic feel is perfected by the ultralight spool and the frictionless main shaft design that eliminates resistance when reeling. Obsidian's super-slow oscillation, one-piece bail, and worm shaft transmission ensure exceptional line lay and superb casting.

FEATURES

- 35mm Stroke Spool with Super-Slow Oscillation
- Lightweight C-40X Carbon Frame & Side Plate
- C-40X Construction & Cyclonic Flow Rotor For Corrosion Resistance
- Ultralight Screw-In Handle
- Ultralight Spool
- Even Flow Roller System with DLC Coating
- Frictionless Main Shaft Design
- Ultra-lightweight A7075 Aluminum Shaft
- Rotor with Tangle Guard - Prevents Line from Entering the Shaft
- Rotor Brake System
- Carbon Fiber Drag System
- Fast Progressive Drag
- Worm Shaft Transmission System
- One-Piece Bail

Product Number	Weight	Gear Ratio	Bearings	Line Retrieve	Max Drag	Line Capacity	Barcode	Price €

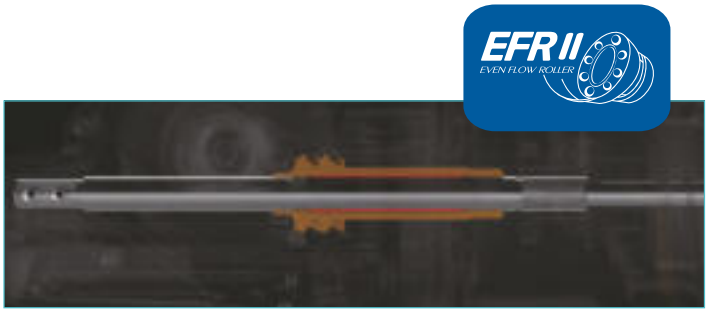
FLITE DRIVE

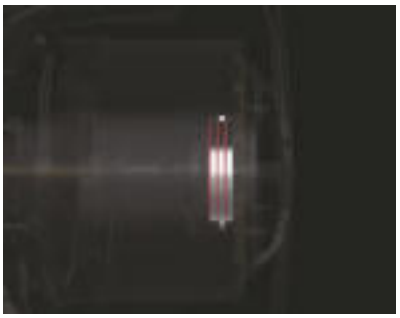
In the previous reels, when the main shaft moved up and down, a large area of friction was generated with the inner hole of the pinion, which caused you to feel resistance when turning. In order to reduce drag and achieve the lightness of rotation, we hollowed out the center of the pinion to reduce friction with shaft. To achieve the excellent lightness that maintains the original support strength and makes you feel the rotation.



ULTRA LIGHT SPOOL, EXTRA 1 SPOOL WITH 2 REDUCERS

CARBONITE DRAG SYSTEM

Okuma's ALL NEW "Carbonite" drag system features a newly-developed carbon-based drag material which displaces heat and friction consistently and steadily even under the harshest of fishing conditions. Used in conjunction with a small amount of specially-formulated Okuma drag grease, the Carbonite drag system allows for a much wider and smoother drag range, all while maintaining exceptional performance and pure fish- stopping power.



ONE-PIECE BAIL

The one-piece bail is a seamless design that reduces friction on the bail, allowing unobstructed line entry into the roller.

DIAMOND-LIKE CARBON (DLC)

EVEN FLOW ROLLER SYSTEM WITH DLC COATING

The EFR II with DLC coating greatly reduces line friction and prevents fishing worn out in addition to frictionless free rolling on the line roller to reduce line twist.

LIGHT WEIGHT C-40X CARBON FRAME, SIDEPLATES ROTOR

ULTRA LIGHT AND MACHINED ALUMINUM SCREW IN HANDLE DESIGN

BIG PIT - CARP

NEW

OBSIDIAN SPOD

Designed for relentless spodding, the Obsidian Spod reel delivers power with ease. Built using Okuma's ultra-durable yet lightweight C-40X carbon, this reel keeps fatigue at bay during long sessions. The ultralight spool and frictionless main shaft ensure smooth, resistance-free retrieves, even under heavy loads. With a high-speed worm shaft transmission, one-piece bail, and super-slow oscillation, the Obsidian Spod lays line with precision, maximizing casting distance and accuracy on every cast.

FEATURES

- 35mm Stroke Spool with Super-Slow Oscillation
- Lightweight C-40X Carbon Frame & Side Plate
- C-40X Construction & Cyclonic Flow Rotor For Corrosion Resistance
- Ultralight Screw-In Handle
- Ultralight Spool

BAITCAST REELS

BAITCASTING REEL TECHNOLOGY

MATERIAL

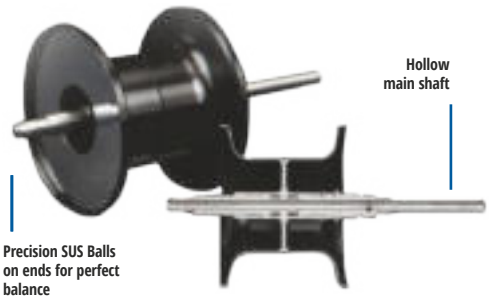
LITECAST®

LITECAST® is the latest in Okuma's reel technology. Reels with the LITECAST® structure are composed using a magnesium material in the casting process, making the integrity of the reel incredibly strong & 15% lighter than aluminum alloy reels. Okuma Hakai Reels feature the new LITECAST® construction.

CASTING

FLITE™ SPOOL

Flight spool is a Dream Tackle Design allowing Okuma to offer a super tuned spool on our premium baitcast reels. The spool is 33mm in diameter and was developed for long distance casting as well as finesse style fishing. The complete spool design weighs in at just 0.33 ounces as a result of its uniform thickness, which is what helps set this super tuned spool apart from others.



FLITE™ SHAFT

Flite shaft is a patented hollow stainless steel spool shaft with precision stainless steel balls pressed on each end. These balls rotate under pressure to reduce friction and help increase casting distance. Providing the perfect balance point between weight, strength and smoothness.

MORE TECH

MCS

Okuma's Magnetic Control System reduces backlash & improves casting distance by utilizing the magnetic field generated by the high RPM spinning of the spool during casting. The magnetic field is influenced by the adjustable cast control magnets which exert an opposing force & allows for minute & accurate adjustments.

SPOOL ACCESS PORT

This unique new design can be found on Okuma's low profile baitcast reels. The Spool Access Port allows for quick access to the spool by simply sliding the lock/unlock lever on the sideplate opposite the handle. This system allows for quick spool changes, but more importantly it allows quick access for adjusting the Velocity Control System.

VELOCITY CONTROL

The Velocity Control System is an adjustable, 6-pin centrifugal braking system for precision spool control. Weights can be adjusted IN or OUT for additional spool control. Positioning the weights in toward the spool allows for more freespool, while adjusting the pins out away from the spool allows for more control. Anglers can alternate weights until they find that perfect balance for casting.

UNIVERSAL LINE DIAM INDICATOR

Always know what line you spooled on your reel when you pick it up.

BAITCASTING

HAKAI DT

The new generation Okuma Hakai low-profile reel is developed with the latest technology and insights from top anglers across the globe. The main body uses Okuma's LITECAST magnesium alloy construction for ultimate strength and lightweight use. At only 167g, the Hakai features an extra compact body and is designed to fit comfortably in the palm of your hand.

FEATURES

- LiteCast magnesium frame: corrosion resistant coating
- Corrosion Resistant sideplates for maximum durability
- 42mm oversized hardened machine cut brass main gear
- Multi-disc Stainless Steel and Carbon Hybrid drag system
- Super tuned Flite Spool for maximum casting distance
- Patented fliteshaft hollow stainless steel main shaft
- Built in, universal line diameter indicator
- External adjustable magnetic cast control system
- Precision C-40x carbon injection star drag
- 6BB + 1RB stainless steel bearings for ultimate smoothness
- Quick-Set anti-reverse roller bearing for solid hook sets

BAITCASTING

KOMODO SS

The Komodo family of low-profile baitcast reels has been the recipient of tremendous accolades. One of our favorites being from a 30-year big fish veteran regularly referring to the reel as a “excellent value” or “best toughness and value I’ve ever seen.” This is no surprise. Komodo reels, featuring stainless steel gearing and drive shafts, along with amazing levels of drag output, take on the largest freshwater fish like pike and salmon, along with the toughest inshore species like bass with a level of power and durability that is best in their class. The selection includes two sizes, with options in gear ratios and handles to deliver the perfect reel for your big fish applications.

FEATURES

- Stainless steel main gear for ultimate power and strength
- Precision machine cut stainless steel pinion gear
- Heavy duty stainless steel drive and spool shafts
- ALC: Rigid diecast aluminum frame and sideplates
- CRC: Corrosion-Resistant Coating process
- A6061-T6 machined aluminum, anodized spool
- Multi-disc high output Carbonite drag system
- Micro-click drag star for precise drag settings
- Precision Japanese ABEC-5 spool bearings
- Dual anti-reverse for maximum reliability
- Quick-Set anti-reverse roller bearing
- 6-pin Velocity Control casting system
- Synchronized levelwind optimized for braided line
- Zirconium line guide inserts for use with braided line
- Available in both right and left hand retrieve
- On/Off clicker for trolling or bait fishing
- Twin paddle or jigging handle models available

BAITCASTING

CITRIX

This exclusive version of Citrix 350-size low profile reel comes with a jigging power handle. The reel is designed with rigid diecast aluminum frame and handle side plate provide more precise tolerances for precision gear alignment, maximum cast ability and ultimate durability. Multi-disc carbonite drag system that outputs 11 kg of maximum drag.

FEATURES

- ALC: Rigid diecast aluminum frame and handle side plate
- A6061-T6 machined aluminum, anodized V-shaped spool
- Multi-disc Carbonite drag system
- 7BB+1RB bearings drive system
- Micro-click drag star for precise drag settings
- External adjustable centrifugal cast control system
- Quick-Set anti-reverse roller bearing
- Zirconium line guide inserts for use with braided line
- Easy change palm side plate access port
- Graphite sideplates
- Fitted with jigging power handle

CONVENTIONAL REELS

MAKAIRA TROLLING REEL TECHNOLOGY

DUAL FORCE DRAG SYSTEM

The specialized carbon DFD or Dual Force Drag system used on all Makaira reels was specifically engineered to be mounted in the right side of the spool in order to bring all the mechanical workings closer together to maximize alignment and durability. The farther mechanical parts are separated the more opportunity there is for tolerance error and flexing which causes parts alignment issues. The DFD principal was specifically designed around the "Pull Bar Drag System". The major advantage to a "Pull Bar Drag System" is that the drag is being pulled rather than pushed. The most common type of lever drag in the industry is the "Push Bar Drag System". The Push Bar System places heavy pressure on the left side plate and utilizes the frame for overall stability which is a fatal flaw in this type of design. This pressure creates frame flex, reducing drag pressure and causing tolerance alignment issues. This problem is further exaggerated on open top designs from other companies. One of the major benefits to the pull bar design is that there is no pressure placed on the frame. Therefore, our open top frame designs will not suffer frame flex found in our competitors reels.

This highly efficient drag system was designed and engineered by Tiburon Engineering USA to increase maximum drag pressure, reduce side load pressure on ball bearings and improve heat dissipation for long term smoothness over extended periods. This Okuma DFD is considered a wet drag system comprised of two carbon fiber drag washers that are sandwiched together and bonded with a fiber glass core. Pure carbon washers are coated with a thin layer of Cal Sheet's Universal drag grease for virtually zero start up inertia. These washers are compressed by two precision ground 17-4 grade stainless steel drag plates that have been ground flat then polished for maximum smoothness. These stainless steel friction drag plates have a minimum 32 Rockwell hardness allowing for high-end drag settings and consistently smooth drag performance at all ranges. The drag system is secured to the right side of the spool by a 6061-T6 grade aluminum cover that features Type-II anodizing for maximum alignment, strength and corrosion resistance.

TDC-80WII/130II

TDC-50II/50WII

TDC-16II/20II/30II TDC-8II/10II/15II/15TII

TOURNAMENT DRAG CAM IGFA LINE CLASSES FOR MAKAIRA

Okuma's TDC or "Tournament Drag Cam" is designed with a more gradual ramp in the cam system that is intended for anglers fishing light line and tournament IGFA line classes. The standard cam that is installed in the Makaira reels is engineered to be compatible with braided line and offers aggressive drag ramps in order to output heavy drag ratings. The Makaira reels are engineered to output extreme drag pressure, but this is not required by all anglers. These reels have been designed to offer customization and with the TDC cam system, Okuma is offering anglers a reel that is versatile for a wide range of fishing applications, allowing anglers the ability to achieve a more gradual increase in drag settings.

SILENT ANTI-REVERSE:

The Makaira's proprietary anti-reverse system allows for a smoother and quieter feeling. We equate this feeling to that of a Lexus, when compared to other reels in the market. Most reels in the market hide their rough gear quality by the noise and vibration caused by the engagement and clacking of the anti-reverse pawls. The Okuma silent system is unlike any other 2-speed reel in the industry for smoothness. This anti-reverse system is supported by a 12 point double dog anti-reverse pawl system. The Makaira system is very simple in principal but the performance is extremely advanced. As you turn the reel forward the anti-reverse pawls slide open allowing a friction free and quiet retrieve. As soon as the handle is stopped or pulled backwards the anti-reverse pawls are engaged into place by their drive shaft actuated sliding system. The strength of this anti-reverse system does not solely rely on a dog spring like found on most of our competitors reels. The sliding function does not rely heavily on a dog spring system and is mainly controlled by the forward and reverse movement applied to the drive shaft through the movement of the angler turning the handle.

HELICAL CUT GEARING:

Makaira lever drag reels utilize helical cut main and pinion gears. This process allows for improved gear meshing which equates to improved gear smoothness. The angled teeth found in helical cut gears engage more gradually than straight cut or spur gear teeth. This allows helical gears to run smoother and quieter compared to spur gears. Spur gears cause impact stress and noise, because of the hard meshing and can not take as much torque as helical gears because their teeth are receiving impact blows as they mesh together.

GREASE AND OIL:

To further enhance the corrosion resistance of Makaira reels, Okuma applies our CRC or Corrosion Resistant Coating process to all internal and external parts for maximum protection. Our CRC process utilizes a coating process of Corrosion X HD formula that actually penetrates and bonds to the aluminum parts for long term protection. The extra steps taken in the assembly of the Makaira allows this reel to be a leader in the fishing tackle industry for long term use and performance. To further enhance the Makaira's function and performance, Okuma applies Cal's Universal drag grease to our carbon fiber drag washers for the smoothest wet drag system. The addition of Cal's drag grease allows for virtually zero start up inertia and smooth performance at all settings. Cal's Universal grease is also used for coating moving parts such as the main and pinion gears for improved performance.

TROLLING AND CONVENTIONAL REEL TECHNOLOGY

GEAR

SELF LUBRICATING GEAR SYSTEM

The self-lubricating gear system is a feature found on Okuma's higher-end star drag reels. The main gear on this system incorporates a heat-sensitive oil-impregnated brass bushing that is mounted in the center of the gear. This system releases oil if friction increases to keep the main gear & drive shaft running smoothly in all conditions. Okuma is the first company to adopt this technology which originated in the large machine industry where this function has been time tested for many years.

XL GEARING

The XL gearing design found on both lever drag & star drag reels incorporates an oversized gear box that features an enlarged gearing system & enlarged drag system. The drag surface areas on this system are more than 50% larger than a standard gear-box design. For the gear system, the major advantage is that the gear teeth are substantially larger, allowing more strength & cranking power. This is how we are able to offer a high-speed gear ratio reel without sacrificing cranking power. Our XL gearing system essentially turns your reel into a winch.

SPEED LOC PINION GEAR SYSTEM

The SLG technology incorporates a dual-step pinion gear system on star drag reels that allows positive engaging at extreme high speeds. The SLG system allows for instant gear engagement when engaging from freespool to strike at speeds in excess of 50 MPH.

2-SPEED GEARING

Okuma's 2-speed technology incorporates two sets of stainless steel main & pinion gears, allowing anglers the option of a high-speed gear ratio or a powerful low-speed gear ratio for maximum power & torque. To shift gears it is as easy as pushing a button or popping a lever with Okuma's unique shifting design to obtain the appropriate gear ratio you desire.

MATERIAL & DRAG

MACHINED RIGID FRAME

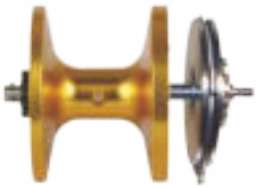
Okuma's Machined Rigid Frame construction incorporates a one-piece fully-machined aluminum frame. These rigid bar-stock aluminum frames are the ultimate in precision alignment & tolerances withstanding more pressure & torque than any other material used in our industry for frame materials. Okuma features these anodized frames on fly reels, baitcast reels, lever drag reels & star drag trolling reels.

BODY ARMOR

Okuma's stainless steel Body Armor eliminates the frame flex commonly found in graphite framed trolling reels. This feature incorporates two large stainless steel rings that are mounted to both sides of the frame. The harness lugs are integrated into the body armor design & eliminate the pressure commonly placed on the harness lugs by redistributing the pressure to these large-diameter rings.

LEVER DRAG DUAL FORCE DRAG

For extremely smooth & strong drag outputs, Okuma's Makaira and Alijo's 2-speed reels are designed with a patented Dual Force Drag system. This drag system is specifically engineered to be mounted in the right side of the spool, designed around a Pull Bar Drag System which keeps all mechanical workings in precise alignment & places no pressure on the frame. This system works in conjunction with a custom designed thrust bearing, which alleviates side load at heavy drag settings.



CASTING

MSS

Strong, Stable, Smooth - Okuma's Mechanical Stabilizing System is a support system that ties the spool shaft, pinion gear, pinion gear bearing, drive shaft & main gear together with a single support system. While other reels on the market offer minimal or no gear stabilization, this patented Okuma design allows all of these critical parts to stay in precise alignment. Designed specifically to hold up to the demands of braided & wire line fishing, the MSS support system stabilizes the spool shaft at 3 key stress points to eliminate flex under pressure – which directly translates into a reel that is more durable, stronger & smoother than the competition.

MCS

Okuma's Magnetic Control System is a fully-sealed, 100% waterproof cast control system that reduces backlash & improves casting distance by utilizing the magnetic field generated by the high RPM spinning of the spool during casting. The magnetic field is influenced by the adjustable cast control magnet which exerts an opposing force & allows for minute & accurate adjustments.

MORE TECH

WIDE MOUTH LEVELWIND

This heavy-duty, stainless steel levelwind is Titanium coated & built to withstand the punishment of both braided & wire lines. The guide has been designed with an increased opening to insure proper knot clearance when fishing with double lines. This wide space allows for Albright or similar connection knots, as well as swivels & copper line to pass through the guide easily & be wound directly on the spool.

STRIKE ZONE

Okuma's Strike Zone linecounter system incorporates a mechanical counter that precisely measures line based on spool revolutions. These counters measure in feet & are calibrated at the factory to be most accurate with a full spool & monofilament lines.

T-BAR HANDLE

T-Bar Handle: The patented design of the T-Bar handle offers a true ergonomically correct angle to ensure an angler gets maximum power with minimum fatigue. The T-bar takes full advantage of the natural dynamics of the human hand, wrist & forearm to help sustain power & endurance for the angler.

ERGO GRIP

The Ergo Grip handle knob is an extremely comfortable oversized handle-knob design for both speed & power. This soft-touch knob has been ergonomically designed to fit in the palm of your hand & will be found on certain Okuma lever drag reels, star drag reels & some spinning reel models.

HIPPO GRIP

The Hippo Grip is a unique reel-clamp design that serves triple duty when fishing offshore. This heavy-duty, forged aluminum reel clamp securely supports your reel to the rod for maximum safety. This clamp also incorporates a small hole that was designed to be used with a safety line for trolling. On the rear of the clamp is a large diameter hole that was designed to be used as a trigger. The large hole should be mounted facing the butt of the rod.

CRC

Okuma's Corrosion Resistance Coating (CRC) consists of a thin layer of Corrosion X HD applied to all internal & external parts. The CRC process actually penetrates & bonds to the metal, which helps significantly in the reduction of corrosion, & towards the long term protection of your reel.

CONVENTIONAL - TROLLING

MAKAIRA

FEATURES

- 6061-T6 machined aluminum frame with forged side plates
- 17-4 grade stainless steel gearing
- Helical cut gears for increased torque, smoothness and improved gear meshing
- Makaira reels all feature two-speed gearing systems
- Gold anodized two-speed gear shifter housing
- Cold forged, Type-II anodized, machined aluminum spool
- CRC: Corrosion Resistant Coating process
- Patented spool pin system for use with braided or mono lines
- Carbonite Dual Force drag system featuring Cal's universal drag grease
- Custom designed thrust bearing: Alleviates side load on heavy drag settings
- 4-pcs ABEC-5 precision Sapporo stainless steel ball bearings
- MK-80WII features 6-pcs of Sapporo ball bearings
- Double-dog, proprietary silent anti-reverse system
- Ratcheting drag lever and pre-set knob for precise drag setting
- Patented T-Bar handle with Easy Roll graphite insert on all models
- Heavy duty stainless steel ratcheting clicker system
- Heavy duty, 17-4 grade stainless steel drive and spool shafts
- Type-II gold anodized frame, sideplates, spool, drag lever and handle
- Open top frame design on 16II, 20II, and 50II
- Lug and plug system on all open top reel models
- Machined thumb rest on rear cross bar for improved ergonomics
- Forged aluminum full hard anodized reel foot and reel clamp
- Machine-etched marlin logo on left side plate
- Precision placement of drain holes maximizes water removal from reel
- Special screw ports around side plate screws reduces water/corrosion buildup

ALIJOS 2-SPEED

The Alijos 2-Speed Lever Drag is a lightweight, compact bodied, big fish stopping machine. Built with 6061-T6 machined aluminum for the ultimate in strength. The 1-piece frame continues around to the non-handle side, side plate which has a cast control system for precision spool control. The spool bearings are bathed in TSI oil giving it the ultimate in castability and frees spool. The Alijos reels feature a longer 90mm handle harm and oversized T-bar handle knob for great torque and comfort. The clicker mechanism has been reworked to give a louder clicking sound for trolling or dead stick applications. The new 2-speed shifting mechanism has been completely reworked by Okuma giving it the ultimate in shifting. The DFD: Dual Force Drag puts out tremendous drag pressure with its 100% larger drag plates.

AJ-12SII

FEATURES

- 17-4 grade stainless steel main and pinion gears
- Carbonite Dual Force Drag system with Cal's drag grease
- 6-NMB corrosion resistant stainless steel bearings
- Spool bearings feature TSI-301 oil for unmatched freespool
- Rigid 1-pcs frame and left sideplate construction
- 6061-T6 machined aluminum frame and sideplates
- Cold forged, Type-II anodized, machined aluminum spool
- Custom designed thrust bearing: Alleviates side load on heavy drag settings
- Silent retrieve system for ultimate cranking smoothness
- 90mm handle arm, increases cranking leverage/power
- Oversized T-Bar handle on all models, for cranking power
- Lug and plug harness system featured on 12 and 16 sizes
- External adjustable cast control system on left sideplate
- CRC: Corrosion Resistant Coating process

CONVENTIONAL - JIGGING

TESORO LD JIGGING

NEW

Bring the fight where the fish are. Designed for jigging for large saltwater species, the Tesoro LDJ features a tough 6061-T6 aluminum frame with stainless steel gearing. The carbonite Dual Force drag system is complemented by an easy-to-use lever drag design with three drag force adjustments – allowing for extremely precise outputs of drag force. The ergonomic design ensures comfort while battling bullies like tuna, amberjack, and grouper, and the spool lock system helps break off the line if you get stuck in the bottom. The competitive price tag ensures no angler has to pass on excellence.

FEATURES

- Cold forged, machined aluminum spool, frame and side plate
- Stainless steel gear(XL GEAR)
- Full range linear drag curve - Carbonite Dual Force drag system
- Flite Drive : Super light rotation pressure under Heavy duty
- 4 point drag adjustments mark :Free, M, Strike and Full
- Machined aluminum handle with EVA T Bar knob
- Out-cut frame bar to avoid fishing line touching the body
- Spool lock for breaking off line when stuck on bottom
- Line capacity mark
- Ergonomic design for index finger and thumb comfort
- Spool pin system for use with braided lines
- Triple Anti-reverse system: Two one-way bearing and one dog pawl
- Braid line only
- No clicker - spool lock function

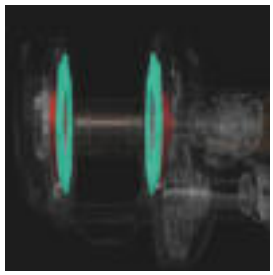
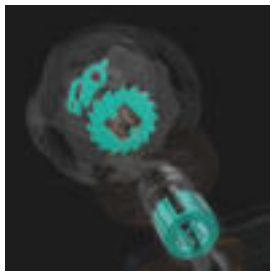
SUPER LIGHT ROTATION PRESSURE UNDER HEAVY DUTY

Through FLITE DRIVE TM technology, the rotation resistance is lighter under heavy load. Compared with the previous CAVALLA, it is more than 55% lighter.



TRIPLE ANTI-REVERSE SYSTEM, TWO ONE-WAY BEARING AND ONE DOG PAWL

Triple anti-reversal systems not only provide a very small gap, but also greatly enhance the strength.



FULL RANGE LINEAR DRAG CURVE DESIGN

Highly sensitive braking requirements specially designed to cope with jigging fishing. We designed a full range linear drag curve. Moreover, the addition of the M mark can help anglers quickly adjust the drag force.

ERGONOMIC DESIGN FOR INDEX FINGER AND THUMB COMFORT

Ergonomic design for index finger and thumb comfort.

OUT-CUT BAR DESIGN

Out-cut bar to avoid fishing line touching the body to increase the space between spool and cross bars.

CONVENTIONAL - TROLLING & JIGGING

CAVALLA

FEATURES

- Rigid 1-pcs frame and left sideplate construction
- 6061-T6 Machined aluminum frame and sideplates
- 17-4 grade stainless steel main and pinion gears
- Carbonite drag system with Cal's drag grease
- Cold forged, Type-II anodized, machined aluminum spool
- CRC: Corrosion Resistant Coating process
- 4 BB corrosion resistant stainless steel bearings
- Ergo Grip handle knob with anodized aluminum handle arm
- Silent retrieve system for cranking smoothness
- On/Off bait clicker for all lever drag models

SOLTERRA SLX B

Built to battle the strongest of fish, the Solterra SLX B is the new generation of the acclaimed Solterra saltwater trolling reels. Armed with thrust bearings, the Solterra SLX B withstands tremendous side loads and allows you to crank the handle with reduced resistance when under pressure. The modern finish perfects the performance-packed reel.

FEATURES

- Stainless Steel Main Gear, Pinion Gears & Shafts
- Carbonite Drag System with Cal's Universal Drag Grease
- Double Dog Silent Anti-Reverse on All Models
- Stainless Steel Body Armor Reduces Frame Flex (20-50W Models)
- Thrust Bearings Help Reduce Handle Turning Resistance

NEW

CONVECTOR
Line Counter

The Convector LC series offers proven trolling power with rugged construction for anglers targeting aggressive freshwater species. Designed for precision lake trolling and light saltwater use, the Convector LC features a corrosion-resistant frame, self-lubricating gear system, and a durable aluminum spool. The high-accuracy line counter allows for optimizing your trolling patterns when using multiple lures. The reel's wide-gap level wind handles various line types with ease.

FEATURES

- Lightweight corrosion resistant frame and sideplates
- Machined aluminum, gun smoke anodized spool
- Stainless steel reinforcing sideplate rings
- Multi-disc Carbonite drag system
- Ratcheting drag star for precise drag settings
- 2BB+1RB Stainless steel bearing drive system
- Quick-Set anti-reverse roller bearing
- Dual anti-reverse system. (Mechanical & roller bearing)
- Durable high-grade brass main and pinion gear system
- XL gearing: Drop down gear box 20, 30, 45 sizes
- Self lubricating gear system, all models
- Wide Mouth levelwind ("L" models): Clearance for copper line
- Ergo grip handle knobs featured on all models
- Stainless steel Body Armor on CV-55L
- MSS: Mechanical Stabilizing System for increased durability

CONVENTIONAL - TROLLING

CLASSIC PRO XP

Coming from Okuma's best-selling series of conventional reels, the Classic Pro is a true saltwater workhorse. Designed for trolling in the Atlantic and Mediterranean waters, the Classic Pro's strength is rooted in its durable aluminum spool construction. The 2-bearing drive system and multi-disc carbonite drag system run smooth, and when fighting a fish, the oversized Ergo Grip handle knob increases cranking power. Straight to the point, with no extra gimmicks – the Classic Pro delivers reliable performance with an exceptional price-quality ratio.

FEATURES

- Lightweight corrosion resistant frame and sideplates
- Machined aluminum, anodized spool
- Ported graphite frame design
- Stainless steel reel foot for strength
- Dependable multi-disc Rulidium drag system
- Classic Pro XP features 2 ball bearings
- Machine cut brass and stainless steel gearing
- Aluminum power handle with T-style knobs
- Self lubricating gear system
- C version features an open structure for better cast control

RODS

ROD TECHNOLOGY

UFR TECHNOLOGY

When choosing a rod, anglers often face the trade-off between a powerful but bulky rod that can catch big-sized fish, or a sensitive but weaker rod that can sense the bites of the smallest fish. We address this challenge with a revolutionary tip: Ultimate Flex Reinforcment (UFR), which redefines the future generations of rods.
Developed using a patented manufacturing process, the UFR tip combines strength and agility like never before, marking a breakthrough. Our UFR technology endows our rods with a 300% increase in lifting capability and an ability to bend up to 360°. With a longitudinal fibers around the rod blanks, our rods are more powerful, yet lighter and more flexible than traditional ones. As a result, our anglers no longer need to choose between power and sensitivity.

FREEING ANGLERS FROM THE CHOICE BETWEEN POWER AND SENSITIVITY

UMR TECHNOLOGY

Okuma's Ultimate Matrix Reinforcement (UMR) technology maximizes rod strength while minimizing weight, so you can rise to meet any challenge.

LIGHTWEIGHT STRENGTH BUILT FOR ANY CHALLENGE

USR TECHNOLOGY

Okuma's USR technology, short for Ultra Strength Reinforcement, is an innovative carbon fiber wrapping technology for fishing rods. By utilizing a cross carbon wrap jacket, USR significantly enhances the performance of rod blanks. This advanced construction technique reinforces the structure of the blanks, resulting in increased strength and amplified power. With USR, fishing rods achieve a superior level of robustness and improved performance capabilities.

ROBUSTNESS AND IMPROVED PERFORMANCE

AIR POWER TECHNOLOGY

Air Power Technology is an advanced rod construction system that combines the benefits of solid and tubular carbon blanks into a single, high-performance structure. By using a precise layering technique with different tonnages of carbon fiber, the blank achieves exceptional lifting power and robustness comparable to that of a solid carbon rod.
At the same time, a controlled inner cavity is maintained, allowing for superior sensitivity and vibration transmission—hallmarks of high-end tubular designs. This innovative construction eliminates the traditional trade-offs between strength and responsiveness, delivering a rod that offers both unmatched power and refined sensitivity without compromise.

UNMATCHED POWER AND REFINED SENSITIVITY WITHOUT COMPROMISE

PSYCHO
STICK

SPINNING

PSYCHO STICK

The Psycho Stick line-up is a technical series of freshwater spinning rods designed for specific techniques. Fit for targeting small and medium-sized freshwater predators, the rods are built with high-modulus 30T carbon blanks, new Okuma U1 line guides, and aluminum rod connectors. The short rear grip optimizes lure control, while the balanced and lightweight blank allows for comfortable fishing even after hours of use. The rods are optimized in terms of casting power, sensitivity, and hooking power – all you need to do is choose your weapon, depending on the style of bait used. And, thanks to the accessible price tag, even new anglers can experience pro-level performance. Finished with streetwear-inspired cosmetics and a velvet cloth bag.

FEATURES

- High module carbon 30T
- OKUMA U1 new guides
- Skeleton reel seat
- Aluminum rod connector
- Carboncoque rear grip
- Velvet cloth bag
- Fuji EZ hook keeper

SPINNING

JAW SPIN

A line-up of spinning rods for those taking their first casts - the Jaw series delivers versatile performance with an impressive price-quality ratio. The wide range offers options for freshwater applications, all finished with reliable components and high-quality looks. Designed to work in perfect unison with the Jaw spinning reel.

FEATURES

- High quality carbon
- Fast action response
- All models feature a comfortable EVA handle
- Graphite custom reel seat
- Designed to match Okuma Jaw Spin reels

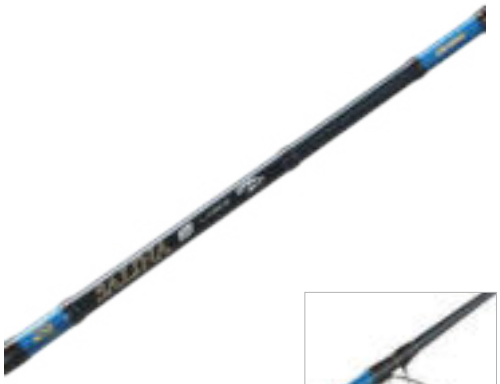
OFF SHORE SPINNING

NEW SIZE

SALINA TUNA

A precise line-up of spinning rods for targeting tunas of all sizes, the Salina Tuna sets the new standard off-shore tuna fishing gear. To match the tunas' power, the Salina Tuna features an exceptionally powerful high-modulus carbon blank optimized for intense showdowns. Special care was taken to ensure the 1+1pcs blank has the necessary bend to help anglers minimize the strain when fighting the fish. The Salina Tuna's other components exhibit the same degree of care: the blank is fitted with a Fuji reel seat and SeaGuide New Concept guides with Zirconia inserts and SS316 frames. The rubber gimbal butt cap increases stability when hauling in the fish.
As tunas often swim in schools of similar-sized specimens, the Salina Tuna series consists of three different rod sizes – you can optimize your gear by choosing the rod according to the size of the fish in your area. For optimized performance, pair the Salina Tuna with a Tesoro or Cedros spinning reel.



FEATURES

- High modul carbon
- IST blank construction (individual section technology)
- New concept Seaguide with Zirconia insert and SS316 frame
- Fuji reel seat with back stop
- Rubber gimball
- Fish size optimized

SHORE JIGGING

F-15 SHORE JIGGING

Okuma's Shore Jigging series is a line-up of rods purely dedicated for targeting large saltwater shore species. Representing the most accessible end of the series, the F15 Shore Jigging is built with premium components for impressive performance – and an unbeatable price-value ratio. The long-casting F15 Shore Jigging features a strong but light Toray carbon blank with a fast and responsive action. Designed for long days of inshore jigging, the two-section rod has a balanced design – but enough power for targeting large species like tuna and amberjack. The F15 Shore Jigging features esteemed components, such as high-quality guides and a Fuji reel seat with a double lock. Pair the rod with the Tesoro or Cedros spinning reel for optimized performance.

FEATURES

- Toray carbon
- Thin, strong, light and fast responsive blank
- Fuji reel seat with double lock
- High quality Guides
- Rubber butt cup

SHORE JIGGING

F-16 SHORE JIGGING

Okuma's Shore Jigging series is a line-up of rods purely dedicated for targeting large saltwater shore species. Representing the middle of the series, the F16 Shore Jigging is built with premium components for impressive performance – and an excellent price-value ratio. The long-casting F16 Shore Jigging features a strong but light Toray carbon blank with a fast and responsive action. Designed for long days of inshore jigging, the two-section rod has a balanced design – but enough power for targeting large species like tuna and amberjack. The F16 Shore Jigging features premium components, such as the Fuji K Alconite guides and a Fuji reel seat with a double lock. Pair the rod with the Tesoro or Cedros spinning reel for optimized performance.

FEATURES

- Toray carbon
- Thin, strong, light and fast responsive blank
- Fuji reel seat with double lock
- Fuji K Alconite Guides
- Rubber butt cup

SPINNING - SALTWATER

NEW

CEYMAR SW

The Ceymar SW rods deliver the strength, balance, and performance needed for serious saltwater pursuits. Crafted with high-quality components, including thin and responsive carbon blanks and Fuji O K-frame guides, the Ceymar SW offers impressive casting distance, high sensitivity, and lasting durability against fierce predators. Balanced for fatigue-free fishing and finished with modern styling, the Ceymar SW rods pair perfectly with Ceymar SW reels, giving saltwater anglers a high-quality, reliable setup at a price that's hard to beat.

FEATURES

- Premium 24/30T carbon construction
- Fuji O K frame
- Modern aesthetic
- Thin blanks for precision and responsiveness
- Well-balanced for effortless control

TROLLING

Wild Trolling LIVE

Packed with features usually associated with custom rods, the Wild Trolling series delivers uncompromised performance for targeting large saltwater species like amberjack and snapper. Featuring Okuma's IST (Individual Section Technology) construction, the Wild Trolling rod has a one-section blank for increased sensitivity and strength – all while keeping the blank pleasantly lightweight. The rod's backbone is further supported by the spiral-wrapped construction that ensures the rod stays upright when hauling in fish from the depths. The Wild Trolling's other components exhibit the same custom-level eye for detail: the blank is fitted with premium Fuji MNSG SiC guides and a Fuji graphite reel seat with a double lock. When fighting the fish, the graphite Fuji gimbal butt cap stabilizes the rod. The Wild Trolling series includes two rods with actions and powers optimized for the target species.

FEATURES

- IST blank construction (individual section technology)
- Graphite Fuji reel seat with double lock
- Fuji MNSG SIC
- Action optimized for species
- Graphite fuji gimbal
- New Rod Saver
- Spiral guide

TROLLING

CUSTOM PRO Lite Trolling

Optimized for trolling from smaller boats, the Custom Pro Light is ideal for targeting small-sized saltwater predators. The lightweight rod features a thin and balanced carbon blank construction with high-quality line guides and Okuma reel seat. Paying attention to the needs of light trolling anglers, the Custom Pro Light' blank is slightly longer than a standard trolling rod to allow for trolling with numerous rods on the boat. Thanks to the reversible blank technology, the rod can be used with both spinning and conventional reels.

FEATURES

- Thin and balanced carbon blank
- Okuma reel seat and Guides
- New double face concept that allows use of both spinning and conventional casting reels
- Light LB but extremely powerful rods

JIGGING - CASTING

NEW

SLOW HUNTER

Slow jigging, redefined. Built with Okuma's cutting-edge Air Power Tech, the Slow Hunter features a balanced blank that combines the strength of a solid-carbon blank with the unbeatable sensitivity of a classic hollow carbon blank. Thanks to this pairing of extreme lifting power and uncompromised sensitivity, the Slow Hunter is an ideal choice for targeting fierce offshore predators in the European waters. Finished with high-quality Fuji O double-foot guides. Pair with the Tesoro LD jigging reel for optimal setup.

FEATURES

- Advanced Airpower Tech for next-level performance
- Durable Fuji O double foot guides
- Integrated blank protector
- Perfectly balanced for all-day comfort
- Incredibly powerful yet ultra-thin blank for serious fights
- Crafted for the demands of European anglers

JIGGING

FireBall

The Fireball is Okuma's answer to the growing need for gear dedicated to anglers jigging with fireball rigs. Fit for both saltwater and freshwater pursuits, the Fireball is built with an all-new Okuma Air Power technology, allowing for a super sensitive rod tip – and a lightweight blank that packs an incredible amount of strength. The rod's backbone is further supported by the spiral-wrapped construction that ensures the rod stays upright when hauling in fish from the depths. The Fireball comes equipped with premium components, like the SeaGuide New Concept line guides and high-quality Fuji reel seat. Finished with fire-hot cosmetics. Pair the Fireball with Cavalla, Cedros, or Tesoro Spinning, and you're ready to turn on the heat.

FEATURES

- NEW Air power technology
- Thin but extremely powerful blank
- New concept seaguide with Zirconia insert and SS316 frame
- Okuma rubber gimball
- Fuji reel seat
- New blank protector
- Spiral guide

JIGGING

DEEP IMPACT

Okuma's Deep Impact is purely dedicated to jigging with soft baits in the deep blue. The rod features a high-modulus carbon blank with an action optimized for the technique: sensitive enough for uncompromised bait control and strong enough for driving in the hooks in deep waters. The thin blank is fitted with a high-quality Fuji reel seat and SeaGuide New Concept line guides for minimized line friction. The Okuma rubber gimbal butt cap improves the rod's stability when hauling in fish from the depths. For optimized performance, pair the Deep Impact with Okuma's saltwater workhorses, like the Cavalla, Cedros, or Tesoro Spinning.

FEATURES

- High module carbon
- Thin blanks
- Action optimized for softbaits in deep water
- Fuji reel seat
- New concept seaguide with Zirconia insert and SS316 frame
- Okuma rubber gimball
- New Blank protector

ELECTRIC REEL FISHING

AMPERE

Built for heavy lifting. Designed for taking on large saltwater fish with an electric reel, the Ampere comes packed with heavy-duty components and innovative features. The rod's extremely powerful carbon blank features a unique 2-in-1 construction that allows you to adjust the rod's length and power by adding the middle section to get the the rod longer and more sensitive. The rod is fitted with SeaGuide heavy-duty line guides with zirconia inserts and SS316 frames for minimized line friction. The Ampere's impressive backbone is supported by the spiral-wrapped construction that ensures the rod stays upright when hauling in giants from the depths – meaning you can focus on fighting the fish, not the gear. The glow-in-the-dark hybrid tip enhances bite detection while the fighter butt cap adds extra leverage when fighting the fish.

FEATURES

- Unique carbon construction
- Extreme Powerful blanks
- Hybrid tip
- 2 in1 rod concept
- Fighter butt cap
- Glow in the dark tip
- Heavy duty Seaguide with zirconia insert + SS316 frame

FLITE HYBRID

A member of Okuma's new surf casting range, the Flite Hybrid is designed for targeting all saltwater shore species with its extreme casting distance and uncompromised accuracy. Built with high-quality Toray carbon, the Flite Hybrid delivers fast and responsive action in a thin and strong blank. Together with premium components from Fuji, the Flite Hybrid's hybrid tip allows for extreme casting distance by converting more energy into casting power. Furthermore, the hybrid tip improves accuracy and enhances bite indication. The reflective tip's glow-in-the-dark technology makes sure that no bite goes undetected, even in the darkness of the night. The Flite Hybrid rod is matched perfectly with Okuma's Flite Surf reel.

FEATURES

- Toray carbon
- Thin, strong, light and fast responsive blank
- Sensitive hybrid tip
- Fuji K Alconite and Fuji LR reel seat Fuji K Alconite for FLH-SC-4203250K and FLH-SC-4503250K

SURF

ROCKAWAY HYBRID

A member of Okuma's new range of surf casting rods, the Rockaway Hybrid allows you to reach spots other anglers can't. Powered by a Toray carbon blank and premium Fuji line guides, the Rockaway Hybrid is designed for smooth, reliable, and impressively long casts. The sensitive hybrid tip glows and reflects, ensuring uncompromised bite detection even in the dark. The anatomic rear grip improves comfort while the aluminum-reinforced joint increases durability. Pair the Rockaway Hybrid with the Rockaway spinning reel for an affordable yet performance-packed tool for surf casting on the Mediterranean and Atlantic coasts.

FEATURES

- Toray carbon
- Sensitive hybrid tip
- Glow & reflective tip
- Anatomic rear grip
- Fuji Low rider Concept "O" guides
- Aluminum reinforced joint part

BOLENTINO

ROCKAWAY BOLENTINO

Designed for bottom fishing from the boat, the Rockaway Bolentino comes armed with a powerful and balanced Toray carbon blank, a sensitive hybrid tip, and a fighting butt cap for enhanced leverage. The saltwater components are paired with a smart construction that allows you to adapt to different situations on the water. The series' multi-sectioned rods feature interchangeable tips and mid-sections that enable you to transform the action on the go. The series includes two rods with two separate tips and mid-sections and one rod with two separate tips and an adjustable length. Designed for an excellent match with the Rockaway spinning reel.

FEATURES

- Toray carbon
- Hybrid tip
- Powerful and balanced blanks
- Extremely sensitive
- Supplied with 2 detachable hybrid tips
- Saltwater approved
- Adjustable action for 320cm and 370cm rods
- Adjustable length for 270-320cm rods
- Fighter butt cap

AVENGER PRO BOLENTINO

Designed for saltwater bottom fishing from the boat, the Avenger Pro Bolentino relies on a powerful and balanced high-modulus carbon blank and the sensitivity of the hybrid tip. All rods in the series come with a two different hybrid tips – you can adjust the action when needed by changing the tip. And when fighting the fish, the fighting butt cap allows you to brace the butt against your body for increased leverage. The Avenger Pro Bolentino series includes two 2-part rods and a telescopic version with an interchangeable hybrid tip. All finished with adrenaline-fueled cosmetics.

FEATURES

- High module carbon
- Powerful and balanced blanks
- Supplied with 2 detachable Hybrid tips
- Fighter butt cap
- Telescopic version in 310cm rod

SABIKI PRO

Uncompromised commitment leads to exceptional functionality. Designed for targeting saltwater species like mackerel and horse mackerel with a sabiki rig, the Sabiki Pro features an anti-tangle concept for hassle-free use and storage. Revolutionizing the way sabiki rods are made in Europe, the Sabiki Pro's blank construction allows for threading the line and the rig within the rod – minimizing the time spent untangling the multi-hook rigs. Pair the Sabiki Pro with any spinning reel up to size 6000.

FEATURES

- Revolutionary concept
- Inner line and rig
- Anti tangle system
- Sinker suggested : pear shape
- Rig accepted: max 150cm
- Max hook accepted: 1cm wide

FEEDER

8K Feeder GEN 2

Introducing the second generation of our highly acclaimed 8K Feeder rod series, where we've taken the best features of the previous generation and elevated them with unique upgrades. Crafted with precision, each rod in the 8K Feeder 2nd generation series boasts a high module carbon construction, ensuring exceptional strength and durability without compromising on responsiveness. The thin blanks enhance overall performance, allowing for enhanced sensitivity. We are proud to present the innovative 'Sniper' tip design incorporated into every rod in the range. These detachable tips offer unrivaled sensitivity for bite detection, allowing you to increase your catch rate. Prepare to elevate your feeder fishing to new heights.

FEATURES

- High module carbon
- Thin blanks
- Fast response
- Supplied with 3 Innovative detachable 'Sniper' tips
- Sea-guide high quality components

FEEDER

Custom Black Feeder V2

The next chapter of the Custom Black Feeder success story is here. Dedicated to delivering uncompromised and versatile performance for match and feeder anglers, the new Custom Black Feeder builds on the best-proven features of the series – and adds in a brand-new rod tip design. The series' thin high-modulus blanks pack enough power for long and accurate casts, but also deliver the fast and responsive action needed to land in species like carp, bream, and barbel. Finished with top-of-the-line cosmetics for that Custom Black Feeder look.

FEATURES

- High module carbon
- Thin blanks
- Fast response
- Supplied with 3 Innovative "Fishery" tips
- Unique ergonomic shaped handle for comfort
- High quality components
- Anatomic rear grip

FEEDER

Ceymar V2

The Ceymar Feeder is back – with upgrades. A versatile line-up with a competitive price point, the Ceymar Feeder V2 series features a range of size options for feeder and match fishing. The rod's slim and balanced blank is made from high-modulus carbon for fast and responsive action. The high-quality line guides deliver smooth and reliable casting while the handle's EVA grip is designed for ergonomic use. The three-section Ceymar Feeder features a detachable Fishery Tip for enhanced bite detection and response in casting. And when you need to mix things up, you can change the tip to adjust your setup.

FEATURES

- High module carbon
- Thin blanks
- Fast response
- Fishery tips
- EVA grip
- New concept guides

SNIPER FEEDER TIPS

The Sniper Tip features a high-visibility tip made from combined solid & hollow carbon that delivers exactly what the name implies: precision. With a 20 % faster response in casting and 10 % more sensitive bite detection when compared to classic tips, the Sniper Tip is the secret weapon to turn the tide. The detachable tip is compatible with all the new and old Okuma feeder rods. Choose from 10 different tip powers and increase your catch rate with sniper-like precision.

STURGEON

LA BESTIA

Unbreakable power. Designed for sturgeon fishing, La Bestia is a light but powerful rod built with unyielding components. The 4-piece telescopic rod's blank is made from high-modulus carbon – and reinforced with an additional carbon wrap for increased strength and sensitivity. The rod's hybrid tip features Okuma's Ultimate Flex Reinforcement (UFR®) technology for enhanced lifting power. The heavy-duty sliding guides and high-quality Fuji reel seat add to La Bestia's impressive power. Finished with unique cosmetics. Pair La Bestia with the Obsidian for a true beast of a setup.

FEATURES

- High Module Carbon Blank
- Carbon Wrap Reinforced
- UFR Tip
- Heavy Duty Guides
- Fuji DPSM reel seat

POWER FLOAT

The Power Float series brings modern performance to classic float fishing. Purpose-built for float fishing, the Power Float's thin but powerful blank delivers the backbone needed for landing big fish – while maintaining a light, balanced feel for long sessions. Featuring a traditional cork grip updated with an EVA foregrip, the Power Float pays respect to the traditions of float fishing while offering a sense of modern comfort. The cork rear grip features a flattened edge to ergonomically support the forearm for those long days by the water. Available in multiple lengths, the series offers a precise and reliable choice for float anglers looking for performance in a sensible price category.

FEATURES

- Strong and responsive blank
- Lightweight feel with great balance
- Modern design that honors the classic style of the category
- Cork grip paired with EVA fore grip
- Available in 3 lengths and casting weights

SENSI FLOAT

Sensi Float rods are designed for anglers demanding finesse, balance, and lightness in float fishing. Built with ultra-sensitive, thin blanks and a strong backbone, they deliver precise bite detection and fish control. Featuring classic cork grips with durable EVA foregrips, they balance tradition with modern ergonomics. The cork rear grip features a flattened edge to ergonomically support the forearm for those long days by the water. Available in multiple lengths, these rods offer fatigue-free handling and pro-level performance—proving great float fishing gear doesn't have to break the bank.

FEATURES

13 FISHING

make your own luck

Fishing is a universal sport, connecting fisherman around the world. It's a universal language. Once a way to feed villages, now a way we unite with our fellow anglers. When it comes to fishing as a sport, we don't look at it as another pastime. Fishing is our passion; it is part of our culture passed down from generation to generation. It connects our families with tall tales, it brings us around the dining room table. You finally have the freedom and time to explore fishing as the incredible sport it is. Venture out with more than just the coolest hooks, gear, bait and technology. Pack some class in your tackle box,
and elevate the status of the world's most impressive outdoor sport. It's time to reshape your ideas
about fishing.

Participation is a privilege, not a right... represent our sport with honor, on and off the water. Exhibit noble character and conduct yourself as a positive role model.

t's time we re-establish the sport as one where anglers can fully appreciate it. Let's embrace socialization and cooperation between fisherman of all skills levels. It's time to take fishing up a notch... For those who appreciate this sport, offers great potential for expanding our cultural horizons. Let's take it there. Let's put fishing on the map as one of the world's most enjoyable and rewarding pastimes. Let's finally give fishing the center stage as an outdoor sport through the power of our fishing community.

BAITCAST REELS

THE FUTURE IS HERE.
ITS TIME TO RETHINK EVERYTHING YOU KNOW ABOUT BEARINGS…

CONCEPT ZERO BEARING

Made from our proprietary space-age polymer material, the CZB is here to replace traditional ball bearings. Unparalleled smooth operation with elite-level performance equal to high-priced specialty ball bearings. Typical ball bearings have extreme performance loss over time due to debris, environmental wear, and corrosion… the CZB does not. It is 100% corrosion-proof and will maintain high-level performance day after day.

CZB COMP

The "Next Level" CZB competition bearing takes bearing design to the max. The CZB Comp is precision machined to reduce contact area with the spool shaft. This process creates higher spool spin capabilities by lowering the frictional torque, resulting in measurable performance gains. Install these spool bearings for pro-level performance and extreme longevity.

All CZB and CZB Comp bearings are American designed, American Engineered, and proudly manufactured in the U.S.A.

BAITCAST REEL TECHNOLOGIES

GEARING

Hard as a Mother brass Hamai precision cut gear. BOSS design increases surface area for drag and significantly reduces overall weight of drive gear.

Hard as a Mother gearing is a hardened treated oversized brass gear.

Hard Clad Aluminum Drive Gear with massive increase of corrosion protection. Precision Japanese Hamai cut CNC gear is both smooth and astoundingly lightweight.

Aluminum CNC Cut Drive Gear. Meticulously crafted for seamless performance, this gear ensures optimal power transmission, durability, and smooth operation.

DRAG

Massive, oversized carbon drag discs create raw stopping power. Stop fish dead in their tracks with the ultimate big fish drag system.

Oversized American Carbon Discs stop fish in their tracks. Smooth performance, fish stopping max drag.

Space-age Advanced Polymer Drag material designed for extreme durability and smooth drag performance.

A smooth payout is delivered by the Multi-Material Drag System, which seamlessly combines various materials for optimal performance. It responds effortlessly to every pull and provides ample stopping power.

Venti Carbon Drag System - a powerhouse of seamless control and stopping power. Engineered for precision, it effortlessly halts formidable opponents with a blend of robust force and smoothness.

BALL BEARINGS

With the durability of a Stainless Steel chassis, and the low inertia start of the ceramic balls, these bearings reach maximum spin 30% faster than standard steel bearings.

Saltwater grade, corrosion resistant Stainless Steel ball bearings fitted with black silicone shields to help keep debris, salt, and sand out of the bearing.

CZB Competition bearings are designed to remove 20% of the contact area between the bearing and the spool shaft significantly reducing frictional torque.

Stainless Steel bearings with secondary chemical or plating treatment to increase resistance to environmental corrosion.

Japanese Precision bearings create a smooth effortless motion for the best feel possible. Used in important locations of a reel, they enhance performance.

High-Performance and corrosion resistant Stainless Steel ball bearings.

The Concept Zero bearings utilize our proprietary space-age polymer material to replace all ball bearings resulting in a low maintenance, no corrosion, and no noise bearing.

FRAME MATERIAL

Impressively light and strong our Featherweight Magnesium offers performance enhancing results. Its rigidity eliminates flex and captures the gearing and spool shafts to improve spin and strength.

Lightweight and extremely rigid, our 13 Fishing HD Aluminum frames stabilize our gearing for less wear, smoother feel, and increased durability.

Our high-strength carbon married with intelligent engineering to create an exceptionally rigid material performs like an aluminum frame with the added attribute of being 100% corrosion proof.

Engineered for high strength and low torque, we develop all our composite materials to maximize rigidity.

CAST CONTROL

The SLIDE Braking System delivers anglers instant adjustability literally under your thumb. The SLIDE rapid magnetic spool system can be used in conjunction with the centrifugal braking, or separately.

Each number indicates how many brake weights are engaged on your cast. The lower the number the faster your spool will spin.

Easy 0-6 Adjustment releases the number of brake weights selected. 2nd Generation Low Friction brake shoes create quiet and more relevant braking force for all lure weights and skill levels.

Featuring a convenient outside adjustment dial on the palm cover. Achieve precision control and perfect cast by dialling in the spool tension.

EXTRA TECH

With an unique shape, the Arrowhead line guide reduces friction as the line drops on the spool allowing the line to feed out faster.

Integrated into the drive gear, the Alert Drag emits a pleasant audible clicking, letting you know when the pressure is on.

The Beetle Wing rapid access side plate uses a hidden spring-loaded system allowing you to open and slide out the spool and adjust the braking system.

Reinforced Cam System, boast a unique stabilization bar passing through a cam slot. Ensuring fail-proof engagement and disengagement, this design sets the standard for dependable fishing reels.

Two process hard anodized worm gear with treated line guide pin.

The KeepR hook holder allows lures to be hooked to the center of the reel frame without scratching up your reels. When worn, snap it out and replace it.

Our 13 Fishing proprietary Electrophoretic deposition (EDP) coating process. A two-part process that is 40% more durable than standard EDP coating. It will protect your reel in the harshest saltwater environment.

The Power Handles are longer, providing more torque for fighting big fish. The ergonomic knobs ensures a comfortable grip and comes in either double or single.

BAITCASTING

CONCEPT A3

Everything you want in a big low-profile reel. Drag and Power is the focus of the new A3 design, H.A.M. Hardened brass gearing cut with Japanese Hamai precision is the engine that drives the machine. The 40 lb. / 18 kg Carbon Bull Drag has the stopping power to land your trophy. The 13 Fishing Concept A3 Gen II Casting Reel with HD Aluminum Construction and Ocean Armor 2 Saltwater Protection is the perfect choice for targeting monster pretadors in fresh and saltwaters.

FEATURES

- HD Aluminum Frame with Ocean Armor 2 Protection Process
- H.A.M. Japanese Hamai Cut Hardened Brass Drive Gear
- 40 lb / 18 kg Carbon Bull Drag System
- 7 BB (2 High Spin Corrosion Resistant BB, 4 Stainless BB, 1 Dead Stop Anti-reverse)
- Arrowhead Line Guide
- Reinforced Clutch Cam
- Alert Drag
- KeepR Integrated Hook Keeper
- Generation II Hard Anodized Worm Shaft
- Low-Friction 6-Way Braking System
- Beetle Wing Rapid Access Side Plate

MODUS TX2

Designed and built for saltwater fishing, the Modus TX2 has earned its "TX" designation with 100 % corrosion-proof chassis construction, all saltwater-grade bearings, and an inshore fish-stopping 8 kg max drag. With more line capacity than its freshwater counterpart, the Modus TX2 is outfitted with Japanese Hamai Cut gearing, our dead stop anti-reverse system, and our classic cork handle knobs. This sleek feature-rich assassin continues the TX legacy of raising the bar for saltwater quality in low-profile baitcasting gear.

FEATURES

- Anti-Corrosion Saltwater Bearings (6 Anti-Corrosion BB + 1 Anti-Reverse Bearing)
- Zero Corrosion Frame
- Japanese Hamai Cut Aluminum Drive Gear
- Arrowhead Line Guide
- 6-Way Centrifugal braking
- 8 kg Multi-Material Drag System
- KeepR Integrated Hook Keeper
- Dead Stop Anti-Reverse
- Cork Handle Knobs
- Ported Aluminum Spool
- Recommended Casting Weight: 7-80 g
- Maximum Drag: 8 kg

BAITCASTING

MODUS RP2

The whole dill with this fresh-green reel is its feature-rich platform for anglers who look for performance without breaking the bank. The seriously smooth 7-bearing system will turn as many heads as the eye-melting cosmetics. The all-new 13 Fishing Radioactive Pickle Modus is loaded with proprietary features like the Arrowhead line guide, Beetle Wing Side Plate, and centrifugal brake control.

FEATURES

- High-Spin Spool Bearings
- Japanese Hamai Cut Aluminum Drive Gear
- Arrowhead Line Guide
- 6-Way Centrifugal Braking
- 6 kg Multi-Material Drag System
- KeepR Integrated Hook Keeper
- Ported Aluminum Finesse Spool
- Dead Stop Anti-Reverse
- 7 Total Bearings (6 SS BB + 1 Anti-Reverse Bearing)
- Recommended Casting Weight: 7-80 g
- Maximum Drag: 6 kg

13 FISHING

RODS

CASTING

OMEN BLACK

Long respected as the O.G. of the 13 Fishing lineup, our Omen Black series continues to lead our domination of the new school. With lengths, actions and powers that cover techniques both current and emerging, every stick in this tournament-proven series features Japanese 36 ton Toray blanks with Poly Vector Graphite technology. Translation: Lighter and more sensitive without sacrificing durability. Add full cork 4A Portuguese handles, diamond coated ALPS 316 Stainless Steel Guides with Zirconia Inserts, Evolve custom ported reel seat and you'll find no better balance or value in its class.

FEATURES

- Japanese PVG36T Blank Construction
- Taper Designed with Zonal Action Technology (ZAT1)
- High Density 4A Portuguese Cork Split Grip Handle
- Evolve Snag-less Hook Keeper
- Evolve Custom Ported Reel Seat
- Fuji K-Frame Stainless SteelGuides with Alconite Inserts
- Evolve Fox Hole

CASTING

FATE BLACK

If you don't know the Fate Black series by now, it's time to get acquainted. This widely recognized series is back to make another bold statement. The continuing legacy of sensitivity and reactive spline on the PVG30T blank gives this rod an unmatched feeling. Through the Evolve Soft Touch ported reel seat and custom-wrapped stainless steel Alconite guides, this rod relays the most subtle of fish intentions by harnessing the energy and transferring it straight to your palm. The lighter setup of the new edition improves the overall feel while maintaining the custom-tuned tapers the series is known for.

FEATURES

- PVG30T Graphite Blank
- Evolve Custom Ported Soft Touch Rell Seat
- Evolve Tangle Free Stainless Steel Guides with Zirconia Inserts
- High Density EVA Split Grip Handle
- Evolve Snag-less Hook Keeper

GEAR

SKULL CAP

Protect your favorite reels from dings, dirt and grime without having to remove them from the rod. Skull Cap Reel Guard is designed to snap into place around the rod. Fits both right- and left-handed reels.
Constructed of high-impact durable rubber, the Skull Cap Reel Guard will keep your reels protected and reliable for years.

FEATURES
- Durable rubber construction
- Snaps into place around rod
- Fits right- and left-handed reels
- Fits combo while rigged

WITH SUFIX®, THERE'S NOTHING YOU CAN'T CATCH.

12+1
12 carrier UHMPE braided line wrapped around a single-strand GORE® Performance Fiber for optimal roundness and reduced internal abrasion.

R8 BRAIDING
Tightly weaved consistency of 8 fibers (carriers) provides lines with superior strength, roundness, and line consistency.

GORE® PERFORMANCE FIBERS
Gore® Performance Fibers improve abrasion resistance, increase durability, casting length/accuracy and knot resistance. This makes the braid become a sinking line.

WA BRAID
Wide Angle Braiding Technology that creates higher tension on the braiding process, resulting in a tight weave and super strong, silky smooth line.

PE WAX SHIELD
Proprietary wax coating for braided lines offers incredible toughness and abrasion resistance.

ADVANCED TEMPERING PROCESS
Custom tempering process for high viscosity nylon creates long molecular chains that give the line toughness and resilience, resulting in a very low stretch line without losing its strength and low memory properties.

HIGH TENACITY POLYESTER
Increases breaking strength and abrasion resistance while adding density for faster sinking speeds.

PRECISION WINDING / G2 PRECISION WINDING
Eliminates line memory and prevents line-weakening cutting and nicking that can occur during the spooling process.

DIGITAL Y6 BRAIDING
Braiding system with higher pic count that makes Sufix braids rounder and thinner.

UHMPE FIBER
Ultra High Modulus Polyethylene fiber. Extremely strong fiber used in premium braided lines.

SUPER BOND POLYMER TECHNOLOGY
10X SUPER TOUGH/15X SUPER TOUGH
Proprietary polymer technology that creates line abrasion resistance from 10X to 15X better than most nylon monofilaments in the same diameter.

J7 MICRO RESIN
Exclusive polymer resin that provides superior strength and toughness with easy casting.

PVDF FLUOROCARBON
Polyvinylidene fluoride with high specific gravity for fast sinking. Near zero reflection under the water makes the line nearly invisible to the fish.

CORONA FUSION COLORING TECHNOLOGY
Coloring technology that assures optimal color retention on the UHMPE fiber. Also maximizes the color intensity and brightness.

G-CORE X9 BRAID
SUFIX
SILKY SMOOTH, SUPERIOR SINKING RATIO & ROUNDNESS

BRAIDS

BRAIDED LINE

131 G-CORE

Sufix 131 G-Core is the most reliable superline during casting, strikes and fighting action! It is built with 13 fibers (12 HMPE fibers + 1 GORE® Performance Fiber in core). A single strand of GORE® Performance Fiber is surrounded by 12 precision braided HMPE fibers. The construction has no weak points which leads to strength consistency.The GORE® Performance Fiber is the most abrasion resistant textile fiber. It is solid and round like a monofilament but has the same low stretch as the PE fibers. No more problems with gliding or knots opening! In addition, the 13-carrier construction increases the number of fibers at the knot resulting in better knot tying and stronger holding power. The structure of the Sufix 131 G-Core is much rounder than any other competitor's 12 or 16 carrier braid. The rounder line reduces the resistance in water (while retrieving) and the abrasion caused by rod guides and obstacles in the water. The core fiber (GORE® Performance Fiber) prevents the line from internal fraying making the line more durable.A rounder line casts farer, more silent and more accurate. The cancelled center hole does not allow water to enter – no water means lighter line and longer casting distances.The Sufix 131 G-Core is braided line that is great for casting and jigging, when you need a relatively thin line.

FEATURES

- Built with 13 fibers (12 HMPE fibers + 1 GORE® Performance Fiber in core)
- The most reliable superline
- Improved knot resistance
- Unmatched strength consistency and roundness

NEON CHARTREUSE

BRAIDED LINE

91 G-CORE

The Sufix 91 G-Core continues Sufix's range of braid lines with ultra-reliable performance when casting and fighting the fish. With an abrasion-resistant GORE® Performance Fiber in the core and 8 precision-braided UHMPE fibers surrounding it, the 91 G-Core's 9-carrier construction results in low stretch, better knot tying, and stronger holding power. The silky smooth 91 G-Core's super-slick coating allows for long casting distance and superior sinking ratio.

FEATURES

- Built with 9 Fibers (8 UHMPE Fibers + 1 GORE® Performance Fiber in Core)
- Superior Sinking Ratio & Roundness
- Super-Slick Coating
- Low-Stretch

LO VIS GREEN

NEON CHARTREUSE

BRAIDED LINE

832 ADVANCED SUPERLINE®

Sufix 832 Advanced Superline® is the strongest, most durable small diameter braid. It is built with 8 fibers (7 HMPE plus 1 GORE® Performance Fiber) and 32 weaves (pics) per inch. Due to its high-pitch count, it is also hydrophobic (water-repellent).The R8 Precision Braiding and fiber technology provide superior strength, roundness and line consistency. By adding GORE® Performance Fibers we improve abrasion resistance, increase casting length/accuracy and reduce line vibration. HMPE fibers provide the high strength and sensitivity, hydrophobic water-repellent protection and small diameter. All of this makes Sufix 832 Advanced Superline® 30x more abrasion-resistant than other braids.

FEATURES

- The strongest, most durable small diameter braid
- R8 Precision Braiding and fiber technology provide superior strength, roundness and line consistency
- Constructed of 8 fibers (7 HMPE plus 1 GORE® Performance Fiber) and 32 weaves (pics) per inch.
- Gore® Performance Fibers improve abrasion resistance, increase casting length/accuracy & reduce line vibration
- HMPE fibers provide high strength & sensitivity, hydrophobic water-repellent protection & small diameter.

COASTAL CAMO

BRAIDED LINE

X8 BRAID

Sufix x8 is a round, easy to handle and silky-smooth Japanese-style braided line. It has an 8-carrier construction of thin HMPE fibers making it a super strong, thin line with high abrasion-resistance and superb knot and shock strength.The R8 Precision Braiding technology with a high-tension weaving process gives this line its distinct supple and smooth qualities that have consistent diameter and quality plus an excellent strength to diameter ratio.The materials and construction mean that the line has low friction when passing through the rod guides. This results in silent performance and long, accurate casts.Sufix x8 is designed for both casting and spinning reels. It is a great option for smaller lures, light soft plastics (jigging), perch, trout, rainbow trout and finesse fishing.

FEATURES

- 8-carrier construction (thin HMPE fibers)
- R8 Precision Braiding technology
- Round and smooth braided line
- Excellent strength to diameter ratio

BRAIDED LINE

EGI X8

Developed for squid fishing, the Egi X8 is made with R8 Precision Braiding technology, resulting in a round line with a remarkable strength-to-diameter ratio. Consisting of 8 Dyneema® fibers for ultimate roundness, the braided Egi X8 offers long and accurate casts and high abrasion resistance.

FEATURES

- Built with 8 Fibers (Dyneema® Fibers)
- High Strength-to-Diameter Ratio
- Smooth & Silky Soft

LINEAR STRENGTH | KNOT STRENGTH | ABRASION RESISTANCE | SOFTNESS | SINKING | ROUNDNESS

NEON CHARTREUSE

BRAIDED LINE

NANOBRAID®

Strong and thin nanofilament braid. Sufix® NanoBraid® is built with a Wide Angle Braiding Technology that creates higher tension on the braiding process, resulting in a tight weave and super strong, silky smooth line.

The densely braided HMPE fibers and a high pitch-count - up to twice as high as on most braided lines - gives consistent quality, uniform diameter and increased abrasion resistance, improving the line's performance.

Sufix® NanoBraid® is up to three times stronger than other lines in the category and also features superior knot and shock strength unmatched by any other ultra thin line. The silky soft line is extremely sensitive and runs quietly through the guides.

BRAIDED LINE

GYRO

The Gyro is a hi-performance blended, braided multipurpose line made with HMPE fibers. It is a sinking line with near zero stretch ratio. It has good breaking resistance and excellent diameter to strength ratio with most commonly used knots. Can be used as mainline for casting, carp fishing, feeder fishing and boat fishing.

FLUOROCARBON

SUPER 21® FC

100% fluorocarbon line is virtually invisible in the water and is ideal for stealthy presentations. Low stretch index improves line control, presentation and bite detection, and optimizes hook setting power. Extremely abrasion resistant and durable for fishing rough structure and for tough-mouthed fish, yet supple enough for subtle presentations. Fluorocarbon line sinks four times faster than traditional nylon lines allowing the presentation to sink to the strike zone faster. 100% fluorocarbon line that casts like a regular monofilament and offers exceptional handling on spinning & casting reels.

FEATURES

- Invisible
- Low Stretch
- Super Strong
- Fast sinking
- Easy Handling

MONOFILAMENTS

MONOFILAMENT LINE

ADVANCE

The most abrasion resistant, supple and sensitive monofilament. HMPE molecules blended in with the polyamides are drawn to the line's surface in the Sufix's proprietary Magnetic Extrusion Process, creating a durable layer that provides superior, long-lasting protection against abrasion. Unlike other abrasion resistant lines, Sufix Advance is very supple and sensitive, allowing subtle and precision presentations. With only half the stretch of a standard monofilament line, Sufix Advance offers exceptional lure control, ultimate bite detection and firm hook setting power. Thanks to the line's inherent qualities and the Sufix G2 Precision Winding, Sufix Advance is virtually memory free, extremely easy handling and long casting. G2 Precision Winding in all spool sizes.

HI-VIS YELLOW

MONOFILAMENT LINE

HX-MYTH

HX-Myth, revolutionizes the fishing experience as a super low stretch monofilament, redefining sensitivity and performance in angling. Unparalleled sensitivity without compromise. Its exceptional characteristics stem from the utilization of the highest viscosity polyamide, enabling a pre-stretch during production, preserving outstanding tensile strength.
The result is a monofilament with significantly lower elasticity, superior softness, and minimal memory. It provides anglers with a highly sensitive fishing line, allowing the detection of even the subtlest bites. This blend of sensitivity and performance marks HX-Myth as a go-to choice for anglers seeking precision feel and handling.

MONOFILAMENT LINE

XL STRONG

An exceptionally soft, smooth and supple fishing line with great tensile and knot strength. XL Strong is a very versatile monofilament fishing line that is perfect for a wide variety of fresh and salt water fishing applications. This smooth line is exceptional for casting by offering a low memory, reduced twisting, less kinks and fewer backlashes than stiffer monofilaments. Made with a super copolymer nylon formula, XL Strong offers increased toughness and excellent abrasion resistance. This low stretch nylon provides quick and controlled hook sets with high shock strength that helps you land more fish.

PROFESSIONAL FISHING LINE

Professional:
• Perfect for trolling.
• 5 x 100 m recommended for professional anglers
• 1kg spool to cover all saltwater fishing technique with different diameters.
• Good abrasion resistance

Hand-Caster:
• Monofilament 100% copolymer. Exceptional traction and knot resistance, and high abrasion resistance.
• With reduced elasticity, it provides an excellent response to the bite, but still retains "dampening" qualities during crucial fighting moments when the fish is approaching the rod.

SUPERIOR LEADER

Superior Leader is a state-of-the-art 100% copolymer monofilament. It offers outstanding linear strength, knot strength and high abrasion resistance. A subtle amount of stretch allows for excellent setting of hooks, but still enough to act as a 'shock absorber' during those crucial moments of the fight when the fish is under the rod tip.

BIG GAME

TOP SHOT PRO®

The Sufix® Top Shot is a braided line designed and built for fishing of bluefin tuna drifting with rods in a spiral guide. This is one highly appreciated technique and the parameters of reference are now standardized. In Sufix we have therefore thought to offer a braided line optimized for the more of reel sizes used in this technique (20/25 / 30lb according to the brands of reels). The Top Shot braid, as well as being created with the best materials available, was made multicolor with color change every ten meters in order to facilitate the fisherman on positioning the rods at the correct depth... just need to count the colors!

AT STORM, WE'RE SERIOUS ABOUT FISHING

Non-fishermen might even see us as obsessive. We believe in getting into the head of a fish to really understand what's going on... like what makes a fish bite. We build our lures based on those findings because we know that you're serious about fishing too. So get out there and do what you need to do to find them & catch them.

BISCAY SANDEEL

Built to imitate a prominent saltwater prey, Biscay Sandeel features a long, slender body and a perfectly matched head with a fixed hook. An additional chin eyelet gives the option of adding an assist hook or blade. This weighted head & body combination allows you to cast further in windy coastal conditions, and fish faster in rough water or when an aggressive presentation is needed. The subtle paddle tail kicks with a life-like action and incredible vibration, even at slow speeds. Both body sizes are available in two options; lighter head for cast and retrieve techniques and a heavier head option designed for vertical jigging even in strong currents. Every Biscay Sandeel is extremely visually detailed with each body perfectly color matched to its own jig head. Rigged with a heavy duty VMC® hook. Head includes eyelet to add optional stinger hook.

CASTING

NEW COLORS

BISCAY MINNOW 9 & 12

Not for the faint of heart, the Biscay Minnow casts long and fishes fast. With its aerodynamic design, this bait was born to face the rough winds and waters of the coast. The Biscay Minnow's subtle paddle tail kicks with a lively action and incredible vibration – even in slow presentations. And when in need of an extra edge, a hook or blade can be attached to the eyelet on the jig head.

FEATURES

- VMC Coastal Black® hook with keel weight.

CASTING

NEW COLORS

BISCAY MINNOW 14 & 16

Scan the coastal depths with the Biscay Minnow Deep. Designed for deep sea jigging, this bait drops deep and swims with vibration and life-like kick. To make sure the predators won't know the difference, the Biscay Minnow Deep comes in 15 color finishes. The jig head comes with an eyelet for an optional stinger hook.

FEATURES

- VMC Coastal Black® hook with keel weight.

CASTING

NEW COLORS

BISCAY SHAD 9 & 12

Life-like from the moment it hits the water, the Biscay Shad is a showcase of imitation. With its articulated body and head, the bait swims with a realistic action – all the while keeping the VMC hook neatly hidden in the bait's weedless system. When attacked, the Biscay Shad's body collapses, exposing the large hook gap for a clean hook up. The bait's weighted head-and-body combination allows for long casts and aggressive presentations, making the Biscay Shad the perfect for windy coasts and rough waters.

Born on the rugged south coast of Africa, Williamson has been manufacturing lures for those who thrive on the challenge of finding and conquering the world's largest fish. Hard-won knowledge and a sincere passion for offshore angling assure that there's a Williamson lure to fill every spot in any saltwater spread.

SUPER SHARP PREMIUM HOOKS
All lures are armed with VMC® heavy-duty, super sharp, saltwater hooks

LOOP PROTECTION
Flared crimping sleeve & rubber loop protector eliminate chafing at the critical connection.

MONO LEADERS
Our lures that are pre-rigged with mono leaders use only premium Sufix® leader line.

HOOK LOCKING SYSTEM
Patented Hook Locking System keeps hook in proper alignment for consistent hook ups.

TROLLING LURES

BIG GAME CATCHER RIGGED

This heavy-duty 8" trolling bait features a concave pusher head face that works in an erratic swimming action to elicit savage strikes. Whether you rig it with ballyhoo, strip bait or "naked", this is an all-around lure good for billfish and large gamefish species anywhere in the world.

FEATURES

- Head features holographic 3D eye with embedded holographic foil
- Durable synthetic and holographic foil skirt
- Pre-rigged: 6ft/175lb (1.8m/79kg) Premium Sufix® Leader
- VMC® 9/0 hook
- Troll up to 7 knots

TROLLING LURES

EXCITER BIRD

Splashing and fluttering on the surface will add activity to your spread. Exciter Bird can be fished in a number of ways.

FEATURES

- Use as a lead on a daisy chain teaser.
- Connect the Exciter Bird in front of your favorite lure as an added attractor or to keep the high rigger lures tracking straight in windy conditions.
- Make an Exciter Bird daisy chain.

TROLLING LURES

SOFT DORADO CATCHER

This flat-faced pusher style lure features a large cavity in the rear of the head specially designed to take a ballyhoo rigging spring. This allows you to get the bait in close to the head and skirt of the lure, giving the bait better protection at desired higher trolling speeds. A great dolphin and sailfish lure

SPEED PRO DEEP

Constructed for pelagic gamefish. The patent pending "Auto-Tune" free-moving line tie design is self-centering, automatically aligning the lure for consistent action at very high trolling speeds, up to 15 knots, with optimum action at 6-10 knots. At 15 knots the minnow's smooth swimming action allows the lure to be fished on lighter line, even with a light drag setting.

FEATURES

- Heavy-Duty Oval Split Rings
- VMC® Heavy-Duty Perma Steel® Hooks
- Laser Cut Plate Hook Hangers

CASTING JIGS

GOMAME

The “S” shape in the body delivers a pronounced wounded baitfish action. Premium foiled finishes add flash and attraction to the amazing action. Good for a variety of pelagic fish: tuna, trevally, sea bass, spanish mackerel and kings.

FEATURES

- Durable, premium foil finish
- Extra strong VMC® Perma Steel® treble hook

CASTING JIGS

THUNDER JIG BLADED

The Thunder Jig Bladed has an asymmetric design that produces a static slash action with medium to fast retrieves. This is a great all-round jig that will work in all conditions. The Bladed hook adds lots of flash on a steady retrieve and will get strikes when fishing pressure is high. The additional traction will slow down the jig when used in shallow water. In-line single hook will decrease the risk of getting snagged in obstacles.

FEATURES

- Asymmetric design
- Inline VMC® hook
- Swivel blade
- Multi-species

SLOW PITCH JIGS

TRICK METAL

Trick Metal is a highly versatile jigging lure that features a wide tail kicking action. The asymmetric body design gives it a tricky action on the fall which triggers those hungry predators to bite!
Trick Metal is rear weighted for long casts and a fast descent. Rigged with VMC® dressed assist hook & rear treble hook.

FEATURES

- Full Metal Body
- Sinking
- Multi-Species
- VMC® Dressed Assist Hook and Rear Treble Hook

SLOW PITCH JIGS

KENSAKI

The Kensaki cuts water with its knife-tip design, allowing it to get deep quickly
• The inline eyelets stabilize the jig during descent, and enhance the fluttering action under slack line
• Use a 'lift & fall' slow-pitch technique to get the Kensaki jig darting aggressively upwards during the lift, followed by a very tight horizontal flutter on the fall
• Equipped with two VMC assist hooks

FEATURES

- Asymmetrical Knife-Tip Design
- Multi-species
- Flutter on the fall
- Equipped with super- sharp VMC® Assist Hooks

SQUID LURES

NEW SIZE

KILLER TIP RUN

Tip Runs are the latest edition to the Killer Squid series. They are heavier weight lures, specifically designed for vertical fishing from a boat or long casting distances. They have sound inside the lure to attract predators. Ideal for fishing for all types of cephalopods.
Killer squid lure have two shapes: Fish and Prawn for greater attraction of all cephalopods: Squid, Baby Squid, Cuttlefish, Octopus, etc.
Two types of fabric that covers the body: ""Natural"" fabric that allows a perfect imitation of real species and ""Scale"" fabric with greater porosity and attractive flashes.
Japan Carbon Crown – greater hooking power, prevents tearing and great resistance to corrosion. "

FEATURES

- Japan Carbon Crown
- Bright eyes
- Realistic livery, attracts Cephalopods
- Balanced counterweight
- High penetration crown

RODS

TROLLING

SODWANA

The Sodwana is developed to give the angler an excellent and well-built rod still at a very affordable price. The blank is soft but still very responsive under load. The Slick butt will prevent damage in the rod holder and make the rod stiffer in the lower part. A roller tip is used where the line has the most angle and stress, releasing pressure during an extended fight. Named after a famous spot in South Africa, Sodwana can travel the world over and help you land your dream fish.

FEATURES

- Super stiff blank action
- Incredible backbone
- Roller tip and heavy-duty guides
- Performance Slick Butt
- Aluminum reel seat
- Aluminum gimball

TROLLING

PELAMIS

The Pelamis range has been designed for the avid angler on a budget, has all the back-bone and blank action to land your fish quickly. The action is well balanced between enough softness to forgive an error but enough power to turn the head of the fish. Fully equipped with guides that require minimum maintenance and an aluminum reel seat and gimbal for strength. The lower line class are a bit longer to allow use of lighter lures whereas 50lbs and up are much more powerful and shorter to finish the fight quickly. From mackerel to bluefin tuna, you will find all the line classes to cover every situation.

FEATURES

- Super stiff blank action
- Incredible backbone
- Heavy duty guides
- Aluminum reel seat
- Aluminum gimball

SOLID CARBON AR

One rod to cover many offshore styles, the Williamson Solid Carbon AR series combines unbreakable strength with balance and sensitivity. The rod's durable, solid-carbon blank is paired with high-quality Fuji O-guides and a Fuji reel seat for maximum performance. Pair the Solid Carbon AR with a heavy-duty spinning reel, and you're ready for a wide range of techniques from coastal pursuits to deepwater battles.

FEATURES

- Innovative blank action for next-level performance
- Outfitted with Fuji O guides and Fuji reel seat
- Well-balanced for smooth handling
- Exceptional value for money

CASTING

NEW

VIBRAX® GILDED

The legendary Vibrax® has laid a foundation for a vast collection of spinners from Blue Fox for today's angling styles. The patented two-part body, which virtually eliminates line twist is really what sets all Blue Fox spinners apart. Whether casting for still water predators such as perch and chub, or working fast moving rivers for trout and salmon, this low-frequency spinner is going to create the noise and vibration required to trigger a strike.

FEATURES

- 45° Mid-depth blade runs 0.6 – 1.2 meters
- Patented 2-part, machined brass main body
- Rattling, free-turning brass gear
- Stainless steel shaft
- Available in raw brass, silver or copper plated, painted & printed finishes
- Fitted with VMC® hook

CASTING

VIBRAX® SHAD

The legendary Vibrax® has laid a foundation for a vast collection of spinners from Blue Fox for today's angling styles. The patented two-part body, which virtually eliminates line twist is really what sets all Blue Fox spinners apart. Whether casting for still water predators such as perch and chub, or working fast moving rivers for trout and salmon, this low-frequency spinner is going to create the noise and vibration required to trigger a strike.

FEATURES

- 45° Mid-depth blade runs 0.6 – 1.2 meters
- Patented 2-part, machined brass main body
- Rattling, free-turning brass gear
- Stainless steel shaft
- Available in raw brass, silver or copper plated, painted & printed finishes
- Fitted with VMC® hook

P - Perch; **SSD** - Silver Shad; **TR** - Brown Trout

CASTING

MINNOW SUPER VIBRAX®

This long-casting spinner has been designed with a natural baitfish profile in place of a traditional spinner body. When retrieved, the blade spins and flashes in front of the vibrating lure body to catch the attention of any nearby predator fish. The elongated aerodynamic design cuts through air and water with ease, ensuring each cast reaches its maximum potential distance.

FEATURES

- Vibrating body imitates a lively baitfish
- Blade spins and flashes, even on descent
- Long-casting design
- Fitted with VMC® hook

CASTING

VIBRAX® CHASER

Create the illusion of a small baitfish being chased down by a slightly larger baitfish with the Vibrax® Chaser. The soft trailer "chases" the main body and blade imitating a hungry, distracted baitfish, creating intense flash and commotion to nearby predators. The patented two-part body, which virtually eliminates line twist is really what sets all Blue Fox spinners apart. Whether casting for still water predators such as perch and chub, or working fast moving rivers for trout and salmon, this low-frequency spinner is going to create the noise and vibration required to trigger a strike.

FEATURES

- 45° Mid-depth blade runs 0.6 – 1.2 meters
- Patented 2-part, machined brass main body
- Rattling, free-turning brass gear
- Stainless steel shaft
- Soft-touch baitfish trailer
- Available in a variety of color combinations
- Fitted with VMC® hooks

Puukko, the Nordic knife, has traditionally been the most important survival tool in the harsh Arctic environment. It was the one go-to tool everyone carried and it was used for making firewood and kindling, for hunting and fishing, for cleaning the catch – be it fish or game – for cooking and eating, and at the most extreme situations, the knife could be used to defend oneself from the dangers nature had.

No one left home without a knife and everybody learned how to efficiently use one already at young age. There were – and still are – different knives for different users, all matched to the needs and capabilities of the user. And for festive occasions there were decorated knives that could be used as functional accessories for the clothing.

The Marttiini story began in 1928 at the land of dark Arctic winters and the summer midnight sun, when blacksmith Janne Marttiini decided to establish a knife factory to Rovaniemi in Finnish Lapland.

With the user in mind, he began to create beautiful, high quality knives to be used in the harshest conditions imaginable – knives for people that used them every day and whose life could even depend on the knife.

But don't let the knife's beauty fool you. The moment you put one to a test, you'll be convinced it is the perfect tool for your need. You feel the sensation of natural materials like leather, curly birch, reindeer antler, and of course the ultra sharp blade always made from finest steel.

Today Marttiini knives are a combination of generations of craftsmanship heritage and modern technology that create knives that are not only sharp, but also perfectly represent the beauty and toughness of the North. They're called "puukko" – the Nordic knife.

Marttiini

LYNX LUMBERJACK CARBON

A proper general-purpose knife. The blade is made of carbon steel that is perfect for carving and is easy to re-sharpen to its original sharpness. Remember to take proper care of your carbon steel knife: always dry the blade carefully after each use and oil the blade with unsalted oil on a regular basis. This will ensure your knife will serve you loyally from one year to the next.The handle of this knife is made from stained birch. Its surface is slightly textured, so you easily get a firm, safe grip.Stainless steel version also available, check out Lumberjack Stainless.

FEATURES

- Blade length: 10 cm
- Overall length: 22 cm
- Blade: Carbon steel
- Handle: Birch
- Sheath: Leather

MEF8 FOLDING KNIFE

The blade on the Marttiini MEF flips open with one smooth swing.
The blade can be opened with the flick of one finger and features a ball bearing at the pivot point to assist fast and easy opening.

The stainless steel blade is secured in the open position with a liner lock.

Fiber-enforced G-10 handle with a groove-pattern guarantees secure hold. Low profile pocket clip for easy storage.

FEATURES

- Blade length: 8,5 cm
- Overall length: 20 cm
- Blade: Stainless steel
- Handle: G-10, belt clip

BASIC FILLETING KNIFE 15

The well fitting rubber handle and the flexible stainless steel blade ensure clean-cut fillets. This size of blade is best suited for processing fish of about 1 kg. The filleting knife is an excellent tool for other jobs in the kitchen. The knife is supplied with a practical plastic sheath. We recommend hand wash.

FEATURES

- Blade length: 15 cm
- Overall length: 27 cm
- Blade: Stainless steel
- Handle: Rubber
- Sheath: Plastic

| EDITORIAL |

Passionate anglers with over 100 years of expertise in fish hook manufacturing and marketing, we remain committed to constant innovation — delivering ever-improving, high-quality products while embracing sustainable practices.

At VMC®, manufacturing is more than production — it's a legacy. For over a century, our craft has been passed down through generations of engineers and artisans united by one passion: creating the most reliable, high-performance hooks for anglers worldwide. Our dedication to technical excellence is rooted in our heritage, and we honor it by investing in advanced processes and continuous product improvement.

Customer focus is in our DNA. We actively listen to the fishing community — from professionals to weekend hobbyists — to better understand your needs and deliver products that make a real difference on the water.

Innovation drives our future. We use advanced materials, precision engineering, and state-of-the-art manufacturing, backed by rigorous testing, to build durable, high-performing hooks. Sustainability is central: we replace harmful materials with greener alternatives, reduce water use, and minimize industrial waste.

Our iconic red and white global packaging reflects not only our strong brand identity but also our eco-conscious values. From using eco-friendly materials to sourcing locally, we strive to exceed global standards in responsible packaging.

Our social values matter too. With an average employee tenure of nearly 15 years and multi-generational contributions, we're proud of the loyalty and commitment within our team — a true reflection of VMC®'s industrial heritage.

For the 2025/2026 season, new challenges and opportunities lie ahead. The VMC® team is ready to support you with ever more technical, innovative, and dependable products — for those who seek excellence and a brand that listens and leads.

From all of us at VMC®, wishing you a great season, tight lines, and memorable moments on the water.

The VMC Team

| VMC POINTS |

NEEDLE SHARP™

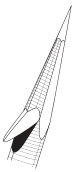
VMC® Needle Sharp™ is the very latest in premium point technology from VMC®, the result of a unique point-grinding process, chemically sharpened to perfection.

SPARK POINT®

Developed exclusively by VMC® for ultimate performance hooks. A premium point hardened by forming, followed by chemical sharpening ensures permanent hook sharpness. Front and back reinforcement ribs guarantee the point's rigidity. Energy channels increase the speed of penetration and optimise the point's driving force upon striking.

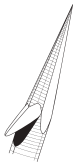
NEEDLE CONE

The result of a sharpening technique that gathers the metal fibers and squeezes them toward the center of the point. By compressing rather than cutting, VMC® has created a point equal or superior in sharpness to the best available and incredibly stronger.



CONE CUT®

The point that combines sharpness, structural stability and quality thanks to a conical tip, a triangular crest and a barb so fine that it assures, without force, a clean and perfect penetration beyond the barb.



CUT POINT

The traditional hook point with excellent penetration capacity. This standard hook point is the most widely manufactured in the world. All VMC® hooks beginning with the number "9" have a standard Cut Point, unless otherwise indicated.

DYNACUT™ POINT

Developed for Big Game Fishing The geometry of the Dynacut point allows the hook to easily penetrate the hardest part of the jaw of Big Game species such as marlin, shark and giant tuna, instantly providing a perfect setting of the hook for a safe and clean fight.

| VMC STEELS |

HI-CARBON STEEL

Carbon stabilizes iron during temperature changes. The higher the level of carbon, the stronger the steel. VMC® uses premium-quality high carbon steel to give a thinner hook the highest quality point and durability.

VANADIUM® STEEL

VMC® Vanadium® hooks owe their success to their lightness allied with their incredible resistance : up to 25 % increased strength. VMC® Vanadium® steel is perfect for any finesse-style hooks that require instant penetration.

STAINLESS STEEL

Reserved for special professional and premium sport hook series, stainless steel is perfect for deep sea fishing, salmon and big fish. Ultimate corrosion resistance requiring no further coating.

| VMC COATINGS |

An optimum level of corrosion resistance exists for each individual fishing application. You can depend on VMC® coatings to preserve the unique sharpness, strength, shape and finish of our hooks for as long as you need them to last. The wide range of VMC® coatings offers an efficient solution adapted to every fishing condition.

- BK - BLACK
- BL - BLUE
- BZ - BRONZE
- NT - PTFE

These coloured hooks receive a thin layer of unique varnish that covers the hook without affecting the sharpness of its point. The varnish creates a shield on Hi-Carbon and Vanadium® steel by covering the entire hook surface.When fishing in freshwater, these VMC® coatings will preserve hook sharpness, strength and appearance to the highest possible level.

Tin and Tin Red coatings are highly recommended for all saltwater fishing applications, particularly those involving intense friction such as trolling or when in direct contact with stainless steel.

- BN - BLACK NICKEL
- GO - GOLD
- NI - NICKEL
- RD - RED

The perfect balance between coating thickness and point sharpness, to ensure optimum hook performance and resistance against corrosion.

Smooth P.T.F.E. coating is now available on a number of VMC® premium models. This technical coating improves hook discretion and increases penetration speed by 50 %.

- CB - COASTAL BLACK
- TI - TIN
- TR - TIN RED
- CT - COASTAL PTFE

The Coastal PTFE coating (CT) is 5 times more corrosion resistant than a PTFE. It increases the penetration speed by 50% compared with a classic black nickel coating.This exclusive technology is the result of 3 years intensive researches at the VMC factory in France. The new Coastal Black finish, unique to VMC®, is the ultimate combination of an innovative coating for extreme corrosion resistance and a premium hook finishing process for maximum sharpness.

- PS - PERMASTEEL®

1000+ HOURS !

The original anti-corrosion coating by excellence, exclusive to VMC®.

The Permasteel® secret formula creates a 100 % protective shield for even the most vulnerable areas of the hook, whilst maintaining ultimate point sharpness.

VMC® Permasteel® prevents signs of corrosion in saltwater for over 1000 hours.

CAVITY JIG

| A jig head equipped with a premium 6/0 hook. Extremely sharp and sturdy point, ideal for 14 to 25cm lures. | The front cavity allows to displace a higher volume of water compared with a regular jig head. This water movement entices big pikes. | Technical Locking Curve shape. | XL Eye to ease the knots even with heavy fluorocarbons and allow a natural swimming action of lures. | Premium Needle Sharp™ point.

SHARPSHOOT'R

NEW

| The next generation of the Mustache series, The perfect choice for Sharp Shooting (Foreward Facing Sonar) in shallow and open water! With the Sharpshoot'R, you can target individual fish with pinpoint accuracy and present lures in a variety of ways. Thanks to its realistic, hydrodynamic design, it deliberately avoids strong forward pressure waves and supports the natural movement of the bait. A real game changer on waters with particularly high fishing pressure! | Slow Sinking Action | Engineered with a durable ABS body and integrated zinc keel, delivering lifelike swimming action with exceptional stability (Lead Free) | 4551Round 1X Strong Hook #3/0

BABY MUSTACHE SHALLOW

| The family is growing... a real magnet for big pike! | The «mini» version of our MUSTACHE is twice as light as the Mustache Shallow without compromising on the amount of bucktail. | Once wet it only weights 22g, so it allows the use of lighter rods. | No need anymore to have an XH rod to swim a Mustache! | This Baby version is perfect for rigging 14 to 18cm lures which makes it extremely versatile.

3521 TURN LOCK SNAP

| Probably the easiest snap to use. A quarter turn is enough to secure your lure! | Sizes 10 to 4 are perfect for predators like perch, zander, and pike. | The larger sizes (4 and 2) are widely used in sea fishing for bass and bluefin tuna when quick and easy lure changes are necessary. | The integrated rolling feature prevents the leader from twisting.

RAGLOU® HYBRID

NEW COLORS

Armed with VMC

This RAGLOU® HYBRID version combines a leaded head and the body of the traditional RAGLOU®. This lure can be used behind a Buldo, like its predecessors, but especially on its own either casting or vertical fishing. It works well around underwater features using a linear retrieve. Built using VMC 9255 TI hooks for the ultimate in sharpness and strength. A wide choice of sizes and colours including the realistic AYU, BM and GM patterns and finished with 3D eyes.

Specification:

Size	6,50 cm	8,50 cm	10,50 cm	12 cm	14 cm

Ragtuna is unique! Trolling lure created to catch little tunas and all pelagics, it can swim at many speeds up to a very fast 8/9 knot. The combo between silicon body and feathers make an irresistible attraction. The cut head make turbulence on topwater that attract fishes even from deep water. The VMC Stainless steel hook will ensure you to catch plenty of fish without any trouble. Ragtuna will be your secret lure!

CIVELIX®

The Civelix® is a perfect imitation of a glass eel, a favorite prey of predatory fish. It's highly effective for casting from the shore or a boat, using a lure, a bombette, or trolling.

ANGUILL'® NORMANDE BRIGHT

For years, the artificial eel remains one of the most popular lures. Its profile is reminiscent of worms or small eels much sought after by bars and places.
- Arc provides the eel with a fascinating wave motion for predators.
- Tube made of soft rubber, strong and elastic.
- The «Brill», iridescent filament increases attractiveness.
- Cut and length bevel studied for a perfect balance

The fish shape and its curve give a very specific swimming action to the RAG JIG. A wide range of weights from 5 to 60 g allows you to deal with all situations. 9 metal-effect colors enhance the appeal of this jig. Its very attractive price allows access to everyone to the practice of jig fishing from the bank or in casting or vertical from the boat. For many species at sea, but also suitable in freshwater on perch, zander, pike (for the smallest size). Armed with VMC® 9625 TI treble hooks : #8 (5 & 7g), #6 (15g), #4 (20g), #2 (30 & 40g) or #1 (60g).

PM

RB

RH

BM - Blue Metal ; **BS** - Blue Sardine ; CM - Copper Metal ; **MB** - Mackerel Blue ; **PM** - pink metal ; **RB** - Rainbow ; **RHM** - Red Head Metal

The Fit Jig has been designed to meet the requirements of Atlantic and Mediterranean fishing. Ideal for precision fishing where you need to position the lure close to a wreck or shoal of fish. The Fit Jig butterflies in the first few meters and then enters into a quick descent to reach the desired fishing area. This attribute makes it possible to get as close as possible to the preferred position. Once the lure has arrived at the desired location, it is during the retrieve that it excels as it rises quickly like a fish trying to escape for 5 to 6 meters, creating lot attractive and erratic movement. An asymmetrical body design, one face with a curve and scales, whilst another face angled and smooth, is the key to the lures action. Armed with an ASSIST HOOKS and a single VMC hook 7117 TI, the FIT JIG has proven its effectiveness on various marine species, when either boat fishing or from the shore.

The FAT JIG as the name suggests was designed to be heavy or rather compact! The Ragot range of spoons and Jigs is comprehensive, but to complete it, it was necessary to think «density». Designed as a dense yet compact lure, the FAT JIG casts very well, provide formidable efficiency to quickly reach the depths and is not too imposing to offer resistant in the current. Natural or Flashy colours and armed with an assist hook and a simple in-line, the FAT JIG proved during the tests to be a formidable weapon on all our marine predators, especially Plaice and Bass.

- Set of 2 diameter of elastic for bait.
- Each one is deliver in plastic tube with hole
- 100m for each

SET OF ELASTIC

Code	Ø	Size	Gencod	RRP (€)
RG0300356	0,2 mm + 0,3 mm	2 x 100 m		5,69

Trade Pack: x5

- Elastic 0,10 mm widely used in competition for all fragile and delicate baits of use, very practical for the small pieces of shrimp, mold and fragile baits.
- 0,20 mm elastic is widely used for larger baits such as squid, sardines, knives... a little stronger than the size N°1 but remains very discreet for the fish.
- Supplied in a protective tube.

BAIT ELASTIC

Code	Ø	Size	Gencod	RRP (€)
ATO010032	0,10 mm	200 m		4,39
ATO010033	0,20 mm	200 m		4,39

Trade Pack: x5

- Double needle makes it easier to position the worm and then hold it with an elastic band
- Sold in batches of 2: Diameter 1.2 mm for the first (6 mm space between each needle) and 1.5 mm for the second (11 mm space between each needle).

WORM DOUBLE NEEDLE

Code	Gencod	RRP (€)
RG0300355		3,99

Trade Pack: x10 (2 per pack)

This elastic thread has a great resistance, it can be used to hold bait in place on the hook, avoiding detachment from the hook when casting & hitting the water. It also prevents small fish from taking the bait off the hook.

ELASTIC LINE SPOOL

Trade Pack: x1

NEW 2026

Semi-rigid pouch for storing and protecting your rigs. Supplied with 17 foam winders (65 mm diameter) in various colors. Made from OXFORD 840D fabric. Reflective strip for night fishing and easy bag location.

RIGGING BAG

Code	Size	Gencod	RRP (€)
RG0700039	30 × 9 cm		16,99

Trade Pack: x1

High level Bakkan made from 1.5 mm EVA with a moulded reinforced lid and base for added protection, combined with welded seams and clip lock system. Designed to accept lure boxes and keep them 100% dry. Large plastic zips making the bag ideal for both freshwater and saltwater fishing, from a boat or on the bank. Additionally, for easy access, the bag also has a magnet system. The Bakkan is easily carried, either by the hand carry handles or by the adjustable shoulder strap. Volume: 26L

BAKKAN 3K

Code	Size	Gencod	RRP (€)
RG0700033	41 x 26 x 25 cm		75,69

Trade Pack: x1

A pouch to be used inside the Bakkan for storing plastic boxes, accessories, licence, phone, keys etc. Made from 1.5 mm EVA and using a plastic zip, the pouch will keep the contents dry and safe when fishing either freshwater or saltwater. Finished with a strong PVC carry handle and a transparent lid to easily see the items inside.

POUCH 3K

Code	Size	Gencod	RRP (€)
RG0700034	40 x 26 x 5 cm		24,99

Trade Pack: x1

The Bakkan Ragot is a multipurpose waterproof bag with a zippered lid and a watertight bottom. It is the ideal container to protect material from external moisture. It accepts up to 4 boxes RAGOT RG1421002 (boxes not provided). Being waterproof, bakkan Ragot can also be used as a raw bucket or as a rescue pond. Reinforced handles and carrying strap.

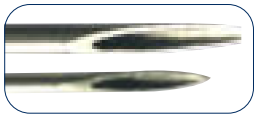
RG0121003	100 cm	5 mm		9,19
RG0121004	100 cm	5,50 mm		9,29

Trade Pack: x1

Glow handle for easy identification at night. Two diameters for fragile or big baits.



SURF RIG NEEDLES 25CM

Code	Size	Ø	Material	Gencod	RRP (€)
RG0300256	25 cm	1,80 mm	Stainless steel		4,19
RG0300253	25 cm	1,20 mm	Stainless steel		4,09

Trade Pack: x10

NEW SIZE

These baiting needles have a specially designed loop to thread live or dead fish. The smallest is perfect for mounting a minnow while the larger (20 cm) is more suitable for a sandeel.

EYED NEEDLE

Code	Size	Ø	Material	Gencod	RRP (€)
246120221	12 cm	0,80 mm	Stainless steel		2,39
101700221	18 cm	0,80 mm	Stainless steel		2,39
RG0100049	30 cm	1,20 mm	Stainless steel		3,49

Trade Pack: x10 (2 per Bag)

These robust and inflexible brass needles have been specially developed to easily mount weak baits such as trawl worms, pistiches, lugworms and when freshwater fishing large worms such as Canadian, earthworms etc.

BRASS NEEDLE

Code	Size	Ø	Material	Gencod	RRP (€)
121152221	15 cm	1,50 mm	Brass		2,79
122202221	20 cm	1,50 mm	Brass		3,19

Trade Pack: x10 (2 per Bag)

These needles are undoubtedly among the most versatile in the range because they are suitable for both long bait fragile (nereids and lugworms) as for larger worms (Canadian, earthworms).

HOLLOW STAINLESS STEEL NEEDLE

Code	Size	Ø	Material	Gencod	RRP (€)
700020221	20 cm	1 mm	Stainless steel		2,99

Trade Pack: x10 (2 per Bag)

These beautiful beveled needles greatly facilitate esching and help preserve the bait. They are also very practical for stitching tube worms that are a little harder than classical worms. To be tested imperatively!

STAINLESS STEEL NEEDLE

Code	Size	Ø	Material	Gencod	RRP (€)
123202221	20 cm	1 mm	Stainless steel		3,09
RG0100023	22 cm	1,50 mm	Stainless steel		3,09
RG0100024	22 cm	1,80 mm	Stainless steel		3,09
RG0100025	22 cm	2,20 mm	Stainless steel		3,09

Trade Pack: x10 (2 per Bag)

A classic design that you can use for many types of baits including large worms.

STAINLESS STEEL NEEDLE

Code	Size	Ø	Material	Gencod	RRP (€)
121202221	20 cm	1 mm	Stainless steel		3,59

Trade Pack: x10 (2 per Bag)

This model has been specifically developed for easily mounting the bait. Both needles will also work perfectly for all fragile worms. Stainless steel gives a good rigidity to the whole.

STAINLESS STEEL NEEDLE FULL RING

Code	Size	Ø	Material	Gencod	RRP (€)
129600221	18 cm	1 mm	Stainless steel		3,69

Trade Pack: x10 (2 per Bag)

Designed with a plastic tip which is really handy to avoid piercing the worm from side-to-side when mounting. The ideal model for delicate baits.

990200221	Red		78,99
RG7500002	Yellow		78,99
RG7500003	White		78,99

Trade Pack: x1

MYSTIC pastes are easy to assemble and hold well to the hook, they do not flow and are indissoluble in water. Not perishable, cap well closed, they can be kept very long. Can be used alone, or mixed with other baits (excellent result on worms, maggots, etc ...).
At the origin of the invention and 60 years later, the little red tube is still the favorite of fishermen. Of formidable efficiency alone or in variegated, it is of course the tube that must have in his basket seat. Yellow is ideal for imitating corn grain, wheat grain, cheese etc. With white, you will easily replace maggots, rice grain, bread crumbs etc. Finally, the green is it for a specific fishing: fishing Foam.

Several colors and perfumes adapted to calm and common waters. For carp, tench, bream and all other white fish.
- Food quality.
- Exceptional pigmented colors.
- Holding the hook impeccable.
- Proteins and vitamins preserved.
- Sterilized packaging.
- Malignant lids to close the box during the fishing trip to preserve the seeds.

The Gyro is a hi-performance blended, braided multipurpose line made with HMPE fibers. It is a sinking line with near zero stretch ratio. It has good breaking resistance and excellent diameter to strength ratio with most commonly used knots. Can be used as mainline for casting, carp fishing, feeder fishing and boat fishing.

SUFIX GYRO

Code	Size	Ø	Strength	Gencod	RRP (€)
060035210	250 m	0,50 mm	41,3 kg / 90 lbs		**27,25**
080035210	250 m	0,60 mm	56,7 kg / 125 lbs		**30,40**

Trade Pack: x1

Reinforced braid extremely resistant to abrasion and friction.
- Perfectly suited for the bottom of the line, but also for making dead manic frames or custom frames. (Triple mounting on lure for example).
- An essential product that must be part of your equipment because it is limitless and indispensable in the face of an opponent of size for which you must be "armed".

STRIKE CAT 20 m

Code	Ø	Strength	Gencod	RRP (€)

RG6000014	300 g		**5,89**

Trade Pack: x3 (1 per bag)

Visibility, buoyancy and sensitivity, 3 essential qualities for our Saône float.
A light body, an elongated shape and a rather low waterline gives it excellent visibility at distant fishing distances or in strong winds.
- Its tapered shape allows it not to suffer too much resistance to penetration into the water during a shy touch.
- Very versatile, this float is powerful in all seasons and for all situations (earthworms, live, edge, boat, drift or fixed, in strong or weak currents, ...).

SAÔNE

Code	Weight	Gencod	RRP (€)

RG6000010	300 g		**7,29**

Trade Pack: x3 (1 per bag)

Here is one of the key elements in catfish fishing: the hook. This one is subjected to hard tests, friction, wear, very important traction exerted by very powerful fishes...
For this reason CAT SPIRIT chose to propose to you VMC hooks combining all the qualities required to face the biggest catfishes:

- Extremely resistant to opening or snapping.
- PTFE coating (polytetrafluoroethylene) for faster penetration and reduced visibility.
- Ultra-sharp ground point.

8357 PTFE

Code	N°H	Quantity	Gencod	RRP (€)
RG6000020	5/0	5 per blister		8,99
RG6000021	7/0	4 per blister		8,99
RG6000022	9/0	3 per blister		8,99

Trade Pack: x3

Originally developed for the Jigging, the 7264 VMC has an ultra-sharp ground tip, black Nickel coating, forged and reinforced opening strength. It is a simple hook, yet highly affective with super strong construction, extra wide gape and short shank making it ideal for avoiding the hook opening mid-battle. The design also provides better bait mounting :
- To hang a live through the mouth without injuring it too much and to keep it alive optimally on the frame by gluing the muzzle as close as possible to the lead
- To avoid with its short stem the tears caused by repeated movements which are amplified with a shank too long and therefore acting as a lever
- Even if it is not necessarily intended to sting the predator, its very rounded and wide shape, combined with the extreme sharpness, facilitates penetration on hesitant fish that don't get hooked on the treble
- The 7264 is also perfect for creating a hair mount for pellets or even just for fishing with natural baits

Trade Pack: x3

REAL SIZES

The 8626 is a triple hook with unparalleled versatility, reinforced (3X), just enough to cope with most fights, but not too much and therefore makes it suitable for many uses:
- change the triple hooks tired of your lures or replace others not sufficiently adapted and too fragile on fish swimmers, it is perfect to arm them properly without creating too much imbalance,
- reduces the damage to livebaits compared to a thicker gauge hook.
- delicately bunch a bunch of Canadian earthworms on a clonck mount ...It is the product that meets the requirements of our techniques in 80% of cases and the ideal tool suitable for most of our French rivers.

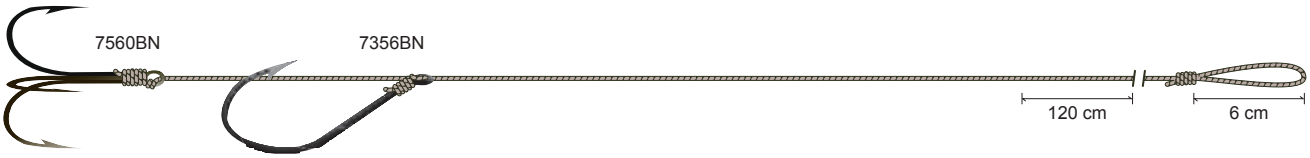
Trade Pack: x1 (20 per blister)

This is the classic braiding assembly. The small-sized snapper is stung directly on the hook by the nose or on the top at the dorsal fin.

SINGLE HOOK 7356 BN RIG

Code	Size	Strength	Hook	Gencod	RRP (€)
RG6000052	80 cm	50 kg / 121,25 lbs	Single 7/0		**3,89**

Trade Pack: x3



It is the most commonly used and most effective braiding fixture for drift fishing with large size live. It allows to bite with the simple hook live under the dorsal fin. Most of the time, the triple is left free, hanging under the belly of the alive one while in other cases, some prefer to fix it on the caudal fin by means of a small elastic.

MULTI HOOK (1 X SINGLE 7356 BN / 1 X TREBLE 7560 BN) RIG

Code	Size	Strength	Hook	Gencod	RRP (€)
RG6000053	120 cm	50 kg / 121,25 lbs	Treble 3/0 - Single 7/0		**10,29**
RG6000054	120 cm	75 kg / 176,37 lbs	Treble 4/0 - Single 9/0		**11,89**

Trade Pack: x3

The FIRE BALL ROTATIVE CAT SPIRIT is composed of a head in which is drowned a single hook reinforced 8357 PTFE VMC.
- The space intentionally short between the lead and the tip of the hook has the main imperative to allow a clamping of the live very close to the lead, limiting the tears due to repeated animations.
- Improvement requires, rolling also partly embedded in the mass of the lead is located on the upper part and considerably limits the twisting of your line body.
- The lower eyelet in stainless steel allows to fix a stack armed with a second triple hook at the back of the live.

ROTATING FIRE BALL

Code	Weight	N°H	Quantity	Gencod	RRP (€)

BLAX CAMO BED 8

- Bed that offers exceptional performance and value.
- The high-density foam filled mattress and fold flat steel frame, results in a highly durable bed that provides a fantastic night's comfort.
- All legs are fully adjustable to combat the most unaccommodating of bankside locations.

Perfect size for use with all our XL size sleeping bags (see pages 785 to 787).

THE DETAIL

1. High density foam filled mattress and perimeter.
2. Low-profile neoprene pillow.
3. Fold flat steel frame.
4. Fully adjustable legs with auto lock adjustment.
5. x8 swivelling mud-feet.

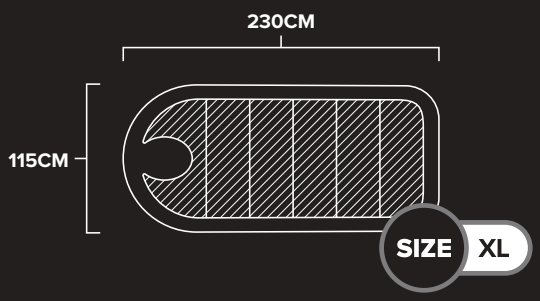
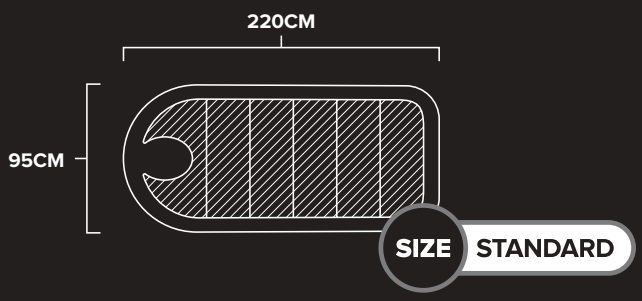
SLEEPING BAGS & ACCESSORIES

SLEEPING BAGS

Being comfortable on the bank is a must – the more comfortable you are, the better you'll fish... and this will ultimately contribute to your success rate. Here at Carp Spirit we take bankside comfort very seriously, so when we developed a complete new range of Magnum and BLAX sleeping bags and covers, there was a huge focus on research, development and testing to ensure that the finished range of products are the very best available on the market, yet still offer excellent value for money. Rather than just develop a new range of sleeping bags in isolation, we actually designed them as a parallel development alongside the all new Magnum and BLAX beds. The end result is a superb synergy between both our sleeping bags and beds that uses a simple two sizing system;





So whether you're fishing summer nights under a brolly, or a winter session in sub-zero temperatures, you can be sure that there's a Carp Spirit sleeping bag with the performance to meet your requirements, keeping you comfortable and warm during your session.

MAGNUM 5 SEASON

Perfect with our range of beds: Pages 772-773.

- Sets a new standard in bankside comfort, even when fishing in the most extreme conditions.
- Featuring a 5 Season silicone treated Hollow Fibre filling and a detachable central layer, it is incredibly versatile allowing extra warmth to be added or removed as the temperature changes throughout the year.
- **Filling:** 5 Season Hollow Fibre filling with silicone treatment for increased volume & longevity.
- **Outer:** Waterproof Rip-Stop Polyester outer fabric.
- **Inner:** Unique 50/50 lining – Micro fleece upper / Smooth Rip-Stop polyester lower.

MIN TEMP -20°C ❄

THE DETAIL

1. Fully detachable centre layer.
2. Oval cut out – Allows you to be fully zipped in for maximum warmth.
3. Closely spaced full length panel stitching.
4. Drawcord base.
5. Side zips stop short at the base creating a thermal pocket around your feet.
6. Oversized external/internal zip baffles.
7. Hooded pillow retention draw cord.

Supplied in stuff sack.

Large neck polar fleece baffles to keep you warm.

10mm heavy-duty crash zips.

Velcro leg cut outs to help secure to bed.

Zipped mesh pockets on both sides.

Oversized head to secure to bed.

Central securing strap.

BLAX CAMO

NEW 2026

OUT HOUSE QUICK XL

Our Out House Quick XL is the ideal tent for use as a kitchen area or for short- and long-term session. It can be set up (and taken down) in under a minute thanks to the Push-Loc system on each panel and the roof. Spacious and comfortable, it features a unique design with our exclusive camouflage pattern. Simple, fast, clever, and incredibly effective—even in strong winds!

Pentagon shape for optimized space:

- The front panel includes an opaque flap and a waterproof, translucent plastic window to enhance brightness and visibility.
- The whole front can also be converted into an awning using 2 poles (not included).
- Each side panel is fitted at the top with a plastic window with a blackout cover for maximum light.
- The two rear panels feature zippered mosquito nets at the bottom for extra ventilation.
- One of the rear panels includes a zippered triangular door for quick rear access to the bivouac and improved airflow during hot weather.
- A protective skirt around the base reduces water runoff in the rain and limits air entry in strong winds.

Specifications:

- Packed dimensions: 180 x 35 x 35 cm
- Weight: 19 kg
- Extremely fast setup and takedown system
- Very spacious interior with nearly 10 m^2 of surface area
- Height at peak: 215 cm
- Front panel (door) dimensions: Height 180 cm – Width 130 cm
- Supplied with groundsheet and screw pegs.

BLAX CAMO BIVVY

NEW 2026

- Constructed using tough & durable 200D PU backed nylon (5,000mm² hydrostatic head), with thermally taped seams throughout.
- 2-rib design Aluminium main frame is lightweight and features a front porch peak – perfect for when fishing the front door letter box style.
- Sides mosquito vents can be used by simply rolling back the covers.
- The front door features 3 options of closed, PVC or Mosquito mesh.
- The front itself can be completely rolled back and clipped into place to provide maximum visibility of the lake.
- Durable lightweight PU groundsheet, heavy duty moulded 'T' pegs, and oversized carry bag included.
- Available in 1- and 2-man options

BLAX ALARM & RECEIVER

The new BLAX Bite Wireless Alarms and Receiver by Carp Spirit offer outstanding features, value and performance. With fully adjustable Tone, Volume, Sensitivity and a Night Light Facility, the BLAX Alarms have features normally reserved for high end alarms, additionally an LED colour change button allows the anglers to choose between 7 different LED colours all at press of a single button. Sleek and compact design, the body is made from tough and durable ABS body to ensure they will provide years of trouble free and reliable service.

THE DETAIL

1. Run and lacthing LED.
2. Soft rubber non-slip insert.
3. Nightlight LED.
4. On / Off / volume.
5. Tone control.
6. Sensitivity control.
7. LED colour control.
8. Aluminium screw thread.

THE DETAIL

1. On/off power.
2. Volume control.
3. Tone control.
4. LED Colours x4.
5. Antenna.

9V battery for both Alarm and Receiver (not included).

STAINLESS STEEL BUTT CAP

Manufactured from 300 series grade stainless steel with a laser etched Logo. The hard nature of stainless steel is more durable and resistant to damage.

ANTI-FRAP TIP GUIDES

Anti-Frap tip guides feature smooth and blended side bracings between the tube and centre frame. This special shape greatly reduces the chances of line getting wrapped around the tip of the blank before, during or after the cast.

SEA-GUIDE GUIDES

sea·guide® PRECISION ROD COMPONENTS

TUXTLSG – Highest quality, lightweight, double leg guides with a Titanium finished frame. Featuring Silicon Carbide centres and externally rolled frames to help prevent guide centre damage.

BTLTSG – High quality, lightweight, double leg guides with a black anodised finish. Featuring Silicon Carbide centres and externally rolled frames to help prevent guide centre damage.

BTLSG – High quality, lightweight, double leg guides with a black anodised finish. Featuring Silicon Carbide centres and externally rolled frames to help prevent guide centre damage.

CARBON CLONE REEL SEAT

Machined entirely from a carbon tube and featuring a 1K weave, this reel seat is ultra light weight and perfectly matches the rod weave and cosmetics. It will accept both big pit and standard size reels.

1-K WEAVE

The tightest weave we use on our rods. The multi-directional carbon fibres are interwoven at a rate of 1mm x 1mm, providing thousands of overlays across the blank length. The end result is added strength to the blank itself and increased tip speed recovery to aid both casting distance and accuracy.

3-K WEAVE

Multi-directional carbon fibres are interwoven at a rate of 3mm x 3mm, providing thousands of overlays across the blank length.

The end result is added strength to the blank itself, and increased tip speed recovery to aid both distance casting and accuracy.

MAGNUM X2

- An extensive series of rods with fantastic performance and value.
- The blank made by using a special 30-Ton hi-modulus carbon offering a slim blank, fast action and lightweight.
- Cosmetics are both minimalistic and subtle with matte finished blanks, gunsmoke reel seats and guide frames, and with a small section of 3K weave above the reel seat.
- High quality SEA GUIDE TDG guides are used throughout, which are lighter, provide increased transmission and are not damaged from braid use when compared with ceramic guides.

BLAX

BLAX EVO

- A series of rods that have been designed and developed to be 'best in class'.
- At first glance you would be forgiven for thinking that the BLAX rods are twice their actual price and rightly so.
- Slim, lightweight, dark matte blanks have been constructed using the finest 24-Ton carbon pre-preg.
- Built using high quality Slim Guides and lightweight anodised Aluminium fittings.
- Amongst the standard test curves, you will find some fantastic utility rods such as the 10ft rod, ideal for stalking or for use in tight swims.

BLACK BOAT

When the Black Boat series was first introduced, Carp Spirit became one of the very first brands to produce inflatable boats specifically developed for carp fishing. Now established as a market leader and a benchmark throughout Europe, the latest range of Black Boats have now been improved even further to meet the demands and expectations of the modern-day carp angler.

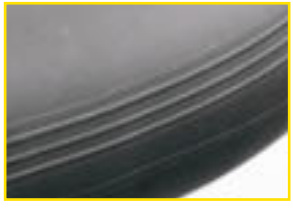
Packed with new and additional features such as improved inflatable floors, new handles, and increased width to provide even more space and greater stability; all this alongside superb durability to provide years of service. Black Boats... **'The Benchmark'** in carp fishing boats.

- 3+1 Inflatable chamber system.
- Heavy duty 0.9mm canvas with re-enforced side and base for extra protection.
- Inflatable floor (240WI, 270WI & 300WI) with front anti-return valve location. Aluminium floor (320W).
- Built-in floor strengthening ribs for super rigidity.
- Battery protection with strap located at the back.
- Inflatable and reinforced keel cuts through the waves and keeps the nose on course.
- One-way multi point inflation valves.
- Safety overpressure valve.

*270WI / 300WI / 320WI

THE DETAIL

1. Cleat at the front to stabilise the boat, even with one hand.
2. Stainless steel ring at the front.
3. Inflatable floor (240WI, 270WI & 300WI).
4. Black Aluminium floor for stability (320W model only).
5. Removable and adjustable seats.
6. Battery protection with strap.
7. Extra strong grab handle on the rear.*
8. Extra strong transom with motor support plate.
9. Removable black oars with secure fixing screws.
10. Side multi-use handles.
11. Internal stainless ring with fixing cord included.
12. Side rope.
13. Floor inflation valve with anti-return.
14. Inflatable and reinforced keel.



Heavy duty 0.9mm canvas with re-enforced side and base for extra protection.

Storage bag, large volume foot pump and repair kit included.

BLACK BOAT 320W

An extreme boat for the most extreme conditions, the 320W is built for the most demanding of situations. With its additional pair of moulded front handles, an Aluminium floor, 2 seats and with an engine rating power of up to 15HP, this boat is the perfect tool for any big lake, huge rivers, or even giant catfish fishing. Perfect to move all your equipment from one side of the lake to the other at a moment's notice, whatever the weather; it is even big enough to sleep in.

DETAIL

- Side tubes diameter – **42cm**

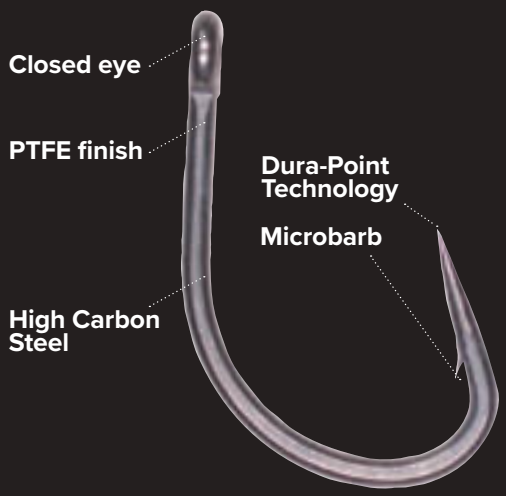
HOOKS & READY RIGS

RAZOR point

Since their Launch, Razor point hooks have become a firm favourite with Carp Anglers from around the World. With thousands of Carp hooked and safely landed on them, it's easy to see why so many anglers trust and finish their rigs off with our Razor point hooks. Designed from scratch, and tested to the extreme in both in the laboratory and in real world fishing situations by our Global team, you can be confident that whichever Razor Point hook you choose it won't let you down. Attention to detail is everything; each Razor point hook is made to ultra-fine tolerances, carefully tempered using a computer controlled process and chemically sharpened using Durapoint technology. The comprehensive range ensures that whatever angling situation you're faced with, there's a perfect hook pattern for it. We believe our range of Razor point carp hooks are the most technically advanced on the market today – Something we are extremely proud of.

Now with 80% less plastic packaging.



- **Dura-Point Technology** – The sharpest, longest, most durable hooks points in the carp hook World – Even after multiple uses.
- **High Carbon Steel** – Raw material choice is critical, and we only use the best quality high carbon steel available to produce our Razor point carp hooks, providing the very best strength, durability and reliability.
- **PTFE Finish** – The smooth PTFE finish not only reduces glare to avoid spooking wary carp, but also reduces friction, therefore aiding penetration speed by up to 50%.
- **Closed Eye** – Each hook eye is precisely formed to ensure it's truly 'closed' to ensure that zero damage occurs to your hook link, particularly when using the 'knotless knot' and perfect for low diameter hook links or braid.
- **Micro Barb** – Ultra small Micro barbs are designed to offer an extraordinary hook hold during the fight yet minimise mouth damage during unhooking.

"Sharpest hooks, straight from the packet."

Ian Russell

Round-Curve | V-Curve | V-Curve XS | Long Shank | Boilie Beak Point | Medium Curve Shank | Continental Xtra Strong | Short Curve Shank

HOOKS

RAZOR ROUND-CURVE

- The most recent addition to the Razor Point range of hooks is the Round-Curve. Perfect for all kinds of rigs from Wafter rigs to the more modern favourite Ronnie Rig. When you are playing a fish, this shape hook hold just gets better under pressure. Several very large Carp have already fallen for the Round-Curve whilst being field-tested.
- Super strong & incredibly sharp.
- PTFE coating.
- Available in both barbed and barbless in sizes 2, 4 and 6.

ACS350090	6	Micro Barbed	10		5	5.89

RAZOR LONG SHANK

- Versatile, strong, and reliable, the LS pattern has been designed to cope with a wide variety of carp fishing situations.
- The in-turned eye, straight point and forged shank makes the LS pattern perfectly suited for both hair-rigged bottom baits and pop-up boilies. It is the perfect choice for sliding ring anti-eject rigs.

READY RIGS

RAZOR SPINNER RIG

- One of the most efficient rigs to present a low-lying pop-up. A big advantage of this rig, is the possibility to change the hook quickly and easily.
- Made using a CS Medium Curve Shank barbed hook, with a stop and micro-rig swivel mounted on it, spinner swivel covered in shrink tube, tied to 15cm of 0.55mm fluorocarbon hooklink.
- Available in sizes 4 & 6, in packs of two.

REACTION™ RIG

- A simple but highly effective rig tied using our fast-sinking Re-Action Braid.
- The soft and supple make up of Re-Action Braid make this the perfect choice rig for when using PVA bags.
- It can be fished with either bottom baits, pop-ups or snowman presentations by simply adding Tungsten Putty or a split shot onto the braid to counterbalance the bait.

SHOCK LEADER

VELOCITY TAPERED LEADER

NEW 2026

- Made from a special polyamide copolymer, Velocity Tapered Leaders are the perfect solution to achieve a small shock leader knot that will easily pass through the rod guides, yet still retain the benefits of a thicker Hi-Abrasion resistant shock leader.
- Each leader is 15m long. The front 5m is parallel, followed by a 6m tapered middle section and then a 4m parallel section at the end. If required the tapered section can be simply trimmed back to increase the diameter before being knotted to the mainline.

TERMINAL TACKLE, SWIVELS & LEADS

TERMINAL TACKLE

LEAD CLIPS PACK CAMO

- Probably the most popular method for attaching a lead with safety in mind.
- The force required to 'ditch' the lead is pre-determined by how far the tail rubber is pushed onto the clip.
- Each clip features a hole to accept the small pin to lock the swivel securely into the body (which is essential for the clip to work properly) but can be removed by using the supplied tool.

CODE	COLOUR	DIAMETER (MM)	QUANTITY	GENCOD	TRADE PACK	RRP (€)
LEAD CLIPS PACK CAMO						
ACS010410	Camo	—	10		5	6.99

METAL LEAD CLIPS CAMO PACK

- Metal lead clip design to be used with a size 8 swivel.
- Ultra-resistant up to 350g for extreme fishing.
- Camouflage colouration.
- Pack includes: 10 metal lead clips and 10 tail rubbers.

BAITING UP

MAGNUM THROWING STICK

- Made from 3K carbon fibre, not only is it extremely accurate, but with its ultra-light construction helps avoid arm and shoulder strain, particularly when baiting heavily. Easy grip handle to avoid the throwing stick twisting whilst in use and finished with a wrist retaining strap. Supplied in a Neoprene case.

Available in 3 sizes:

- The XLarge, Long Distance version is designed for long distances or larger baits and is 35% longer than the existing model. This extra length helps to propel the boilies up to 20m further than a standard length throwing stick.
- XLarge - For boilies up to 26mm.
- Large - For boilies up to 22mm.

TRIPOD SQUARE BUCKET STAND

- Designed for use when spodding, particularly useful when applying large quantities of bait. The design also aids accuracy, helping to avoid constantly moving position when reloading the spod. Best used with square or rectangular bucket.
- Made from a black coated steel frame, combined with adjustable legs and a support for a rod, shovel or towel. Supplied in its own carry case.
- The ideal partner for the Carp Spirit 10 and 17L Square Buckets.

We are a Feed Registered Company, which is a requirement of Trading Standards for all bait manufacturers.
Lookout for our Registration Number displayed on our packaging.
Includes: Groundbait, Pellets, Boilies, Particles / Exempt: Pop-ups, Hookbaits, Liquids

NEW BOILIE PACKAGING FOR 2026

We've taken the next step forward in our boilie packaging, modernising both the design and materials. The new look is not only more appealing to consumers but also more retail-friendly—enhancing shelf presence, improving presentation, and ultimately driving increased sales.

NEW PRODUCTS 2026

2026 sees the exciting launch of a brand-new Dynamite boilie: Peppered Fruit. This unique and highly attractive birdfood boilie is packed with fruity attractors and a fiery kick of pepper—making it a surefire winner on waters across Europe, all year round.

We've also expanded our hookbait ranges, adding new options to Peppered Squid, Hot Crab & Krill, N-Ticers, and Fluro Two Tone.

Following the strong success of the 300g Carptec boilie bags in 2025, we're pleased to announce that all flavours are now available in both 15mm and 20mm sizes.

Our ever-popular Frenzied Particles range welcomes new additions: Tiger Nuts in a highly attractive Betaine & Molasses infused version, and for added convenience, a ready-to-go Hempseed & Sweetcorn mix—combining two of the most effective fish attractors of all time.

Due to the growing popularity of our Big Fish Feeder Ready Pellets, we've added a new Garlic variant—certain to become a firm favourite among competition anglers.

FOODBAIT & FLURO POP-UPS

- Super buoyant, perfect for Ronnie and Chod rigs
- Can be used over the foodbait or as a single
- Foodbait: 12mm / 15mm
- Fluro: 10mm / 15mm

HOOKBAIT DIP

- Easily coats and clings to all hookbaits
- Instantly releases a cloud of attraction around your hookbait
- 100ml bottle

HARD HOOKBAITS

- Specially toughened hookbaits to avoid nuisance species
- Unique process to ensure optimum attractor leakage
- 15mm / 20mm

FOODBAIT WAFTERS

- Critically balanced 15mm hookbaits
- Same key ingredients and colour as The Source™ boilies
- Ideal for fishing 'match-the-hatch' over the foodbait

LIQUID ATTRACTANT

- Contains water soluble feed stimulants, amino acids, palatants and attractants that slowly release a powerful flavour trail through the water column
- Excellent for soaking and rehydrating boilies or adding to spod/particle mixes
- 500ml bottle
